SAM A PALAZZOLO, NSEA

The meeting was called to order by Chairman Smith, who gave a brief history of the bill, explaining that it was passed as an emergency measure, in order to aid in a situation which had developed in Washoe County concerning the fire department. He explained that such legislation is generally not considered fully and unfortunately situations such as the present situation are the result.

Chairman Smith stated that two amendments had been suggested concerning this bill. One amendment would delete the words "salary matters only"; and the other amendment would add words to the effect that in Sec. 2, page 2, line 38, delete "date of mailing" and add words to the effect by mail or other means of transmittal. He suggested that it could also be amended to a certain time limit.

Mr. Psaltis explained that two factfinding boards would not hurt the larger counties but it was his feeling that the smaller school systems could not afford the two factfinding sessions.

Mr. Guinn stated that this bill would not change the present system in Clark County, however in Clark County contracts are delivered by hand and not mailed.

Mr. Psaltis stated that the Washoe County teachers would prefer the the bill be changed to give the teacher 10 days after receipt of contract to sign and return it.

Mr. Psaltis also suggested an amendment to the effect that the words insurance, leave, conditions of employment be added after the word salary.

Mrs. Baker stated that the small school districts could not afford two fact finding sessions and that she did not feel her school board would consider salary matters at a different time than they considered employee-related matters.

Mr. Perry stated that he had been a member of two factfinding boards in the past month and that in each case the school board wanted to consider the boards findings immediately. He stated that the boards had been recommending that they delay action until after this session of the legislature.

Both Assemblyman Bryan and Assemblyman Smith stated that they felt that SB 68 was a very badly drafted piece of legislation.

Assemblyman Hawkins stressed the need of immediate action in order to make what has already been done in good faith legal.

Assemblyman Bryan moved that SB 68 be amended as follows:
delete the words "salary matters only"
add an amendment to allow contracts to be mailed or delivered by hand and receipt acknowledged.
limit the bill to the present fiscal year.
Assemblyman Hawkins seconded the motion.
The motion carried unanimously.

The meeting was adjourned.
