GUESTS PRESENT

See Guest List Attached

The meeting was called to order by Vice Chairman Glover at 3 p.m.

<u>S.B. 360</u> - Provides for licensing and registration of experimental vehicles.

Senator Blakemore said this bill will provide for licensing and registration of experimental vehicles and will come under the jurisdiction of the Department of Motor Vehicles. He estimated there would be approximately 200 such vehicles. <u>S.B. 360</u> is an attempt to develop better emission control devices and assist in fuel conservation and automobile safety.

Mr. Ciardella, Department of Motor Vehicles, stated that the Department feels this is a critical bill which could provide the necessary relief for individuals who are experimenting with vehicles in an endeavor to improve carburization, timing devices, etc. A drawing of the anticipated license plate was shown to the committee. Mr. Ciardella said the fee would be \$25 a year and the individuals would report to the Department yearly on their experiments.

Mrs. Wagner questioned the wording "The director in his discretion shall determine..." in subsection 2, line 18, page 1. Mr. Ciardella said they would have a panel of intested people who would probably assist in determining who was eligible for licensing.

Mr. John Holmes appeared in support of S.B. 360. His hobby is experimenting on automobiles and this would encourage young people in the area. Mr. Holmes described his own experiments.

Mr. Vinc Havas referred to Mrs. Wagner's question and suggested that the bill should contain a provision that a committee of individuals from the industry would determine whether a motor vehicle was experimental rather than only the Director of the Department.

Mr. Ciardella said he would have no objection to the bill stating that the director should appoint such a committee. Mr. Glover stated that such a committee would have to serve without pay. Mrs. Wagner said if such committee was considered it should also include individuals outside the industry such as scientists or engineers. Mr. Holmes volunteered to serve on a committee without reimbursement.

A.B. 751 - Prohibits sale of certain motor vehicles by dealers unless warranty service is provided.

Mr. Daryl Capurro, Executive Director of the Nevada Franchised Auto Dealers Association, said the intent of A.B. 751 is to deal with the sale of new, or essentially new, motor vehicles in the context of providing the consumer with effective manufacturer's warranty service. He stated that this bill does not curtail, restrict or impinge upon the lawful right of licensed firms engaged in the business of long or short-term leasing, and it does not prevent those firms from selling their leased vehicles at the conclusion or before the end of the lease period.

Mr. Capurro quoted the Nevada law defining new and used vehicles. The problem that created A.B. 751 involves a lack of consumer warranty service provided by selling dealers. He said that A.B. 751 is patterned after the State of Washington law which went into effect in 1969. The Washington State Supreme Court has upheld the constitutionality of this law.

Mr. Capurro said that if the committee was interested in processing the bill there is a need for an amendment which basically involves the sales of vehicles that are manufactured by one manufacturer but the chassis is manufactured by another.

Mr. Leo Lynn, Jr., Sierra Lincoln Mercury, appeared in support of <u>A.B. 751</u> and stated that a consumer problem exists because of warranty repairs of new vehicles not originally performed by a local franchised dealer. He described the operations of his agency and the problems encountered in this regard. He further explained the warranty responsibilities of a franchised dealer.

Mr. Richard Van, Owner of Reno Toyota and Western Mazda and President of Washoe County Motor Car Dealers Association, also supported A.B. 751. He told of problems arising when an outof-state franchised dealer sells a new automobile to a nonfranchised dealer in Nevada since the warranty starts on the date of that sale and the automobile may sit on the used car dealer's lot for several months which reduces the warranty time to a buyer.

Dan Flammer, a Chevrolet and Pontiac dealer, concurred with Mr. Lynn's and Mr. Van's statements. He felt that <u>A.B. 751</u> would protect the consumer and the franchised dealer who has to maintain facilities to properly repair and maintain the automobiles.

Mr. Ron Dale, President of Rule-Dale Enterprises and Continental Leasing, appeared in opposition to A.B. 751. He stated that he had owned many franchises and was therefore familiar with the problems in this area. Mr. Dale said he did not understand the difference on the warranty problem of whether a car was leased or sold and asked the opposition to explain this.

Mr. Capurro stated that in a sale the title passes at some point in time to the purchaser, but in a lease situation the title is not vested with the individual who is leasing.

Mr. Dale said that franchised dealers are reimbursed for the labor performed under warranty from \$19.50 to \$29.00 an hour. He did not agree with the representation that if you didn't buy a car in Reno or locally you would not receive service. Mr. Dale expressed the opinion that the intent of <u>A.B. 751</u> was not to protect the consumer but to force people to buy cars in Reno and ensure that Reno dealers have no competition.

Mr. Dick Hannigan, Hannigan, Inc. of Reno, also opposed the bill. Mr. Hannigan discussed his operations and submitted a copy of a letter from the Better Business Bureau, a paid bill from Herb Hallman Chevrolet indicating his assuming the responsibility for certain warranty service, and a statement from an architect for an automotive repair shop, all of which are attached as <u>Exhibit A</u>. Mr. Hannigan also believed that A.B. 751 would give the new car dealers an opportunity to improve their sales and charge the consumer more.

Mr. K. Leavitt, Leavitt Motors, Overton, Nevada, said he thought <u>A.B. 751</u> must be the result of a Reno war since he had a list of 14 dealers who call and ask him for business. This bill would put him out of business.

Mr. Bill Sullivan, a used car dealer from Reno, expressed his opposition to <u>A.B. 751</u>. He agreed with Mr. Stewart that perhaps the factories have caused this problem. All the franchised dealers agree to do specific warranty work under their franchise and they should not complain about fulfilling this obligation.

Mr. Vinc Havas of Las Vegas said he was representing himself and definitely opposed <u>A.B. 751</u>. He stated that California has a law protecting the consumer which provides that the warranty does not start until it is purchased from a dealer. A copy of one of Mr. Havas' arguments is attached as <u>Exhibit B</u>.

TRANSPORTATION

Assembly Committee on Date: April 30, 1979 Page: 4

Mr. Capurro said that Mr. Havas stated that the definition of new and used cars was a DMV interpretation. He stated that this had been in litigation twice and the Nevada courts have upheld the statute and the DMV interpretation.

Mr. Capurro further said to his knowledge there is no such thing as minor work that can be done by an unauthorized service facility and not affect the warranty. Mr. Capurro made several other statements regarding the opponents' testimony and urged that the committee pass A.B. 751.

A copy of a letter from Los Gatos Datsun Volvo in opposition to the bill is attached as <u>Exhibit C.</u>

Previous testimony of opponents to A.B. 751 is attached as Exhibit A to the minutes of April 24, 1979.

The meeting was adjourned at 5 p.m.

Respectfully submitted,

Jane Dunne, Assembly Attache

| | 482.423 Issuance of certificates of ownership to certain secured par- fies. 1. Whenever a security interest is created in a motor vehicle, other than a security interest required to be entered pursuant to NRS 482.423, 482.424 or 482.426, the certificate of ownership of the vehicle shall be delivered to the department with a statement signed by the debtor show- ing the date of the security agreement, the name and address of the debtor and the name and address of the secured party. 2. The department shall issue and deliver to the secured party a cer- tificate of ownership with the name and address of the secured party noted thereon. (Added to NRS by 1967, 130) |
|------------|---|
| | I'm sure the New Car Dealer's Association will object to this bill. |
| | They will no doubt argue they have had problems with warranty on cars sold |
| · · · | by the used car dealer. Whether that is true or not, it has no bearing on |
| ·· ······· | what we are here for today. |
| | We are not trying to change the original legislative intent, but only |
| | to clarify the purpose and that is the used car dealer must make the new |
| | car used by showing the change of ownership and having it recorded with |
| | DMV. The title performs this requirement without buying plates. |
| | The public still has the same protection they did before. They can |
| | call DMV and find out the vehicle has in fact been sold once before, and |
| *** ***** | is therefore no longer considered new. |
| • | - Secondly, the public is protected in that when the vehicle is purchased |
| | it is marked used right on the reparks of sale that is given to the |
| | customer at the time of sale. |

To The Committee Of Transportation:

Concerning A.S. 751

As a franchised new car dealer we have submitted this letter in opposition to Assembly Bill 751. As many of the Nevada Independent Dealers and Leasing Companies buy from us we feel it necessary to express our opinion. A similar bill was defeated in California trying to squeeze out the independent companies in this manner.

There has never been a warranty problem or expense from the Independent Dealers. The factory re-imburses us for authorized repairs and any other expense not covered is at the discretion of the dealership. The factories would doubtfully give authorization for factory warranty to a non franchised dealer.

It is our opinion, that to approve such a bill would prohibit the consumer from shopping a fair price and forcing him to buy from a Franchise that would then be allowed to charge any amount as the only game in town. It would also hurt the business of all New Car Dealers who enjoy the fleet business provided by the purchases of the independent dealers.

Respectfully,

BAChere

Fleet Manager
