Legislative Counsel's Digest:

Existing law requires certain regulatory bodies to adopt regulations providing for the issuance of a license by endorsement to engage in an occupation or profession in this State to a natural person who: (1) holds a corresponding valid and unrestricted license to engage in that occupation or profession in the District of Columbia or any state or territory of the United States; (2) possesses qualifications that are substantially similar to the qualifications required for issuance of a license to engage in that occupation or profession in this State; and (3) satisfies certain other requirements, including submitting to a background investigation by the Central Repository for Nevada Records of Criminal History or providing proof that he or she has passed a comparable background check. Sections 2 and 10 of this regulation make technical changes to the requirements for examination for licensure as an apprentice or a student.
