

**SECOND REVISED PROPOSED REGULATION OF THE
STATE BOARD OF EDUCATION**

LCB File No. R145-22

December 20, 2023

EXPLANATION – Matter in *italics* is new; matter in brackets ~~omitted material~~ is material to be omitted.

AUTHORITY: §§ 1-3 and 5-7, NRS 385.080 and 385.114; § 4, NRS 385.080, 385.114, 388.360 and 388.380.

A REGULATION relating to education; changing the term “program area” for a program of career and technical education to “program of study” for such a program; revising the subjects for which the board of trustees of a school district may offer a program of career and technical education; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Existing law requires the State Board of Education to prescribe and cause to be enforced the courses of study for the public schools in this State. (NRS 385.114) Existing law also requires the State Board to establish policies or regulations and formulate plans for the promotion of career and technical education in such subjects as are an essential and integral part of the system of public education in this State. (NRS 388.360) **Section 4** of this regulation: (1) revises the subjects for which the board of trustees of a school district may offer a program of career and technical education in a public high school, middle school or junior high school; and (2) changes the term “program area” for a program of career and technical education to “program of study” for such a program. **Sections 1-3, 5 and 6** of this regulation make conforming changes by also substituting the term “program of study” for “program area” where appropriate. **Section 7** of this regulation makes the amendatory provisions of **sections 1-6** effective only if LCB File No. R165-22 is adopted by the Commission on Professional Standards in Education and filed with the Secretary of State.

Section 1. NAC 388A.600 is hereby amended to read as follows:

388A.600 1. For the purposes of subsection 1 of NRS 388A.518, the Department will consider a charter school to be a “vocational school” if the charter school provides:

(a) Instruction in at least grades 9 through 12, inclusive; and

(b) A progression of courses within one or more of the ~~{program areas}~~ *programs of study* set forth in subsection 1 of NAC 389.803 that prepares a pupil for entry level employment in the applicable program ~~{area}~~ *of study*.

2. A charter school that is a vocational school shall comply with subsection 3 of NAC 389.800, and the courses of study in career and technical education offered by such a school must comply with subsection 1 of that section.

Sec. 2. NAC 389.672 is hereby amended to read as follows:

389.672 1. A board of trustees may allow a pupil to earn, towards the units necessary for graduation from high school, two units of the credit required in English, one unit required in mathematics, one unit required in science and one-half unit required in health if he or she is enrolled in a course of study in career and technical education approved pursuant to this section within one of the ~~{program areas}~~ *programs of study* set forth in subsection 1 of NAC 389.803 and that course includes, as part of its curriculum, the curriculum of the required course.

2. The superintendent of the school district shall appoint a committee composed of one person certified to teach in the course of study in career and technical education and one person certified to teach in the academic area in which the credit may be earned. The committee must verify to the board of trustees that the curriculum for the course of study in career and technical education includes the curriculum of the required course of study for which a pupil may earn credit.

3. After verification has been received by the board of trustees, the written curriculum and title of the course of study in career and technical education and a statement of the academic credit to be granted must be submitted to the State Board of Education for approval. Academic

credit may be granted for the course of study in career and technical education or a combination of courses only after the State Board of Education has given its approval.

4. The Superintendent of Public Instruction may give approval for the granting of academic credit to a board of trustees requesting to use a curriculum for a course of study in career and technical education that has been approved by the State Board of Education for another school district if:

(a) The procedures set forth in subsection 2 were followed by the requesting district; and

(b) The board of trustees provides assurances that it will not deviate from the curriculum that has been approved by the State Board of Education.

5. A pupil who earns academic credit pursuant to this section must be notified that the approval for academic credit is designed to meet the requirements for graduation from high school and may not necessarily be accepted for academic credit by a specific postsecondary institution. A copy of the notification given to the pupil must accompany the other materials to be submitted to the State Board of Education for final approval.

6. A minimum number of credits must be earned in the respective academic areas, as follows:

(a) At least two credits must be earned in the academic mathematics department;

(b) At least one credit must be earned in the academic science department; and

(c) At least two credits must be earned in the academic English department.

Sec. 3. NAC 389.800 is hereby amended to read as follows:

389.800 1. Courses of study in career and technical education offered by the board of trustees of a school district in a program ~~area~~ *of study* for a program of career and technical education set forth in subsection 1 of NAC 389.803 must:

(a) Be based upon state standards and a written curriculum that has been developed in collaboration with representatives of the industry being studied to measure the competency of the pupil and which includes:

(1) The current skills and levels of performance necessary to perform the duties and tasks involved in being employed in the career field being taught or to support advancement in education and job training in a related career.

(2) Instruction which reinforces academic skills of reading, writing, speaking, listening, mathematics, science and using technology.

(b) Be designed to:

(1) Allow the pupil to pursue postsecondary academic options, career training or a recognized industry credential.

(2) Include pupils with disabilities.

(c) Provide the pupil with reasonable access to standard equipment used in the industry the pupil is studying.

(d) Include instruction in employability skills for career readiness prescribed for the course of study in NAC 389.555 and measure the proficiency of the pupil in the standards prescribed for that course of study through an assessment that measures proficiency in employability skills prescribed by the Department of Education.

(e) Require a pupil who completes the final course of instruction for a particular course of study in career and technical education to take an end-of-program assessment prescribed by the Department of Education which measures the proficiency of the pupil in the course of study, if such an examination is available.

2. The teacher of a course of study in career and technical education shall:

(a) Possess a valid endorsement to his or her license for each industry in which he or she teaches a course of study.

(b) Use resources, materials and techniques which do not discriminate among pupils.

(c) Evaluate the pupil's achievement of the required goals in the course of study.

3. Each pupil enrolled in a course of study in career and technical education:

(a) Must be given the opportunity to participate in career and technical student organizations that are:

(1) Affiliated with state and national organizations;

(2) Associated with the industry the pupil is studying; and

(3) An integral part of the instructional program.

(b) Upon completion of the program, should be qualified to enter a higher level of training or to enroll in a program of postsecondary education without the necessity of repeating previously learned skills.

4. Each pupil who completes a course of study in career and technical education must be awarded a certificate which states that he or she has attained specific skills in the industry being studied if the pupil:

(a) Maintained at least a 3.0 grade point average, based on a 4.0 grading scale, for all units of credit applicable toward the course of study in career and technical education;

(b) Passed the assessment that measures proficiency in employability skills prescribed by the Department of Education pursuant to paragraph (d) of subsection 1; and

(c) Passed the end-of-program assessment prescribed by the Department of Education pursuant to paragraph (e) of subsection 1, if applicable.

5. Each school district shall submit to the Department of Education an annual report that lists the number of pupils to whom a certificate has been awarded pursuant to subsection 4.

6. The superintendent of each school district that establishes a program of career and technical education:

(a) Shall maintain a current and comprehensive inventory of all capital equipment, if any, maintained for each course offered in career and technical education;

(b) Shall establish a list of equipment that is comparable to that used in the related career fields in which a course of study is offered;

(c) Shall not allow the use in career and technical education of equipment or facilities which do not meet the generally applicable safety requirements, including those adopted to ensure occupational safety and health for that career field; and

(d) Shall adopt a written statement of philosophy for the program of career and technical education, which must include, without limitation, stated goals that such instruction will align to state standards and support advancement in education and job training in a related career.

7. The teacher of a course of study in career and technical education shall cooperate with the guidance counselor of each school to assist pupils to enroll in an appropriate course of study. The guidance counselor shall assist the pupil to achieve:

(a) An awareness of the opportunities for the development of technical and employability skills required in the various industries.

(b) An exploration of the pupil's abilities with his or her career interest.

(c) Completion of the course of study in career and technical education.

(d) Opportunities for continued career development, education and training.

8. The Department of Education shall request surveys to be taken of each pupil who has completed a course of study in career and technical education to determine the effectiveness of the program.

9. The State Board of Education will request the Superintendent of Public Instruction to present annually to the State Board the list of industry-recognized credentials identified by the Executive Director of the Office of Workforce Innovation pursuant to NRS ~~223.820~~ **232.975**, *as amended by section 4 of Assembly Bill No. 98, chapter 71, Statutes of Nevada 2023, at page 348*, and to require school districts to report the number of pupils who earn each of those credentials.

A copy of any standards of content and performance that the State Board has established for those courses of study are available on the website maintained by the Department of Education at the Internet address ~~{http://www.doe.nv.gov/CTE/}~~ <https://doe.nv.gov/cte/>.

Sec. 5. NAC 389.815 is hereby amended to read as follows:

389.815 1. To qualify for an endorsement on a high school diploma indicating that a pupil has successfully completed a course of study in a program ~~{area}~~ *of study* for a program of career and technical education set forth in subsection 1 of NAC 389.803, the pupil must:

(a) Satisfactorily complete a sequence of courses leading to a completion course prescribed by the school district or charter school in which the pupil is enrolled for the course of study selected.

(b) Satisfy the state academic requirements governing receipt of a standard high school diploma and the statutes and regulations governing the receipt of a standard high school diploma, including, without limitation, passage of all required end-of-course examinations.

(c) Satisfy the requirements for the issuance of a certificate pursuant to subsection 4 of NAC 389.800.

2. The sequence and completion courses required by paragraph (a) of subsection 1 must be approved by the Department.

3. The endorsement must be located on the front of the high school diploma in a format prescribed by the Department of Education.

Sec. 6. NAC 391.436 is hereby amended to read as follows:

391.436 1. The Superintendent of Public Instruction shall issue to a qualified applicant an endorsement as a substitute teacher of business and industry for a specific course of study included in a program ~~{area}~~ *of study* for a program of career and technical education group set forth in NAC 389.803.

2. To receive an endorsement as a substitute teacher of business and industry pursuant to subsection 1, the applicant must:

(a) Have earned a high school diploma or its equivalent;

(b) Provide to the Department proof acceptable to the Department that the applicant has:

(1) Two years of full-time employment, after 18 years of age, in a position which relates to the course of study for which he or she is applying for the endorsement; or

(2) An aggregate total of 4,000 hours of employment, after 18 years of age, in a position which relates to the course of study for which he or she is applying for the endorsement; and

(c) Hold the appropriate license if one is required by law for employment in an occupation which the person desires to teach.

3. A person who desires to renew for the first time an endorsement issued pursuant to this section must provide proof that he or she has completed 3 semester hours of credit from an accredited postsecondary institution, or an equivalent number of hours of professional development, in a course or program of professional development that is approved by the Department and that involves teaching methodology for career and technical education or secondary education.

4. A school district may hire a person who has an endorsement as a substitute teacher of business and industry in kindergarten through grade 12 for:

(a) Unlimited days of service if filling the position of a licensed teacher who is under contract.

(b) Except as otherwise provided in subsection 5, 60 days of service if filling a teaching position for which a licensed teacher has not been hired under contract.

5. The Department may grant a school district one extension for 30 days with regard to a person who is hired pursuant to paragraph (b) of subsection 4 in an exceptional case upon request from the superintendent of schools of the school district.

6. An endorsement issued pursuant to this section is not subject to the provisions of NAC 391.036 and 391.065.

Sec. 7. 1. This section becomes effective on the date on which this regulation is filed with the Secretary of State.

2. Sections 1 to 6, inclusive, of this regulation become effective only if LCB File No. R165-22 is adopted by the Commission on Professional Standards in Education and filed with the Secretary of State. Sections 1 to 6, inclusive, of this regulation become effective on:

(a) The date on which this regulation is filed with the Secretary of State; or

(b) The date on which LCB File No. R165-22 is filed with the Secretary of State,

↳ whichever occurs later.
