**Legislative Counsel’s Digest:**

Existing law authorizes the execution of the Western Regional Education Compact for the purpose of this State cooperating with certain other western states in the formation of the Western Interstate Commission for Higher Education. (NRS 397.010) Under the terms of the Compact, residents of this State may participate in programs that provide financial support to assist them in attending colleges and universities located within the states and territories that are signatories to the Compact. (NRS 397.020) The Compact: (1) creates the Commission, which consists of three Commissioners from each state or territory that is a signatory to the Compact; and (2) requires the Commission to establish and maintain an office within one of the compacting states. (NRS 397.020) Existing law: (1) creates the Nevada Office of the Commission (the “Nevada Office”), which consists of the three Commissioners from this State and a Director; and (2) requires the three Commissioners from this State to appoint the Director of the Nevada Office. (NRS 397.030) Existing law requires a participant who receives a stipend, or a stipend which is converted to a loan pursuant to the Compact and existing law, to repay the stipend or loan, unless the participant meets certain requirements, including, without limitation, to practice the profession for which the degree, certificate or similar credential was awarded for a certain period of time in this State. (NRS 397.0645, as amended by section 1 of Senate Bill No.

342, chapter 445, Statutes of Nevada 2023, at page 2730) Existing law requires the three Commissioners from this State to adopt regulations governing: (1) the repayment of loans, including, without limitation, the period allowed for repayment and the minimum amount that may be repaid in installment; (2) the reduction of the period of required practice in the profession for which the degree, certificate or similar credential was awarded to a participant; and (3) authorized exemptions or extensions from the required practice obligation. (NRS 397.064, 397.0685, 397.069) Existing law also authorizes the three Commissioners from this State to adopt other regulations as necessary to effectuate the purposes of the Compact. (NRS 397.030) Existing law authorizes the three Commissioners from this State to take disciplinary action against a participant who fails to comply with existing regulations, including, without limitation, by imposing fines or expulsion from the program for which the participant received a stipend. (NRS 397.068)

**Sections 3-6, 11 and 12** of this regulation define and interpret certain terms relating to the Compact and enforcement of the related provisions of existing law and regulations. **Section 2** of this regulation makes a conforming change to indicate the proper placement of **sections 3-6** in the Nevada Administrative Code. **Section 7** of this regulation establishes certain criteria which a participant must meet to participate in a program administered by the Nevada Office. **Section 8** of this regulation establishes a default charge to be assessed against a participant who fails to comply with certain requirements and the stipend of the participant is consequently converted to a loan which must be repaid. **Section 9** of this regulation authorizes a participant to apply for a reduction of the amount owed if the participant has partially completed the period of practice in a rural area of this State or as an employee of this State. **Section 10** of this regulation prescribes the process by which a participant may appeal the imposition of a fine or expulsion from a program.

Existing regulations authorize a participant to apply for: (1) a reduction of the period of required practice; (2) an extension of the period for completing the required practice; (3) an extension of the period for the repayment of a loan or stipend; and (4) a reduction of the principal balance of a loan or stipend because of hardship. (NAC 397.020, 397.030, 397.050, 397.060) **Sections 13-16** of this regulation revise the process for such applications by adding requirements for a participant to include supporting documentation with any such application. **Section 13** also adds a requirement that a reduction of the period of required practice may be granted for good cause. **Sections 14 and 15** of this regulation remove the requirement that each extension of the period to complete the required practice or repay a loan or stipend must be not longer than 2 years, thus authorizing the Commissioners from this State to grant longer extensions. **Section 17** of this regulation requires the Commissioners from this State to establish the interest rate and certain other terms for the repayment of a stipend that is converted to a loan. **Section 18** of this regulation repeals provisions governing the period of time required to complete required practice for a participant who agrees to practice in a medically underserved area of this State, thus making such a participant subject to existing law and regulations which govern all participants.
