### NOTICE OF INTENT TO ACT UPON A REGULATION *AND* HEARING AGENDA: LCB File No. R067-23

**November 30, 2023 at 5:15 p.m.**

Notice of Hearing for the  
Adoption of Regulations of the  
Nevada State Board of Dispensing Opticians

The Nevada State Board of Dispensing Opticians will hold a public hearing at **5:15 p.m. on Thursday, November 30, 2023, in person at: Courtyard by Marriott, Tahoe Boardroom, 6855 South Virginia Street; Reno, NV 89511, and via teleconference at: (617) 829-6755.** The purpose of the hearing is to receive comments from all interested persons regarding the potential adoption of Proposed Regulation R067-23, which pertains to Chapter 637 of the Nevada Administrative Code (NAC).

**The following information is provided pursuant to the requirements of NRS 233B.0603:**

**(1) A statement of the need for and purpose of the proposed regulation.** NRS Chapter 637, which created the Board of Dispensing Opticians (Board) and governs the practice of ophthalmic dispensing in Nevada, underwent significant amendment during the 2023 legislative session via Assembly Bill 415 (AB415). Consequently, NAC Chapter 637, which contains rules and regulations necessary to carry out the provisions of NRS Chapter 637, must be amended to be congruent with the revised statute. The regulations must also be streamlined, clarified, and updated to reflect current standards of practice and administrative procedures of the Board. NRS Chapter 637 (as amended by Sections 8 and 22 of AB 415) grants the Board the authority to adopt such rules and regulations.

**(2) If the proposed regulation is a temporary regulation, either the terms or substance of the proposed regulation or a description of the subjects and issues involved.** Not applicable; the proposed regulation would be a permanent regulation.

**(3) If the proposed regulation is a permanent regulation, a statement explaining how to obtain the approved or revised text of the proposed regulation prepared by the Legislative Counsel pursuant to NRS 233B.063.** The text of the proposed regulation is attached to this notice, which will be posted at the locations listed below.

**(4) A statement of the estimated economic effect of the regulation on the business which it is to regulate and on the public.**

**a. Adverse and beneficial economic effects on the regulated business:** Certain fees for the initial application or renewal of a license will increase by \$50. The fees are assessed upon individual opticians and would only cause an adverse effect on businesses that voluntarily reimburse their employees for their license renewal fees. In most instances, opticians will only pay a fee to the Board once per year, so the adverse economic effect to licensees and/or businesses will be minimal. The Board does not anticipate any other adverse or beneficial economic effects to businesses resulting from the proposed regulations.

**b. Immediate and long-term economic effects on the regulated business:** The effect on the licensees and businesses would be immediate, as the fee increases would take effect upon adoption of the regulation, and long-term because the increased fees would be collected annually.

**c. Adverse and beneficial economic effects on the public:** The Board does not anticipate any adverse or beneficial economic effects on the public.

**d. Immediate and long-term economic effects on the public:** The Board does not anticipate any immediate or long-term economic effects on the public.

**(5) A statement identifying the methods used by the agency in determining the impact on a small business prepared pursuant to subsection 3 of NRS 233B.0608.** The Board determined the proposed regulations would not impact small businesses through discussions at its regular meetings throughout 2021, 2022, and 2023. The Board members are individually employed by a range of employer types regulated by the agency, from large corporations to small independent offices. None of the Board members expressed concern that the proposed regulation would create a financial burden on their employers or colleagues. The Board did not receive any testimony from the public during meetings or workshops indicating the proposed regulations would cause a negative impact on small businesses.

**(6) The estimated cost to the agency for enforcement of the proposed regulation.** Enforcement of the proposed regulation will not create any additional costs to the Board.

**(7) A description of any regulations of other state or local governmental agencies which the proposed regulation overlaps or duplicates and a statement explaining why the duplication or overlapping is necessary. If the regulation overlaps or duplicates a federal regulation, the notice must include the name of the regulating federal agency.** There are no regulations of other federal, state, or local governmental agencies which the proposed regulation overlaps or duplicates.

**(8) If the regulation is required pursuant to federal law, a citation and description of the federal law.** Not applicable; the proposed regulation is not required pursuant to federal law.

**(9) If the regulation includes provisions which are more stringent than a federal regulation that regulates the same activity, a summary of such provisions.** The proposed regulation does not include provisions which are more stringent than a federal regulation that regulates the same activity.

**(10) The time when, the place where, and the manner in which interested persons may present their views regarding the proposed regulation.** The time and place of the hearing, and the manner in which interested persons may present their views, are included at the top of this notice.

**(11) Whether the proposed regulation establishes a new fee or increases an existing fee.** Certain fees for the initial application or renewal of a license will increase by \$50.

Persons wishing to comment upon the proposed action of the Nevada State Board of Dispensing Opticians may appear at the scheduled public hearing or may address their comments, data, views or arguments, in written form, to Nevada State Board of Dispensing Opticians; 4790 Caughlin Parkway, #241; Reno, NV 89519, or via email to [info@nvopticians.org](mailto:info@nvopticians.org).
