VINE® Facts

- The offender will not know you are registered with VINE.
- If you are not home, VINE will leave a message on an answering machine. If there is no answer, VINE will keep calling back until you enter your PIN code or until 24 hours have passed.

- Because VINE calls automatically when an offender's custody status changes, you may get a call from VINE in the middle of the night.

- Do not leave a phone number with VINE that rings to a switchboard.

- The Clark County VINE service only includes offenders in the Clark County Detention Center.

- Do not depend only on the VINE service, or any other single program, for your protection. Make VINE part of your safety plan.

- You can leave more than one phone number with VINE. Just call the VINE service again and register another phone number.

Victim Information and Notification Everyday

What will VINE do for me?

VINE will tell you if an offender is in jail and will give you other important custody and court date information. VINE also will let you leave a phone number where you want to be called automatically when that offender is released, transferred, or escapes.

What do I need to do?

Call 1-877-591-VINE (1-877-591-8463) toll-free from a touch-tone phone and follow the directions.

If the offender is in jail, you can leave your phone number to be called when he or she is released. Enter the phone number where you want to be reached, including area code, followed by the pound (#) key.

When VINE asks, make up and enter a four-digit Personal Identification Number (PIN) code that will be easy for you to remember. Write it on the back of this brochure. VINE will ask for the PIN code when it calls you.

When VINE calls, listen to the message, then enter your PIN when asked. Entering the PIN lets VINE know that you got the call, and will stop the service from calling you again.
