The purpose of the hearing is to receive comments from all interested persons regarding the adoption of a regulation that pertains to Chapter 654 of the Nevada Administrative Code, LCB File No. R106-24.

The following information is provided pursuant to the requirements of NRS 233B.0603:

1. The need for and the purpose of the proposed regulation.

The purpose of the proposed regulation is: (1) to improve and streamline the licensure process by removing outdated requirements and references; (2) remove language that is outdated or unnecessary; (3) improve compliance with various notifications from licensees to the Board so that the public can better know which licensee is serving where; and (4) update and modernize investigative and disciplinary procedures.

2. Either the terms or substance of the proposed regulation or a description of the subjects and issues involved.

***Section 1** of this regulation authorizes the Board to refuse to provide administrative services to a person who fails to pay a fine imposed by the Board or refuse to renew the license of such a person after: (1) the order imposing the fine becomes final; and (2) the time prescribed for the payment of the fine has expired. **Section 18** of this regulation removes a provision that the Board will automatically refer an unpaid fine for disciplinary action.*

*Existing regulations establish requirements to renew a license or reinstate an expired license, including continuing education requirements. (NAC 654.091, 654.093, 654.112, 654.152, 654.154, 654.169) **Sections 2, 8 and 14** of this regulation require a person whose license as a health services executive, nursing facility administrator or administrator of a residential facility for groups, respectively, has expired to apply for a new license rather than applying to reinstate the expired license. **Sections 8 and 14** also remove the requirement that a person applying for a new license as a nursing facility administrator or administrator of a residential facility for groups after his or her license has expired take a written examination. **Sections 3 and 15** of this regulation require that continuing education programs completed by a health services executive or an administrator of a residential facility for groups be related to the field of long-term care and support and services. **Section 20** of this regulation repeals a duplicative provision which establishes requirements for continuing education for a person who holds both a license as a nursing facility administrator and a license as an administrator of a residential facility for groups that are equivalent to the requirements for renewing those licenses separately. **Sections 8, 9, 14 and 15** make conforming changes to remove references to the repealed section.*

*Existing regulations require a health services executive to ensure that a nursing facility, residential facility or veterans' home complies with certain state laws and state and federal regulations. (NAC 654.095) **Section 4** of this regulation removes the requirement that a health services executive ensure a veterans' home complies with certain state laws and state and federal regulations.*

*Existing regulations establish the required qualifications for licensure as a nursing facility administrator. Such qualifications of a nursing facility administrator include the completion of certain educational, internship or residency programs, which may include a program for training administrators. (NAC 654.100, 654.111) **Sections 5 and 6** of this regulation: (1) revise the requirements applicable to such a program; and (2) remove authorization for an applicant to hold a certain certificate in lieu of completing another authorized educational, internship or residency program. **Sections 6 and 12** of this regulation remove certain requirements applicable to a person who is currently licensed as a nursing facility administrator or an administrator of a residential facility for groups in another jurisdiction and wishes to obtain a license in this State without examination. **Section 9** terminates the automatic approval of certain programs of study to train and qualify applicants for a license as nursing facility administrators.*

Existing regulations require an applicant for a license as: (1) a nursing facility administrator who is not licensed in another jurisdiction to have passed an examination administered by the National Association of Long Term Care Administrator Boards or any testing service approved by the Board; and (2) an administrator of a residential facility for groups to

have passed an examination administered by the National Association of Long Term Care Administrator Boards. (NAC 654.1115, 654.1505) **Sections 7 and 13** of this regulation standardize provisions concerning these examinations to require an applicant for either a license as a nursing facility administrator or an administrator of a residential facility for groups to have passed an examination administered by the National Association of Long Term Care Administrator Boards. **Sections 7 and 13** also revise: (1) the number of times an applicant may fail that examination before being required to wait for a period of time to retake the examination; and (2) the period of time that such a person must wait before taking the examination.

Section 10 of this regulation requires an applicant for license as an administrator of a residential facility for groups to be a citizen of the United States entitled to work in the United States. **Section 10** additionally revises the types of experience that the Board will accept to satisfy certain requirements for licensure relating to experience in health care. **Section 10** also authorizes the Board to waive any of the requirements for such licensure prescribed in existing regulations upon a showing of good cause. **Sections 11 and 16** of this regulation make conforming changes to update internal references changed by **section 10**. **Section 19** of this regulation provides that the changes made by **sections 5, 6, 10 and 12** to the qualifications for licensure as a nursing facility administrator or the administrator of a residential facility for groups do not apply to persons who are currently licensed on the effective date of this regulation.

Existing regulations provide that a member of the Board or a committee appointed by the Board will review a complaint against a licensee and make certain recommendations for action. (NAC 654.220) **Section 17** of this regulation additionally authorizes an investigator appointed by the Board to conduct such a review and make such recommendations. **Section 17** also makes certain other revisions relating to the process for imposing disciplinary action against a licensee and the types of disciplinary action that the Board may impose.
