Nevada Farm Bureau 2003 Policy

The following Farm Bureau public policies have been passed by voting delegates at the 2002 Nevada Farm Bureau annual meeting, held in Mesquite, NV, November 7-9, 2002.

Agricultural Chemicals: 101 A

Nevada Farm Bureau is directed to work with the Nevada Department of Agriculture in getting necessary agricultural chemicals placed under Section 24-C and Section 18 of FIFRA. This program provides the opportunity for addressing agricultural chemical local/special circumstance needs.

Agriculture Chemicals: 101 B

Farm Bureau supports maintaining control of the agricultural chemical program in the Nevada Department of Agriculture. We further support the Department of Agriculture playing a lead role in coordinating use of agricultural chemicals, licensing of applicators and control of activities with other agencies (U.S. Fish & Wildlife, Public Land Management Agencies, Etc).

We support the Nevada Department of Agriculture's program to collect and dispose of agricultural chemicals and urge the continuation of the program.
