AN ACT relating to transportation; removing the prospective expiration of the authority of the Department of Transportation to use the construction manager at risk method for the construction, reconstruction, improvement and maintenance of highways; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Under existing law, the Department of Transportation is authorized to construct, reconstruct, improve and maintain highways by a variety of methods, including competitive bidding and the use of a design-build team. (NRS 408.313–408.3887) In addition, until July 1, 2013, the Department is authorized to use the construction manager at risk method. (NRS 338.1373, 338.169–338.16995; section 8 of chapter 529, Statutes of Nevada 2011, p. 3685) Under the construction manager at risk method for constructing a public work, a public body may enter into a contract for a negotiated price with a construction manager at risk to provide preconstruction services for the public work that include, without limitation, design support, construction estimating, value and system analysis and scheduling. After the public body has obtained the final design for the public work, the public body and the construction manager at risk are required to attempt to negotiate a contract for the construction manager at risk to construct the public work. If the public body and the construction manager at risk enter into such a contract, the contract must be for: (1) a guaranteed maximum price including the cost of the work plus a fee; (2) a fixed price; or (3) a fixed price plus reimbursement for

17 overhead and other costs and expenses related to the construction of the public
18 work. (NRS 338.169-338.16995) This bill eliminates the expiration of the
19 Department's authority to use the construction manager at risk method for
20 constructing, reconstructing, improving and maintaining highways on and after
21 July 1, 2013, thereby allowing the Department to continue using the construction
22 manager at risk method on and after that date.
