Permanent Regulation R133-24: Bureau of Safe Drinking Water - Regulatory Clean-up in Response to the Governor’s Executive Order EO2023-003

R133-24 is proposing to amend various sections of Nevada Administrative Code (NAC) 445A to streamline, clarify, and improve the regulations to provide for the general welfare of the State without unnecessarily inhibiting economic growth.

The proposed changes are not expected have any economic impact on the public, the regulated community, or the Division.

Permanent Regulation R138-24: Bureau of Air Quality Planning - Compliance with Federal Regional Haze Rule and Clean Air Act Requirements

R138-24 proposes to amend Chapter 445B of the NAC to establish the emission limits and control measures required at the Valmy Units and Tracy Unit 4 Pinion Pine to meet Regional Haze reasonable progress requirements instead of closure.

The proposed changes are not expected have any economic impact on the public, the regulated community, or the Division.

Permanent Regulation R144-24: Bureau of Air Quality Planning - Clean Trucks and Buses Incentive Program Requirements

On June 9, 2023, the governor of Nevada signed Assembly Bill (AB) 184, creating the Clean Trucks and Buses Incentive Program (Program), which provides voucher incentives for the purchase of zero emission medium- and heavy-duty vehicles, along with various requirements for the Program and other matters relating thereto.

In accordance with AB 184, this regulation includes additional requirements necessary for NDEP to effectively administer the Program.

The proposed changes are expected to have a largely positive economic impact on the businesses that voluntarily participate in the Program. Incentives are available to local governments, state agencies, and nonprofit organizations, which will have a positive economic impact on these entities. In addition, the adoption of zero emission vehicles will help improve air quality in those areas where the vehicles are driven.

Permanent Regulation R161-24: Bureau of Sustainable Materials Management - Hazardous Secondary Materials

NDEP is proposing to amend sections of Nevada Administrative Code (NAC) 444 to revise the definition of the Solid Waste Rule that was partially adopted in 2020. These amendments will provide regulatory clarification and framework promoting recycling of hazardous materials. The amendments also provide clear guidelines for the proper management of hazardous secondary materials.

The proposed changes are not expected to have any economic impact on the public, the regulated community, or the Division.
