EXTERIORES

The Mexican Ministry of Foreign Affairs informs that, as part of the Integral Program for the Improvement of the Consular Services, on March 6, 2002 started issuing a new higher security Consular ID, called "Matricula Consular de Alta Seguridad" or MCAS.

(FRONT)

(BACK)

The main MCAS security backs are either visible or invisible security features:

**Visible security features:**

- 1) Green security paper, with a special security pattern.
- 2) "Advantage seal", with a Mexican Official seal that appears over the bearer's picture that changes color from green to brown when seen with natural light.

3) Infra red band on the back of the MCAS.

4) Using a fluorescent-light lamp, you are able to read SRE all over the front of the MCAS.

**Invisible security features:**

in order to be able to reveal the invisible MCAS security marks, a special decoder is needed. Using this decoder you can see the following:

**On the front side:**

- 1) The word *MEXICO* written at the left side of the MCAS, next to the bearer's picture.
- 2) The legend "*MATRICULA CONSULAR CONSULAR ID CARD*", written at the bottom of the MCAS.

3) The capital letters "SRE", written three times on the right side of the MCAS.

**On the back side:**

- 1) Written on the left side of the green line, while using the decoder, you will read the bearer's name and the ID number. On the right side, you will read the ID's expiration date and the name of the issuing office, for example "CONSULMEX CHICAGO".
- 2) Turning the decoder 90° degrees, you will read SRE written five times over the MCAS, with the following pattern:

3) Using the decoder over the picture, you will read the bearer's name.

4) Using the decoder over the picture and turning it 90° degrees, you will read the capital letters "SRE" and the bearer's D.O.B.

Please note that the two Consular IDs (*Matrículas Consulares*) previously issued by the Mexican Consulates in the United States, both, the one laminated and the booklet-like one, are going to be valid until their expiration date.
