AN ACT relating to Medicaid; requiring the State Plan for Medicaid to provide for certain nonmedical transportation, to the extent authorized by federal law, to allow recipients to participate in the community and live independently; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law requires the Department of Health and Human Services, to the extent authorized by federal law, to contract with certain motor carriers for the provision of transportation services to recipients of Medicaid traveling to and returning from providers of services under the State Plan for Medicaid. (NRS 422.2705) Existing federal law allows the United States Secretary of Health and Human Services to grant a waiver allowing a state plan for Medicaid to provide payment for the cost of home or community-based services for persons who would otherwise require institutionalization. (42 U.S.C. § 1396n(c)) This bill requires the Director of the Department of Health and Human Services to include in the State Plan for Medicaid a requirement that the State will provide nonmedical transportation services that allow recipients of Medicaid to participate in the community and live independently or contract for the provision of such services. This bill also requires the Administrator of the Division of Health Care Financing
