Nevada Division of State Parks

Position Statement

SB 401

SB 401 revises provision NRS 407.065 concerning the disposition of money received from concessions and property leased by the Division. It would allow the Division to deposit rental and concession lease charges in with revenue generated from user fees. This request came about from a recent LCB Audit that found that the Division has been depositing these fees into the same account as user fees as standard practice. This was an oversight and the intent of separating these from other fees cannot be determined. This revision will provide the agency authority to continue collecting this revenue as it has done historically.
