Senator Floyd R. Lamb was in the Chair.

PRESENT: Senator Floyd R. Lamb, Chairman
Senator James I. Gibson, Vice-Chairman
Senator B. Mahlon Brown
Senator William J. Raggio
Senator Clifton Young
Senator Warren L. Monroe
Senator Lee E. Walker

OTHERS: Noel Clark, Public Service Commission

Dr. Lon Harter, Chiropractor - C.C.
Dick Rottman, Insurance Division
Assemblyman Lawrence Jacobsen, A.B. 637
Howard Barrett, Budget Director
Ron Sparks, Fiscal Analyst

AB 500

Mr. Noel Clark said that the Administration has suggested that the Commission expend what is necessary, and then request reimbursement at the end of the biennium. Mr. Clark said that the Federal Government is funding about 65% of this.

Senator Raggio asked if the bill language formalizes an existing division. Mr. Clark said yes.

Senator Young asked what would be the major activity involved. Mr. Clark said that there is a pilot insulation program which selects homes and does studies on the savings involved.

AB 523

Mr. Clark said that this bill formalizes the Board and increases the membership, and this will also involve costs of equipment, a secretary, office space, and publication expenses. Mr. Clark said that recommendations are made by the Board concerning legislation considerations, and conservation. Mr. Barrett said that this was not put in the budget, because it arrived late. Mr. Clark said that the Board is operating out of their personal financing at this time.

AB 534

Mayor Scrivner said that Carson City, and the Welfare Director support this bill. Senator Brown asked who requested the bill. Mayor Scrivner said the Nevada Chiropractor Association.

Mr. Norman Ingall of Las Vegas said that this type of legislation was

recently included in several Welfare and Trust unions. Senator Raggio asked if this has precedent in other states. Mr. Ingall said that 23 states have this practice, and there are others who are currently legislating on this issue now. Mr. Ingall said that in the future this will save the State money.

Melissa Goff presented the following amendment for the bill:

Page 2 :

7. Chiropractic services as outlined in Sec. 1905 of Title XIX of the Social Security Act, including incident supplies only with respect to treatment by means of manual manipulation of the spine to correct a subluxation demonstrated in X-ray film to individuals trained in the reading of X-rays (but excluding reimbursement for X-rays as a chiropractic service) and only as provided by a chiropractor who is licensed as such by the State of Nevada and who meets uniform minimum standards promulgated by the Secretary of Health, Education and Welfare under Section 1861 (r) (5) of the Social Security Act.

Senator Gibson asked if there were any objections to this amendment. Mr. Ingalls said he objected to the exclusion of reimbursement for X-rays. Mrs. Goff said that this amendment is a Federal mandate. Senator Raggio asked if there couldn't be wording that would cause this exclusion to change if the Federal law changed. Dr. Lon Harter said that X-rays are necessary to his practice, and the State should pick up these costs. Mrs. Goff said that this is the Federal regulation verbatim.

Senator Young asked what "incident supplies" means. Mr. Ingalls said physical rehabilitation devices.

AB 388

Mr. Dick Rottman said that this bill would allow uniform accounting and disclosure of the financial statements of these institutions. Senator Raggio asked if one purpose of the bill is to determine if insurance rates are correct. Mr. Rottman said that the companion bill A.B. 387 takes care of rate regulation.

Senator Gibson said that he could see the benefits to this in that it would help control costs by institution comparisons, and statistics would be available to determine such things as the cost of un-used facilities. Senator Brown asked if the authorities should be availed to follow the directions shown by these disclosures. Senator Gibson said that this would not be possible at this time. Senator Walker asked if the legislature should mandate that Health Services receive these reports. Mr. Rottman said this would be done as a matter of course.

AB 227

Mr. Ron Sparks said that the fiscal note for this is approximately

\$800,000 per year. Mr. Rottman said that if the program is to be maintained status quo, it will take \$32.00 and \$35.20, and if this is not made available, then the program will have to be reassessed, and possibly cut-back. Senator Monroe felt that if the program was cut back, people would leave the system and in two years this would cause the program to be even more expensive.

Senator Raggio asked what company had the policy. Mr. Rottman said John Q. Ryan Agency, with Crown Life Insurance. Senator Raggio suggested that perhaps another company would provide better rates. Mr. Rottman said that this has been examined, and he felt that they have the best rates, but he believed that Blue Shield had offered lower rates to University professors. Senator Gibson said that he knew of the Blue Shield offer, and was aware that the University wanted out of the current system. Mr. Rottman said that some companies offer low rates to bring people in, and then raise them at a later date.

Senator Young asked how many companies were checked for bids. Mr. Rottman said about ten. Mr. Barrett said that if the present rate is maintained it will cost about \$1.1 million in General fund money. Senator Raggio asked if any new areas of coverage were being added. Mr. Rottman said no.

AB 637

There was a brief discussion with Assemblyman Jacobsen on the water system, but it was decided by the Committee to re-schedule the hearing for May 12, 1975.

AB 227 (See attached bill)

Mr. Howard Barrett said that the general fund money involved is \$400,000 per year, and this is an Administration bill.

There was a general discussion on the expense involved, and how this will affect ADC. Senator Brown questioned if there could be a 4% increase each year for ADC with a "trigger" for the second year.

Mr. Barrett said that this coverage is for the same benefits as they have now, but the increase is for inflation.

Senator Lamb said if they receive their raise in salary, they can afford to make up the difference in the rate. Senator Raggio felt that this was unfair, and that a benefit shouldn't be given in one area, and taken away in another.

Senator Walker - Motion to amend and Do Pass to keep the rate at the current figure of \$23.64.
