

ASSEMBLY JUDICIARY COMMITTEE
58th NEVADA ASSEMBLY SESSION

MINUTES

April 24, 1975

This meeting of the Assembly Judiciary Committee was called to order by its Chairman, Robert R. Barengo, on Thursday, April 24, 1975.

MEMBERS PRESENT: Messrs. BARENGO, BANNER, HEANEY,
HICKEY, LOWMAN, POLISH, SENA, Mrs.
HAYES and Mrs. WAGNER.

MEMBERS ABSENT: NONE.

A Guest Register from this meeting is attached to these Minutes.

Assemblyman Daniel J. Demers testified on A.B.559. This bill was essentially designed to do two things: (1.) It requires a report be issued by the State of Nevada on a yearly basis--similar to a report put out on a federal basis. He passed out copies of this report to this Committee. One is attached to the original Minutes only because of its length. -and- (2.) It forces and brings into this situation the judges who sign a wiretap order. When these are authorized by a judge, within 30 days are allowed for the judge to fill out a report and send it to the administration office of the United States Court. When they made major changes in the wiretap law during the last session of the Legislature, the Attorney General and others were required to do the reporting, but we neglected to put into the law that the judges must also report.

Mr. Demers said that the federal wiretap law was brought about in 1968. The Attorney General is reporting this information to the federal government pursuant to federal law. He has to claim in that report that he had one wiretap order. The state law is different in the area of reports which are compiled. This brings in our judges in order for compliance with the federal law. Section 5 of the bill should be completely eliminated (see pps. 4 and 5 of the bill). Law enforcement officers assured him there were no abuses. This would leave the law as it is now on emergency wiretaps. On Page 2, Line 24--this can be eliminated. Mr. Demers advised that this was discussed with the Public Service Commission and somebody talked to the Nevada Crime Commission. The Public Service Commission has had this for years and years. They indicated that they have never wanted the responsibility, and the Nevada Crime Commission is probably a better agency to handle this. This Committee questioned Mr. Demers at length

Stan Warren, Nevada Bell, testified on A.B.559. They have no opposition to this bill at all. Two years ago when S.B.262 came out, they were in the midst of a law suit and were unable to have input in this particular bill. They were named as a party in a suit to a wiretap situation. At that time they did suggest some amendments and they looked more closely at it. Now, they offer another

Assembly Committee on Judiciary

Minutes
Page Two.

April 24, 1975

amendment--they find some conflict with the federal law. There is procedure to let the telephone company assist to identify some of the facilities being used. The Nevada law calls for 72 hours and there is some conflict here, but this is not the problem. The problem is regarding the reference to "good faith reliance". He told the Committee about the law suit two years ago. On this bill, Page 2, Line 9, regarding information which should be included on the information for a wiretap, he read Subsection (d). He had it put into a different place, but he will research where it best should go. The amendment is that the good faith reliance be inserted--which would result in a complete defense in any criminal action against the public utility company. This amendment as proposed is attached to these Minutes.

Mr. Demers commented that it should be inserted where Section 5 is being removed. Mr. Warren said that this is in the federal law, although he is not sure of the exact wording.

Mr. Wayne K. Norris, Central Telephone Company, testified in support of A.B.559. However, they do want to support it as it was presented this morning (see above testimony) with the changes by Mr. Demers and the amendment that Mr. Warren presented. This does give them a bit of protection from the individuals who are involved in the wiretap situations. He would like to urge adoption of these amendments.

Barton Jacka, Las Vegas Metro Police Dept., testified on A.B.559. Nevada law as it now stands far exceeds the guidelines of the federal standards. Every time laws are made like this, it ties and binds law enforcement agencies' activities in investigating criminal activities. The original bill, they felt, was too severe. They agree that Section 5 should be deleted. There have been no abuses. They feel the present law is adequate in that regard. They hesitantly have no objections to the other amendments proposed. They feel the Crime Commission with its Executive Director would be a good agency to make these reports. The Executive Director of the Crime Commission, Carrol Nevin, went over the bill with the proposed amendments with Mr. Jacka, and he said there are no objections from them. Mr. Jacka was questioned by the Committee.

Mr. Demers presented to Chairman Barengo a copy of the law prior to 1973.

Michael Fondi, Carson City District Attorney, represented the Nevada District Attorney Association. He spoke on A.B.559. The Association had a bill which was to reinsert the one-party consent. They would have a big problem in prosecuting if this is not changed. They had a bill drafted that one-party consent was permissible without getting a court order. They have no objection to the bill or to the proposed amendments.

Bill Macdonald, Humboldt County District Attorney, commented on A.B.559, saying that his comments parallel those of Mr. Fondi.

Assembly Committee on Judiciary

Minutes

Page Three.

April 24, 1975

Barton Jacka testified on A.B.585. This bill was proposed by their department and it is an effort to "clean up" the statute dealing with affidavit testimony. Most of the situations recommended in the bill have already received the knowledge and approval of the District Attorney and the Public Defenders Offices in Clark County. One of the things which was left out of the legislation last session was the inclusion of the municipal courts. He read a portion of a comment by their department in this regard, which dealt with statistics. He said their chemists travel throughout the State. He provided this Committee with a copy of a prepared statement in the form of an Inter-Office Memo dated April 21, 1975 of the Las Vegas Metropolitan Police Department, which copy is attached to these Minutes.

Lloyd Whalen, Department of Law Enforcement Assistance, State of Nevada, testified on A.B.585. He would be in complete accordance with this affidavit bill with his colleague. He would like to suggest amending this particular bill to include grand jury proceedings. They seem to allow this thing in district court. They will allow it in the justice court and municipal court, so it seems that the grand jury proceedings should be included. They have gone on as many as 15 narcotics cases in one day, so it seems more reasonable to add grand jury. Chairman Barengo questioned Mr. Whalen as to the use of the affidavits.

Michael Fondi commented on A.B.585, and said that he totally agrees with Mr. Whalen. He thinks it would save a lot of time.

Charles H. McCrea, Executive Vice President/Administration, testified as to A.B.634. His complete written statement is attached. He told this Committee that he feels this bill is truly a shocking legislative proposal. He does not know of any reason for this bill. It seems to him that the utilities and the utility people are doing everything they can to comply with a very complex set of rules and regulations that apply to them. He quoted from the proposed bill. To his knowledge the rules of the Commission can be found in only a few sources. The rules and regulations must cover a lot of things which most people are not aware of. He referred to the imposition of civil penalties rather than criminal penalties. He feels that the "civil penalty business" is a dangerous subterfuge. In this bill, it is not clear whether it intends to empower the Commission to find whether a violation has occurred. There is no judicial power to assign anywhere else. He thinks the Commission cannot be empowered to find out whether rules or regulations have been violated. This is a court function. He suggests that if legislation of this nature is deemed to be necessary, it should stick with the idea that you are going to impose a criminal penalty and give people who are accused all of the rights of criminal defendants--all of the protective rights to which they are entitled. Complaints should be prosecuted in a court--not before the Public Service Commission.

As to A.B.635, Mr. Lowman testified that this is a bill brought

Minutes
Page Four.

April 24, 1975

about by the last campaign that the statute of limitations is often allowed to run on matters regarding falsification of public documents and the theft of money. He further stated that he found in the statutes that the only crime not applicable is murder. When he asked for this bill it was last November, and when he was called into the bill drafter's office, it was just about two weeks ago. The theft of money at that point did not seem applicable, so the bill was drawn to pertain to falsification of public documents.

Michael Fondi, Carson City District Attorney, testified in regards to A.B.635. There is a provision in the law which provides that if a crime occurs and is kept secret, the time does not run on the statute of limitations until it is discovered and becomes a matter of public fact. The problem with this is trying to define the particular areas of what is considered "secret". He feels that this bill is probably not too acceptable in its present form. He feels some more input and study should be had.

As to A.B.636, Mr. Lowman testified that the reason for this bill is to add the death penalty for first degree murder, and this is because of the definition of "murder". We have, presumably, a criminal justice system and not a system of mercy, but in our day and time, we have gotten into the philosophical aspects of criminal punishment. Mr. Lowman feels that with this bill we can get back into the situation where you can convict a person with malice aforethought. Mr. Barengo said the effect of this bill is to make all first degree murders punishable by death. Mr. Lowman said this was correct, and this is the effect of the bill. Discussion was had by the Committee.

Mr. Fondi commented on A.B.636. He said that he doesn't think that they would be able to convict many people as proposed by this bill. He talked this bill over with other district attorneys and they could not agree with the bill. The United States Supreme Court heard arguments this week on a particular case, and if he can believe what he read of the newspaper accounts, there is supposed to be a decision in June. He wonders about that. The District Attorneys Association would be opposed to this legislation in its present form. It is very difficult to convince 12 people on a jury that a crime should be punishable by death. He believes it would present some problems which would be very difficult to cope with. It reverts back to an area in which they had much difficulty before. Nobody has completely understood exactly what the Furman case and resulting decision has said. And, it is, indeed, very difficult to predict what a jury will do, as sometimes it seems that they consider everything but the facts.

As to S.B.404, Mrs. Hayes moved DO PASS, and Mr. Banner seconded. Discussion was had. The vote indicated 7 in favor of the motion with 1 dissenting (Mr. Lowman). 1 was absent for the vote (Mr. Heaney, who was excused from the meeting before any action was taken on any bills.) Legislation Action Form is attached hereto.
MOTION CARRIED DO PASS S.B.404.

Minutes
Page Five.

April 24, 1975

As to S.B.345, Mr. Banner moved DO PASS, and Mr. Lowman seconded. Lengthy discussion followed as to the amendments. At this point Assistant Sheriff Bart Jacka, Las Vegas Metro Police Dept., testified on the bill. He said he testified when the bill was in the Senate. He made reference to certain other people who also testified. He does not feel that the number of instances involving a minor in this state without parental permission is a particularly huge problem. When these minors are picked up for various other reasons other than for being from another jurisdiction, they are usually picked up for other purposes and acts; however, when they are taken in the only notation put down is that they are from other jurisdictions. And, the police do not put down the other reasons for which they were picked up. The bill was drawn as a result of a particular class at UNLV.

The Committee further discussed amendments to S.B.345, and Mr. Banner withdrew his motion to Do Pass. Mrs. Wagner moved DO PASS AS AMENDED, with three amendments: (1.) Section 10 remove Lines 27 through 29; (2.) Section 4 should end after "guardian ad litem"; and, (3.) Stating that the parents would not be liable for the emancipated child's support. Mr. Banner seconded Mrs. Wagner's motion. The vote indicated 5 in favor of passage as amended, with 3 dissenting (Barengo, Hayes & Polish), and 1 absent for the vote (Heaney). Form attached. Chairman Barengo appointed Mrs. Wagner to be in charge of getting the amendments to the bill.
MOTION CARRIED DO PASS S.B.345 AS AMENDED.

As to A.B.548, discussion was had by the Committee about obtaining no fault insurance. Barton Jacka commented on this bill. In Subsection 2 it indicates any time a police officer stops a person he must present the insurance card and proof of having insurance. Mr. Jacka says he thinks this bill goes too far and way beyond what the police should have to do. If there is an accident, then he believes that the card should be presented, but to have to present it each time a driver is stopped is not good.

As to A.B.585, Mr. Banner move DO PASS AS AMENDED to include the grand jury, and Mr. Lowman seconded. Discussion was had, and Mr. Barengo said a special section would have to be added to include grand jury proceedings. The vote indicated 8 in favor of the motion with Mr. Heaney absent for this vote. Form attached.
MOTION CARRIED DO PASS A.B.585 AS AMENDED.

As to A.B.635, Mrs. Wagner moved to INDEFINITELY POSTPONE, and Mrs. Hayes seconded. The vote showed 7 in favor of indefinite postponement. Mr. Lowman dissented, and Mr. Heaney was absent for the vote. Form attached.
MOTION CARRIED INDEFINITELY POSTPONE A.B.635.

As to A.B.636, Mrs. Wagner moved INDEFINITE POSTPONEMENT, and Mrs. Hayes seconded. The vote was 6 in favor of the motion, 2 dissenting (Lowman & Polish), and 1 absent (Heaney). Form attached.
MOTION CARRIED INDEFINITELY POSTPONE A.B.636.

Chairman Barengo adjourned the meeting after a motion and a second.

AMENDMENT TO NEVADA ASSEMBLY BILL NO. 559

Amendment No. 1

On page 4, after line 23 of the printed bill, "insert"

"(c) A good faith reliance by a public utility on a written wiretap order shall be a complete defense to any civil or criminal action brought against the public utility on account of such wiretap."

ment in the original statute be eliminated. That statement is underscored by the word "notifies." In numerous instances, defense attorneys have claimed to have "notified" the District Attorney; some times by word of mouth, some times by telephone, and in almost no instances by mail. What is required by the proposed change in Section 3 is that the defense attorney utilize the same mechanics for notification as the prosecuting attorney is required to do by the provisions of the statute, i. e., certified or registered mail.

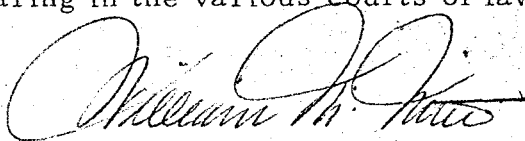

If the defense attorney so notified the District Attorney at least 96 hours prior to the date set for trial examination, it would give sufficient time to the laboratory personnel to re-arrange their schedules of court appearances to be able to abide by such a request. These individuals are subpoenaed to various courts within the State of Nevada, particularly in the Clark County region, and must travel from court to court for the purpose of analytical testimony. With the number of subpoenas being issued, as mentioned above, it is rather difficult to appear in a specific court when telephoned and told that a case will be presented within the next 15 - 25 minutes. This would not occur if Section 3 of NRS 50.325 were modified as suggested.

NRS 50.335

This section covers requested changes in the form of both affidavits to be used by the persons conducting the chemical analyses described in NRS 50.315 and 50.325. The form requested was drawn up by the Public Defender's Office of Clark County Nevada as being acceptable to them and has, in effect, been in use for some period of time. The changes within the form are concerned only with the chain of custody of the items examined and the methods by which the analytical chemist marked the containers and/or seals prior to returning the evidence items to the Evidence Vault System.

The original affidavit form of NRS 50.335, according to the Public Defender's Office, left alot to be desired as to the information contained therein for presentation in a court of law. With this we must agree.

The requests for modifications of NRS 50.315, 50.325 and 50.335 are made so that the affidavit may be used with much more clarity than is now evident in the existing statutes. In most instances, the items proposed for change are already in use by stipulation of defense attorneys. The requested changes are the result of everyday practicality for expert witnesses who are appearing in the various courts of law in the State of Nevada.

William M. Witte, Deputy Chief
Technical Services Division

INTER-OFFICE MEMO

801

TO: Assistant Sheriff B. Jacka, Line Operations DATE: April 21, 1975
FROM: Deputy Chief William M. Witte, Technical Services Division
SUBJECT: AB 585 - Affidavit Testimony

NRS 50.315

At the present time, NRS 50.315 requires some modification to conform with practices that are already in effect although not covered by this statute. These practices have been in use with the knowledge and approval of both the prosecuting attorneys and/or the Public Defender of Clark County and criminal defense attorneys.

The one modification is to extend the use of the affidavit testimony in Municipal Courts in the State of Nevada. Apparently the original version of the statute inadvertently left the Municipal Courts without the benefit of affidavit testimony, thereby making numerous cases unwieldy and very lengthy which interfered with crowded court calendars.

The second modification of NRS 50.315 would be the inclusion of the "Identity of controlled substance alleged to have been in the possession of a person." This segment is already stipulated to by numerous defense attorneys, the Public Defender, and the prosecuting attorneys for the sake of expediency in the numerous narcotic trials which occur in this area. As an example, in the Crime Laboratory System of the LVMPD for the year 1974 alone, some 3,801 drug cases were analyzed and 1,122 blood alcohol cases were analyzed. Of these 4,923 analyses, the three Chemists conducting them were subpoenaed to court 2,370 times. Without the use of affidavit testimony, this would have been an impossible task.

NRS 50.325

The modifications requested of NRS 50.325 would include the words "or municipal attorney" to conform with the proposal of the entire structure of affidavit testimony as described in the proposed NRS 50.315.

A second requested change would be in Section 2 of NRS 50.325 whereby the sending of certified or registered notice of affidavit would be conducted by the prosecuting attorney. This would be accomplished in those cases that the prosecuting attorney are actually taking to court. This particular procedure was omitted from the original NRS 50.325, which led to some confusion since it could not be determined who was to send the counsel for the defendant a certified or registered notice of affidavit testimony.

Section 3 of NRS 50.325 needs to be defined in more detail to be workable, hence the request that this section be modified so that the confusing state-

Re: AB 634

I appreciate your consideration in permitting me to express my views of AB 634 out of turn on April 24, 1975.

Following is a recapitulation of the views that I expressed on April 24, perhaps somewhat better organized.

1. Is There A Need For This Legislation?

A suitable threshold question with respect to any proposed legislation is, "is there a need for it?" I have been a close observer of the utility regulatory scene in Nevada for the past nineteen years and I am not aware of any instance in which there has been an effort to impose a penalty against a public utility or against any officer, agent, or employee of a public utility for any alleged violation. Had there been a wave of violations, there might be some call for legislation imposing stringent sanctions; however, in the absence of any offenses, I submit that the proper answer to the threshold question, "Is there a need for this legislation?" is "no".

2. Scope of the Legislation

The scope of this legislation is all-encompassing. It covers "Any public utility or any officer, agent, or employee of a public utility" and covers not

April 24, 1975
Page Two

only a violation of "any of the provisions of Chapters 704, 705, 706, 708, and 711 of NRS" or "any rule or regulation of the Commission" but also any failure, neglect, or refusal to obey any order of the Commission or any order of a court requiring compliance with an order of the Commission. Undoubtedly, this covers everything.

Among the things that it covers, of course, are all of the orders of the Commission issued since day one, and to my knowledge these have never been either published, compiled, or indexed. This leaves us not only ignorant of these orders, but unable to ascertain what these orders say through any rational system of entry into Commission records. That is, to a very large extent, we cannot even ascertain what the Commission's orders are, even given the subject matter.

As another example, the Commission has rules of practice and procedure which are covered, literally, by the proposed amendment to AB 634. It is bad enough that these are out of print. Worse than that, I might violate one of the rules of practice and procedure - for example, Rule 6.2, which requires all pleadings to be verified - and thereby be subjected to a \$1,000 fine. Other examples of potentially outrageous consequences of applying AB 634 literally can easily be constructed.

3. Civil Versus Criminal Penalties

AB 634 would soften the imposition of the penalties which it imposes by labeling them "civil" rather than "criminal". Actually, this approach is quite sinister.

The area of "civil" penalties not based on a measure of damages is a gray area in any event. Obviously, such a penalty is more a fine than a payment of compensation. And a fine traditionally is a criminal sanction.

April 24, 1975
Page Three

The imposition of a criminal sanction without the more strict protection accorded defendants in criminal proceedings in my view is offensive to the Constitution. If I am to be fined up to \$100,000, it makes little difference to me whether the fine is labeled "civil" or "criminal"; in either case I am broke. But if the offense is labeled "civil" and may be imposed in a "civil" proceeding, the burden of proof of the acts constituting the offense for which the fine may be imposed is a much lighter one upon the prosecutor. If the penalty is civil, these acts may be proved by a simple preponderance of the evidence. On the other hand, if the offense is criminal, the prosecutor must show that the offense occurred and that the acts constituting the offense were committed by the accused beyond a reasonable doubt. It is for this reason that I see in AB 634 a somewhat sinister end-run around traditional Constitutional protections.

The imposition of the civil penalty is further offensive in that it requires no intent, or "scienter" in legal terms. Thus, I might unwittingly commit a civil offense ("fail" or "neglect" to "obey any order of the Commission") without even being conscious of doing so, and subject myself to a fine of not to exceed \$100,000. Obviously, no such fine would be imposed, for are we not a reasonable people? One only needs recall that in 1912 a distinguished United States senator, arguing that there ought to be a maximum limitation on taxes upon personal income spelled out in the then proposed Sixteenth Amendment to the United States Constitution, was practically laughed off the floor of the Senate when he suggested that future Congresses might impose income tax rates as high as 10%.

April 24, 1975
Page Four

4. Constitutional Infirmities

Under proposed paragraphs 2, 3, and 4 of AB 634, it is unclear whether the Commission is intended to ascertain the facts which would constitute a violation with the court being authorized only to ascertain the amount of the fine, or whether the court would also try the facts with respect to an alleged violation. I suggest that if the legislation is to be passed, it clarify the fact that the court must be the tryer of facts.

Article III, Section 1 of the Nevada Constitution provides for the separation of executive, judicial and legislative powers, and Article VI, Section 1 vests the entire judiciary power in the Supreme Court, the district courts, the justice courts, and certain municipal courts. The Commission has no judicial powers and the legislature has no judicial powers to delegate to the Commission; accordingly, the Commission cannot act judicially on any matter. Finding that an offense has been committed is the very essence of judicial action, whether the alleged offense is civil or criminal. Accordingly, it follows that the Commission cannot be authorized to try alleged violations of any laws, rules, regulations.

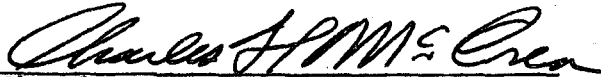

If prosecution for alleged violations is to occur, such violations should be prosecuted by the Attorney General's office upon complaint of the Commission, and tried in the district court. Further, in view of the magnitude of the proposed fines and the infirmities of the "civil penalty" theory, I suggest that the offenses which AB 634 is intended to cover be clearly defined as misdemeanors or gross misdemeanors or felonies, that "scienter" be made an essential element of any such offense, and that the accused be granted the protections customarily accorded to any criminal defendant.

April 24, 1975
Page Five

Recommendations

My sincere belief is that no legislation on this subject is needed, but that if this Committee should deem such legislation necessary, AB 634 should be broadly amended to avoid the Constitutional and other objections outlined above.

Very truly yours,

Charles H. McCrea

¹Based on the actual number of intercept devices installed as reported by the prosecuting official.

²A business and living quarters combination may refer to one location or more than one location as the prosecutor's reports usually do not indicate the number of interception devices actually installed.

³The number of days in use was not specified in all reports.

NI - Not indicated.

NOTE: This information was taken from reports filed by judges and prosecuting officials.

¹Based on the actual number of intercept devices installed as reported by the prosecuting official.
²A business and living quarters combination may refer to one location or more than one location as the prosecutor's reports usually do not indicate the number of interception devices actually installed.
³The number of days in use was not specified in all reports.
 NI - Not indicated.
 NOTE: This information was taken from reports filed by judges and prosecuting officials.

Table 3
Major Offense for which Court-Authorized Intercepts were Granted Pursuant
to Title 18, United States Code, Section 2518, January 1, 1973 to December 31, 1973 - Concluded

| Reporting jurisdiction | Total | Arson and explosives | Bribery | Burglary | Escape | Forgery and counterfeiting | Gambling | Homicide and assault | Kidnapping | Larceny and theft | Loansharking, usury and extortion | Narcotics | Obstruction of justice and hindering prosecution | Possession, transport, or receipt of stolen property | Racketeering | Robbery | Not indicated |
