7 fees charged by the independent contractor for services within the scope of the

9 total dollar amount of such fees. **Section 10** of this bill requires an independent
10 contractor to disclose certain information relating to any subcontractor used to
11 perform a contract with a public body. **Section 15** of this bill provides that if an
12 independent contractor violates any provision of **sections 8-10**, the public body
13 may terminate the contract.

14 **Section 11** of this bill: (1) prohibits a public body from entering into a sole
15 source contract for a period exceeding 2 years unless the longer period is necessary
16 for the recovery of capital costs; and (2) prohibits a public body from renewing a
17 sole source contract unless the governing body of the public body approves the
18 renewal by a two-thirds vote. **Section 12** of this bill authorizes a public body to
19 enter into a contract with an independent contractor, other than a sole source
20 contract, for a period of not more than 4 years and to extend the period of such a

22 thirds vote.

24 contract to disclose certain information to the Purchasing Division, which must
25 then post that information on its Internet website. **Section 14** of this bill requires
26 each public body that enters into a sole source contract or renegotiates a contract
27 with an independent contractor to report information relating to the number and
28 dollar amount of the sole source contracts and competitively bid contracts with an
29 independent contractor to the Purchasing Division, which must then report that
30 information to the Interim Finance Committee.

31 **Section 16** of this bill requires a person who is awarded a contract for a public
32 work to report to the public body awarding the contract certain information
33 concerning the race, ethnicity, age and gender of certain employees and applicants
34 for employment on the public work. **Section 16** also requires a public body
35 awarding a contract for a public work to gather, compile, maintain and enter on the
36 Internet website of the State Public Works Division of the Department of
37 Administration certain information concerning the cost of the public work, the
38 awarding of the contract, the race, ethnicity, age, gender, number of employees and
39 length of time in business of the bidders for the contract, and the information
40 received from the person awarded the contract concerning the applicants for
41 employment on the public work. Finally, **section 16** requires that the Division
42 create an application on its Internet website for the entry of the information that
43 each public body is required to enter on the Internet website in accordance with
44 **section 16**, make the information available to the public and report the information
45 annually to the Director of the Legislative Counsel Bureau.

46 **Section 17** of this bill requires the Department of Transportation to post certain
47 information relating to certain contracts for the provision of professional services
48 entered into by the Department on or after July 1, 2013.
