a haste to go to the 5 man board.

A.B. 680: Provides for dust-control measures in mining and related industries.

Following an unsuccessful attempt to locate Joe Dini for input on this bill, it was briefly discussed by the committee. Senator Bryan stated that Paul Gemmill sees no great harm in this. Senator Wilson commented that he would discuss this with Mr. Dini and inform the committee - it will be decided informally what to do. Senator Dodge remarked that there is a question on standards that he feels Mr. Gemmill is not aware of. Further, unless Mr. Dini needs this bill, we should hold it.

Being no further business at this time, Senator Wilson adjourned the meeting at 1:05 p.m.

Respectfully submitted,

Sharon W. Maher, Secretary

Thomas R.C. Wilson  
Chairman
