Mr. Glover

Guests Present: Peter G. Morros, Conservation Department
Mimi Roddin, Historic Preservation & Archaeology
Maynard Yasmer, Rehabilitation
Merv Flander, Services to the Blind
Frank Holzhauer, Department of Human Resources
Charles D. Zeier, Historic Preservation & Archaeology

Chairman Bennett convened the meeting at 5:15 P.M.

SB 69

Mr. Frank Holzhauer, Chief of Planning, Department of Human Resources, spoke in favor of SB 69, saying it was part of the package introduced by the Health Division. The amendment attached by the Senate added another section that was primarily clarification of language.

There were no questions or opposition to SB 69.

SB 76

Mr. Holzhauer, speaking in favor of the measure, said this bill eliminates one section of the NRS, which sets up the various bureaus the Division of Health is supposed to have. This function has been transferred to the Conservation and Natural Resources Department. It makes part of the statute obsolete. This will allow the health officer, with the permission of the director of the Department, to create those bureaus necessary to best make the Division of Health function. There was a proposed, discussed at length by the Senate, to delineate all of the various bureaus. This narrows the latitude of authority of the Division administrator. As the bill now reads, by eliminating the entire NRS 439.020, the Division administrator, with permission of the director of the Department, sets up the division in the most advantageous structure. The Division of Health now has 5 bureaus. It is very difficult to efficiently administer the department if all the bureaus are set up by statute.

There was no opposition to SB 76.

SB 116

The apparent inappropriateness of this measure's consideration by this particular committee was discussed.

Mimi Roddin, Administrator of the Division of Historic Preservation and archaeology, spoke in favor of SB 116. This bill permits the distribution of allocated federal grants-in-aid monies, on a reimbursable basis, to non-profit organizations and private persons or enterprises. This is a technical correction to the Division's legislation ensuring compatibility between state and federal law. There is no fiscal impact.

Mr. Brady asked if the blue signs made at the prison were part of function of Historic Preservation Division. He was told that it was. That was a state activity, but most of the historical and preservation efforts are federal and state joint projects. The particular function evolved from State Parks. Mr. Brady continued there seemed to be more preservation projects in the northern part of the state than in the southern.

Mrs. Roddin stated there were some projects in the southern part but most were in the northern area.

Mr. Charles Zeier said, other programs were being conducted, with the cooperation of the City of Las Vegas; such as archaeological surveys in open territory within the city limits. Their city plan takes into consideration architectural values.

Mr. Brady asked if functions authorized by this bill were already being performed.

Mrs. Roddin said this division was mandated through legislative action of the last session. There is a conflict in the NRS statutes with federal regulations. It was consistent with the direction of the Attorney General that this be brought to the attention of the present legislature. Monies have been obligated to certain projects but are being held for approval of this measure.

Mr. Chaney questions the reasons for elimination of material on lines 18,19, and 20 of the bill and was told that because of reorganization this function was no longer performed by their division and was therefore obsolete.

SB 139

Mr. Maynard Yasmer, Rehabilitation Division, speaking in favor of the bill said SB 139 had only two salient points: 1) to increase the amount of funds available in the revolving account; and 2) to change referencing from clients to "applicants or recipients. . ." The bill does not intend to change the approved use of the fund; it is used solely for expeditious reimbursement to clients. The amendment is the last two lines of the second page. It provides for appropriation which was inadvertently omitted.

Mrs. Cavnar questioned why this measure did not go to the Ways and Means Committee rather than Health and Welfare Committee. The witness could not answer, stating he would like to see it go to Ways and Means. Mrs. Cavnar asked if this would be a general fund appropriation, if it were a one-time appropriation. She was informed that it was a one-time "shot". That was left out of the bill.

A discussion among Committee members ensued as to whether or not to refer SB 139 to Ways and Means Committee.

Chairman Bennette said this Committee could and should consider the aspects other than the necessary appropriation.

(Committee Minutes)

Mr. Mervin Flander, Services to the Blind, stated there were substantive changes where originally the statute provided that the fund should be used for payment of claims of clients and vendors of services. Difficulties have been encountered where cases were closed, and technically under federal regulations they were no longer clients, yet were still recipient of services from the Bureau. In order to make sure there are no other problems, a change is proposed to make them applicants for or recipients of services. The remainder of the bill is the increased appropriation.

Mr. Chaney asked the reason for the deletion of "and other rehabilitation services", line 10. He was informed this was taken care of elsewhere.

SB 170

The Committee decided to postpone discussion of SB 170 until a full Committee was present.
