ASSEMBLY JOINT RESOLUTION—Urging Congress to take
certain actions concerning federal public lands in Nevada.

- 1 WHEREAS, The Federal Government manages and controls over
2 85 percent of the land in Nevada; and
3 WHEREAS, Nevada has an abundance of natural resources,
4 including vast areas of land suitable for raising livestock, large
5 deposits of gold, silver, copper and other minerals, and plentiful
6 renewable resources, including, without limitation, sun, wind and
7 geothermal resources that may be used to generate electricity; and
8 WHEREAS, Many of those renewable resources are located on
9 public lands managed and controlled by the Federal Government;
10 and
11 WHEREAS, Activities that occur on those public lands increase
12 the demand for services provided by the State of Nevada and local
13 governments in Nevada; and
14 WHEREAS, The State of Nevada and local governments in
15 Nevada are limited in their ability to collect taxes or other fees from
16 the Federal Government or from the users of public lands to fund
17 services provided by the State and local governments; and

1 WHEREAS, The Federal Government receives revenue from the
2 licensing and permitting of activities that occur on those public
3 lands, including mining, grazing livestock and generating electricity
4 from renewable resources; and

5 WHEREAS, In recent years, efforts have been made to curtail the
6 practice by the Federal Government of sharing a portion of that
7 revenue with the State of Nevada and local governments, including
8 curtailing the practice of sharing with the counties a portion of the
9 revenue derived from the lease of public lands and royalties from
10 the generation of electricity from geothermal resources; and

11 WHEREAS, Recent legislation introduced in the 111th and 112th
12 United States Congress would have, if enacted, required the
13 Secretary of the Interior to establish a leasing program for wind and
14 solar energy development on federal public lands; and

15 WHEREAS, Such legislation would also have required the
16 sharing of a portion of the revenue from the competitive leasing
17 program with the counties from which the revenue is derived,
18 thereby creating a beneficial and meaningful role for counties in
19 Nevada; and

20 WHEREAS, The members of the 113th Congress are now
21 considering the budget submitted by the United States Department
22 of the Interior for federal Fiscal Year 2014, and its possible effects
23 on the counties' share of royalties derived from the generation of
24 electricity from geothermal resources; now, therefore, be it

25 RESOLVED BY THE ASSEMBLY AND SENATE OF THE STATE OF
26 NEVADA, JOINTLY, That the members of the 77th Session of the
27 Nevada Legislature hereby urge Congress:

28 1. To ensure that the public lands in Nevada that are managed
29 and controlled by the Federal Government remain open to multiple
30 uses; and

31 2. To enact legislation ensuring that the State of Nevada and
32 the affected local governments in Nevada receive a portion of the
33 revenue received by the Federal Government for activities
34 conducted on the federal public lands in Nevada and ensuring that
35 such sharing includes, without limitation, the continuation of federal
36 laws and policies whereby local governments receive appropriate
37 rents and royalties for activities which generate electricity from
38 geothermal resources; and be it further

39 RESOLVED, That the Chief Clerk of the Assembly prepare and
40 transmit a copy of this resolution to the Vice President of the United
41 States as the presiding officer of the United States Senate, the
42 Speaker of the House of Representatives and each member of the
43 Nevada Congressional Delegation; and be it further

1 RESOLVED, That this resolution becomes effective upon
2 passage.
