Organizational Input

Explanation: Section 13 of the bill requires the Director of the Department of Human Resources to administer the "Revolving Account to Support Programs for the Prevention and Treatment of Problem Gambling" which is created in Section 12. The money in the account is to make grants to qualified organizations or persons that provide programs for the prevention and treatment of problem gambling. The bill will require someone to receive and evaluate applications for funding, review and process requests for payment, and monitor grantee activity. The bill also requires the adoption of regulations which will require review by the LCB Legal Division. By statute the LCB may charge \$25 per hour for the time spent reviewing the proposed regulations. There is also a cost in holding the required workshops associated with adopting a regulation. The attached Excel file provides the details of the estimated fiscal impact including reasons we feel there will be a fiscal impact.

Organizational Impact: Has Impact

Section 13 of the bill requires the Director of the Department of Human Resources to administer the "Revolving Account to Support Programs for the Prevention and Treatment of Problem Gambling" which is created in Section 12. The money in the account is to make grants to qualified organizations or persons that provide programs for the prevention and treatment of problem gambling. Section 14 of the bill allows the Director to accept grants, donations, and gifts. Section 15 of the bill requires the Director to adopt regulations regarding the procedures for applying for grants, the criteria for determining whether to award a grant and the procedures to distribute the money in the Revolving Account to Support Programs for the Prevention and Treatment of Problem Gambling in a fair and equitable manner.

The bill is silent regarding the requirement to seek grants, donations, and gifts but the funding appropriated in Section 19 of the bill will probably be exhausted quickly if it is not supplemented. The bill will require someone to receive and evaluate applications for funding, review and process requests for payment, and monitor grantee activity. For these reasons we are including a .5 FTE Social Services Program Specialist III in the fiscal impact. The Social Services Program Specialist is the classification determined to be appropriate for this work by an occupational study completed during the FY 02-03 biennium. This person will be responsible for seeking grant funds as well as other duties associated with granting funds to community organizations or persons that provide programs for the prevention and treatment of problem gambling.

The bill also requires the adoption of regulations which will require review by the LCB Legal Division. By statute the LCB may charge \$25 per hour for the time spent reviewing the proposed regulations. There is also a cost in holding the required workshops associated with adopting a regulation.

REVENUE					
	General Funds	\$ -	\$ 54,911	\$ 48,210	\$ 96,421

The initial funding for the account is general funds. If grant funds are received, there is a possibility they will include an administrative portion. That will not be known until grant funds are actually awarded. For that reason it is assumed all funding for these costs will be general funds.
