**ASSEMBLY BILL 316**

**PROPOSED AMENDMENT**

**University and Community College System of Nevada**

AB 316 proposes to require that security be put up by the "owner" on any construction projects above \$5,000,000 (\$1,000,000 in some cases). It seems to exclude "public works" projects from the security requirements as the provisions of the bill do not apply to public works as defined in NRS 338.010. However, by definition, any University or Community College projects that is paid 75% or more from a source other than a state appropriation and/or federal funds is not a "public work" under NRS 338.010, so such a project would be subject to AB 316 security requirements. Such projects would typically include student housing, campus dining facilities, parking structures etc.

The UCCSN would therefore propose that AB 316 be amended to exclude all UCCSN projects from the security requirements.

Suggested language:

Amend Section 6, page 2 by adding after subsection 2 a new subsection:

"3. A construction project of the University and Community College System of Nevada."

Renumber the remaining subsections
