Senator Lamb said that Senator Dodge had asked for five minutes to speak to the Committee.

Senator Dodge said he wanted to speak on the action that the Committees had taken on the Western Nevada Community College. He felt that this program was locked out for six years as a result of the action.

Senator Gibson said that his understanding was that they did not do what Senator Dodge had said. As far as the Senate action was concerned, the projects were left in the priority of completion that they were scheduled for; they didn't change that at all, so it is still a five year program. The only delay is the review of those projects and when they will fit them into that program at the next session. He said the Committee was suspending them, but they were not moving any projects in lower priority up any higher, they are still in the schedule of the five year program. The Senate Finance Committee all agreed that that had been their understanding at the time action was taken.

Senator Dodge said that he had misunderstood the action taken. As long as this project remains in the order of priority whereby it could be considered on its merits in two years, he was satisfied.

Senator Dodge asked that the records indicate this and if everyone understood that, it was all right.

S.B.369: Mr. Mello said he had talked with the Chairman of the Committee and he indicated that he thought the bill was dead however it has not yet been voted on.

Senator Lamb said if the bill died the money would come back out.

DESERT RESEARCH INSTITUTE: Senator Gibson asked about the Human Systems Laboratory; he wondered if this was the water research now. Mr. Dolan said that according to Dr. Smith this division had been in previous years heavily involved in anthropological and archaeological research, but in the past two years it has moved more into some of the environmental impact statements. They will be heavily involved in the environmental impact statements for the Valmy Power Plant; they will be involved in energy transfer programs with the Utah and California Power Commissions; they would be involved in some studies that would be in water research. He is trying to change the direction of this; he said that he hated the name but he is trying to get it completely changed around and get it away from strictly archaeological and anthropological systems.

Senator Gibson moved the Senate go with the Assembly; Senator Echols seconded and the motion carried.

COMMUNITY COLLEGE DIVISION ADMINISTRATION: Mrs. Brookman moved that the Assembly go with the Senate; Mr. Kosinski seconded and the motion carried with Messrs. Bremner, Glover and Howard dissenting.

He so moved; Senator Young seconded and the motion carried. Mr. Mello said there should be a Letter of Intent on the action.

DEPARTMENT OF EDUCATION ADMINISTRATION: Mr. Vergiels referred to a letter from Mr. Gamble on this budget and said he was not satisfied with the explanation. Mr. Serpa said that he was entirely satisfied with the reductions listed in the letter.

OFFICE OF THE SUPERINTENDENT OF PUBLIC INSTRUCTION

Capitol Complex
Carson City, Nevada 89710

JOHN R. GAMBLE
Superintendent

April 13, 1977

MEMORANDUM

TO: Assemblyman John Serpa, Nevada State Legislature
FROM: *J.R.G.* John R. Gamble, Superintendent
SUBJ: Preliminary Estimates on \$150,000 Reduction of
Education Administration Budget

You have asked for a determination by this office of programs and positions that would be reduced to accommodate the \$150,000 Ed. Admin. budget reduction recommended by the Ways and Means Committee.

A preliminary review of our structure reveals that such reductions can take place by a consolidation of the Administrative offices with commensurate reduction of staff in those offices. This could be shown thusly:

<i>TECHNICAL</i>	Consolidate Superintendent's office and	
	Administrative Services Division	
	Savings - 2 Administrative Positions	* \$ 56,495.
	2 Clerical staff reduction	<u>22,500.</u>
	Total	\$ 78,995.

In order to accomplish the remaining reduction, consultant positions and technical and support staff would be reduced on a commensurate basis, e.g.:

For each 2 consultant positions	\$ 45,600.
1 clerical position	11,400.
1 technical position	<u>12,540.</u>
Total	\$ 69,540.

Total Savings \$ 148,535.

* Includes salary costs

Possible program and activity elimination and/or reduction would include:

1. Most curriculum service to school districts including, but not limited to:

Elementary education, environmental education, driver education, mathematics, language arts, arts and humanities, health and P.E., science, social studies, and vocational education.

2. A reduction of audits of pupil attendance in all districts for the Distributive School Fund.
3. Reduction and/or elimination of state department sponsorship and participation in workshops for driver education, school transportation, and district teacher institutes.

Our response to proficiency and competency standards as provided by this legislative session, as well as our own program, could be seriously curtailed.

Any layoff procedures cut across various departmental budgets, including vocational and federal programs, and seniority is the greatest in the Ed. Admin. budget. These reductions would be felt in all budgets and could seriously deteriorate current programs across the board.

It would be our major concern to maintain those programs and activities with the highest priorities of the board within legislative intent as expressed by those reports of the finance committees of the Assembly and Senate, as well as new bills that have been approved.

Any reductions in the office in Las Vegas would depend upon final disposition of positions as a result of personnel rules and at a commensurate rate of the overall department reduction.
