Hello O'Hair,

It says the call cannot be completed. I tried troubleshooting using the "+1" in front, but it still says, "The call cannot be completed." If I can not, may I submit a written speech I had pan to give? Perhaps the floor or a volunteer can read it out loud for everyone.

"My name is Inas Santiago and I'm a volunteer with Chispa Nevada. I'm here today to urge you to support Assembly Bill 349 to reduce smog pollution from vehicles.

I am worried about how air pollution is affecting our community. We are living with unhealthy air, and I'm especially worried about the impacts of this on our health, from asthma, allergies, lung cancer, to cardiovascular disease.

Just recently, Clark County received an "F" from the American Lung Association for our ozone pollution and was named the 17th most polluted place to live in the country. This is especially bad for older Nevadans, for children whose lungs are still developing, and for the 54,484 children and 227,585 adults who have asthma in Nevada. The report also found people of color are THREE TIMES more likely to breathe the most polluted air than white people.

AB 349 is an important solution that would address the older, most polluting vehicles on our roads by closing the Classic Car loophole, and that would provide a pathway for low-income communities who are most harmed by unhealthy air to access cleaner forms of transportation, either by repairing or replacing their vehicle with assistance from county programs. This latter component is critical to make sure we do not leave low-income Nevadans without transportation as we make sure cars on our roads can pass smog checks. The funding for these programs would come from modest increases to smog check fees to catch up with inflation since they haven't been changed in many years.

This bill has broad support from a range of groups, from public health organizations to businesses to environmental groups to county air quality and health departments. We hope you'll join thousands of Nevadans who are asking for cleaner air to breathe by supporting AB 349."

Thank you,
Inas Santiago

Hello Ms. O'Hair,

Assembly Committee: Ways and Means Exhibit: F Page 1 of 3 Date: 05/03/2021 Submitted by: Inas Santiago
--

It seems that the phone numbers given to me through the wait room and this message are not working for my phone. Is there a new meet code I may use before AB349 is discussed?

Thank you for your time,

Inas Santiago
