Legislative Counsel's Digest:

Existing law requires the State Board of Cosmetology to adopt reasonable regulations for carrying out the provisions of existing law relating to cosmetology. (NRS 644A.275, as amended by section 18 of Senate Bill No. 249, chapter 165, Statutes of Nevada 2023, at page 878)

Senate Bill No. 249 of the 2023 Legislative Session repealed or removed all references to demonstrators of cosmetics in the provisions of existing law governing cosmetology for the purpose of no longer subjecting a demonstrator of cosmetics to licensure or regulation by the Board. (Senate Bill No. 249, chapter 165, Statutes of Nevada 2023, at page 871) **Sections 19, 20, 25, 36 and 49** of this regulation make conforming changes to remove references to demonstrators of cosmetics from the provisions of existing regulations relating to cosmetology.

Existing law authorizes the Board to, by regulation, defer the expiration of a license or certificate of registration issued by the Board to a person who is on active duty in any branch of the Armed Forces of the United States or the spouse or dependent child of such a person under certain circumstances. (NRS 644A.515, as amended by section 41 of Senate Bill No. 249,

chapter 165, Statutes of Nevada 2023, at page 888) **Section 3** of this regulation sets forth procedures and requirements for such persons to request the deferral of the expiration of a license or certificate of registration.

Existing law authorizes an advanced esthetician to perform a nonablative esthetic medical procedure only under the supervision of a health care professional, which existing law defines as a physician, a physician assistant or an advanced practice registered nurse. (NRS 453C.050, 644A.545) **Section 2** of this regulation similarly defines “health care professional” for the purposes of existing regulations relating to cosmetology. **Section 16** of this regulation makes a conforming change to indicate the proper placement of **section 2** in the Nevada Administrative Code. **Section 8** of this regulation clarifies that the requirement that a nonablative esthetic medical procedure be performed under the supervision of a health care professional is not satisfied by the supervision of the advanced esthetician by a registered nurse. **Section 10** of this regulation requires an advanced esthetician to enter into a collaboration agreement with a health care professional before performing any nonablative esthetic medical procedure under his or her supervision. **Section 11** of this regulation sets forth certain additional requirements concerning the performance of nonablative esthetic medical procedures.

Existing law defines “esthetic medical procedure” as certain procedures performed using an esthetic medical device. (NRS 644A.063) Existing law defines “nonablative esthetic medical procedure” to mean an esthetic medical procedure that is not expected to excise, vaporize, disintegrate or remove living tissue, and which the Board has, by regulation, authorized to be performed by an advanced esthetician. (NRS 644A.127, as amended by section 13 of Senate Bill No. 249, chapter 165, Statutes of Nevada 2023, at page 877) Under existing law, “esthetic medical device” is defined to include only certain devices which the Board has determined to be appropriate for use in the performance of an esthetic medical procedure. (NRS 644A.062, as amended by section 10 of Senate Bill 249, chapter 165, Statutes of Nevada 2023, at page 876) Existing law requires the Board to adopt regulations identifying each: (1) nonablative esthetic medical procedure an advanced esthetician is authorized to perform; and (2) device that the Board determines is appropriate for use in the performance of an esthetic medical procedure. (NRS 644A.275, as amended by section 18 of Senate Bill No. 249, chapter 165, Statutes of Nevada 2023, at page 878) **Section 9** of this regulation: (1) sets forth the devices that constitute esthetic medical devices appropriate for use in an esthetic medical procedure; and (2) authorizes an advanced esthetician to perform, in accordance with the requirements set forth under existing law and regulations, any nonablative esthetic medical procedure that is performed using such a device.

Existing law requires the Board to adopt reasonable regulations for governing the conduct of schools of cosmetology. (NRS 644A.275, as amended by section 18 of Senate Bill No. 249, chapter 165, Statutes of Nevada 2023, at page 878) Existing regulations set forth various requirements governing the licensure and operation of schools of cosmetology. (NAC 644A.600-644A.655) **Sections 12-14 and 53-66** of this regulation revise provisions relating to schools of cosmetology. **Section 12** prohibits a school of cosmetology from providing any instruction in advanced esthetics unless provided as part of a program for training students to be advanced estheticians that is supervised by a health care professional. **Section 12** requires a school of cosmetology that wishes to offer a program for training students to be advanced estheticians to enter into a collaboration agreement with the health care professional who will supervise the program. **Section 13** of this regulation sets forth certain requirements governing the supervision of a program for training students to be advanced estheticians by a health care professional.

Section 14 requires a school of cosmetology to offer certain subjects for a program of training students to be advanced estheticians.

Sections 53 and 54 of this regulation revise the required amount of floor space and the required equipment a school of cosmetology is required to have. **Section 55** of this regulation requires a school of cosmetology to file certain additional information with the Board in its application for the issuance or renewal of a license or when any change relating to the information on its license occurs. **Sections 58 and 60-66** of this regulation revise requirements relating to instruction provided by a school of cosmetology. **Sections 57 and 59** of this regulation require a school of cosmetology that ceases operation to: (1) immediately provide the Board and each student with a final time record of the student; and (2) maintain all final time records for at least 4 years. **Section 65** of this regulation revises provisions governing the transfer of credits for a student who transfers from one course of study of cosmetology to another.

Existing regulations provide that a person applying for licensure will not receive credit for incomplete hours in any courses that were taken 4 years or more before the date on which the person enrolled in a school of cosmetology. (NAC 644A.230) **Section 24** of this regulation provides instead that a person applying for licensure or enrolling in a school of cosmetology will not receive credit for incomplete hours in courses that were taken 4 years or more before the date on which the person last attended a course in cosmetology.
