_____

Chairman Banner called the meeting to order at 5:10 P.M. and
informed the committee that this was a work session and no
testimony would be taken.

SB-667:   Authorizes coverage of industrial insurance for
           volunteers who work under public auspices for
           private organizations.

Mr. Banner told the committee that he heard the testimony
in the Senate on this bill and still did not have a clear
understanding of what problem the bill addresses. He asked
Mr. Nusbaum to explain it to the committee.

Mr. Nusbaum explained that it was his understanding that the
problem was under the displaced homemaker's program. Women
who have been housewives for some time and have been out of
the labor market are being brought back in to receive some
training and work experience and under an agreement with a
private employer they work in a semi-training capacity. They
are not paid for that work, it is performed just for the
experience and work for several months.

Senator Ford introduced this bill in the Senate and wanted
to see that these women were covered by workmens' compensation.
The bill would require the sponsoring public agency to cover
the person while they are in the training status. An amendment
was added to the bill in the Senate and the NIC has no problem
with the amended bill.

Mr. Banner explained that a hearing has not yet been held in
the Assembly on this bill and asked the committee if they
wanted to schedule one. No hearing date was set.
