## A Note About the Statistics in This Document

With the exception of summary age data on page 2, median household income data, and voter registration data on page 29, the statistical information displayed in this document was extracted from the United States Bureau of the Census’s *2017–2021 5-Year American Community Survey (ACS)*, which became available on December 8, 2022. The ACS provides estimates of demographic, economic, housing, and social characteristics for numerous geographies every year, including five-year period estimates that describe the characteristics of an area over a specific period of time, rather than for a specific point in time. Therefore, these data may not be comparable with point-in-time estimates. Additional information about the ACS is available at: <https://www.census.gov/programs-surveys/acs>.

In this document, we have used estimates that the Bureau of the Census has compiled at the block group and tract levels, as well as the state level for Nevada and corresponding national data. While the Bureau of the Census typically compiles ACS data at the legislative district level, the *2017–2021 5-Year ACS* data was not available for the new legislative district boundaries resulting from the 2021 redistricting cycle. Therefore, we have used geographic information system (GIS) software to aggregate data at the block group or tract level to the new legislative district level. It should be noted that this is an imperfect method, as some block groups and tracts reside in multiple legislative districts and their data values must be allocated across such districts using a method that assumes even distribution of population types throughout a block group or tract, which may not necessarily be the case.

Because certain information was unavailable from the ACS, median household income data and summary age data—including median age and certain dependency ratios—were obtained from the 2022 Updated Demographics data set prepared by Esri, a GIS software provider. For more information about Esri’s data, visit <https://doc.arcgis.com/en/esri-demographics/latest/regional-data/updated-demographics.htm>.

Figures for active voters were obtained from the website of Nevada’s Secretary of State on January 3, 2023. The Secretary of State updates these figures on a regular basis. For the most current voter registration information, visit <https://www.nvsos.gov/sos/elections/voters/voter-registration-statistics>.

Detail in some tables may not sum to 100 percent due to rounding.
