4. Each hand count tally team must be positioned around a single table, with not less than 10 feet from the center of the table to the center of any other table containing a hand count

2. After the ballots are prepared for counting, the election board may use the electronic tabulator to calculate the results of the tally of the votes cast in a contest on the ballot.

3. A hand count of the ballots must be tallied not less than two times by the hand count tally team for each contest on the ballot that will be hand counted. The results of each tally of the ballots for each contest must match exactly. If the results do not match, the hand count must be conducted again until the results match one of the previous tallies.

4. In addition to the requirements of NRS 293.367 to 293.370, inclusive, each hand count tally team shall process the ballots in the following manner:

(a) For a primary election, the ballots must be sorted by political party and nonpartisan ballots to be tallied separately, with a Republican tally form, Democrat tally form and nonpartisan tally form.

(e) The tally clerks shall:

(1) Tally the votes on the appropriate tally form, depending on whether the ballot has been cast in a primary or general election. If the election is a primary election, the tallied votes should be noted on the tally form for the applicable political party or the nonpartisan tally form.

(2) On the tally form, place a short perpendicular hash mark opposite the name of the candidate or ballot question voted for the first through fourth vote for the same candidate or ballot question.

(3) For every fifth vote for the same candidate or ballot question, place a horizontal hash mark through the previous four perpendicular hash marks. One of the tally clerks shall then clearly announce:

(I) The fifth vote throughout the course of the tally; and

(II) The total number of hash marks for each candidate or ballot question.

(f) If the tally clerks agree on the total number of hash marks for each candidate or ballot question after the total has been announced pursuant to paragraph (e), the tally clerks shall make a mark above the five hash marks to indicate that the count of both tally clerks matched.

(g) If the count of the tally clerks:

(1) Matches, the tallying must continue.

(2) Does not match, the reason for the discrepancy must be identified and corrected before the hand count tally team may continue tallying.

5. The Office of the Secretary of State may supervise or assist in a hand count of the ballots voted if requested by a county clerk, but the county clerk is the party responsible for the hand count.

Sec. 6. 1. *The county clerk shall provide all writing devices to a hand count tally team conducting a hand count. No member of a hand count tally team may use or bring his or her own writing device to the physical location where the ballots will be hand counted.*
