A.B. 429

Chairman Bremner reminded the committee that this is the bill which establishes a state park at Walker Lake. He said that Assemblyman Redelsperger had checked with the Mineral County Commissioners and they said they were not able to match the 25 percent as they do not have the funds in their park budget.

Mr. Vergiels said there was no reason the committee's action in amending and passing the bill should not stand since if the County could not make the match the state would not expend the money. The committee agreed to send A.B. 429 on to the Senate.

S.B. 74 Assigns duties to state fire marshal division and directs that special radio frequency be designated.

Senator Lawrence E. Jacobsen appeared in support of this bill. He referred to the interim subcommittee which he chaired which was to study and develop a statewide master plan for fire protection and control and told of its activities.

One of the subcommittee's prime recommendations, Senator Jacobsen said, was to take the training program away from the University of Nevada and transfer it to the Fire Marshal's office. He stressed the importance of all fire departments receiving the same training in order that they could assist each other.

Chairman Bremner questioned the \$33,900 for training. Mr. Welden said these funds are for grants and will go into the existing program. This is matched with federal funds. Senator Jacobsen explained the distribution of the funds throughout the state and that the program is the incentive to get small fire departments started.

As a member of a volunteer fire department, Mr. Marvel pointed out the importance of the training program and the role rural fire departments played in the everyday life of a community.

Mr. Robinson said he hoped this was the last appropriation to purchase property as he did not believe the resources of Nevada were great enough to purchase all of the private property that is unused on the Nevada side of Lake Tahoe. Mr. Bergevin observed that this was a special situation and he did not believe other bills of this nature had been or would be introduced.

Mr. Alastuey questioned Section 4 and the fact that Section 3 did not contain an appropriation. Mr. Bible said that Section 4 would have to be deleted.
