Testimony Before Senate Committee

Senator Raggio, Members of the Senate Finance Committee.

My name is Ian Campbell and I am here on behalf of the Nevada Library Association to support AB 214.

In a nutshell, the purpose of the bill is to establish an electronic database of state and local government publications which are deposited to the State Publications Distribution Center for permanent retention and access.

AB 214 requires the State Library and Archives Division to adopt regulations, with input from local government, concerning the type and format of electronic, rather than paper form.

By passing AB 214, Nevada electronic government information will be preserved and made accessible for future researchers, just as printed publications are preserved for future generations today.

Thank you.
