

SMALL BUSINESS IMPACT STATEMENT

LCB FILE NO. R009-15

Proposed Amendment to add a sub-classification to the B-General Building classification

The State Contractors Board considered the factors outlined in NRS 233B.0608(1) and it was determined that a Small Business Impact Statement is not required pursuant to NRS 233B.0609 based upon the following:

1. The scope of work currently requires licensure.
2. The regulation simply provides a sub-classification for certain remodeling work.
3. The regulation will allow a broader number of licensees able to perform certain tenant improvements.
4. No fees are created, increased or decreased by the regulation.

The Board has determined the proposed regulation does not impose a direct and significant economic burden upon a small business or restrict the formation, operation or expansion of a small business.

I certify that to the best of my knowledge or belief a concerted effort was made to determine the impact of this proposed regulation on small businesses and that the information contained in this statement is accurate.

**Margi A. Grein, Executive Officer
Nevada State Contractors Board**
