A REGULATION relating to education; revising provisions relating to the number for identification of records assigned to a pupil enrolled in a public school; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing regulations require a school district to assign to each pupil enrolled in a public school in the school district an identification number which: (1) identifies the records of the pupil for use by the Department of Education for the duration that he or she is enrolled in the public school system in Nevada; and (2) must be the social security number of a pupil if the number is provided by a parent or guardian of the pupil. Existing regulations further require a school district to assign a pupil only one identification number, except where a parent or legal guardian objects to the continued use of the social security number of a pupil as the pupil's identification number and requests the school district assign an alternate number to identify the records of the pupil. (NAC 385.015) **Section 1** of this regulation: (1) removes the use of a pupil's social security number as an identification number for the records of a pupil; (2) requires a school district to assign to each pupil enrolled in the school district an identification number to identify the records of the pupil for use by the school district; and (3) requires the Department to assign to each pupil enrolled in a public school in Nevada an identification number to identify the records of the pupil for the duration of the pupil's enrollment in the public school system in Nevada for use by the Department. **Sections 2-4** of this regulation make conforming changes to specify that references to identification numbers mean the identification numbers assigned by the Department pursuant to **section 1**.
