

## Digest for Adopted Regulation R\_003-12

Under existing regulations, the Director of the Department of Public Safety has adopted by reference certain provisions of the Code of Federal Regulations concerning safety standards for the transportation of hazardous materials on public highways in this State as those provisions existed on August 1, 2009. (NAC 459.977) **Section 1** of this regulation adopts by reference those provisions as they exist on the effective date of this regulation. **Section 1** also provides that if a provision of a federal regulation adopted by reference is revised by the United States Department of Transportation, the Director will review the revision which will become part of the regulations adopted by reference unless the Director, after a hearing, gives notice that the revision is not suitable for use in this state.

Under existing regulations, the Department of Public Safety, the Department of Motor Vehicles and the Nevada Transportation Authority have adopted by reference certain provisions of the Code of Federal Regulations concerning motor carrier safety, including safety standards for commercial motor vehicles operated in this State as those provisions existed on August 1, 2009. (NAC 706.247, 706.297) **Sections 2 and 3** of this regulation adopt by reference those provisions of federal regulations as they exist on the effective date of this regulation.
