AN ACT relating to motor carriers; expanding the circumstances under which an owner or operator of a motor vehicle that is used for the transportation of passengers or property is not subject to certain provisions governing fully regulated carriers; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

1 Under existing law, certain common carriers or contract carriers of passengers
2 or household goods are subject to supervision and regulation as fully regulated
3 carriers by the Nevada Transportation Authority. (NRS 706.072, 706.166) An
4 exemption from that supervision and regulation is provided for an owner or
5 operator of a motor vehicle used for the transportation of passengers or property if
6 the owner or operator: (1) holds a nonrestricted license and is a resort hotel; (2) is
7 not in the business of and does not charge a fee for transporting passengers or
8 property; (3) provides transportation only to its customers, guests, casino hosts, key
9 employees, officers and directors; (4) marks the vehicle with the owner’s or
10 operator’s name or logo; and (5) uses the motor vehicle only in relation to the
11 business of the resort hotel for which the nonrestricted license was issued. The
12 owner or operator is required to inspect the motor vehicle regularly, maintain a
13 record of the inspections for at least 3 years and make the records available for
14 inspection or audit by the Authority or its designee. (NRS 706.741)

15 This bill expands that exemption to include an owner or operator of a motor
16 vehicle that is used for the transportation of passengers or property if any person
17 who directly or indirectly controls, is controlled by or is under common control
18 with the owner or operator of the motor vehicle complies with the provisions of
19 existing law governing the exemption. This bill also requires such a person to
20 comply with the requirements of existing law relating to inspections of the motor
21 vehicle and the maintenance of records of those inspections.
