AN ACT relating to state government; requiring a state agency, under certain circumstances, to provide notice to an officer, employee or contractor of the agency when the agency accesses or causes to be accessed a computer assigned or loaned to the officer, employee or contractor; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

1 Existing law requires a state agency that uses computers to create a written
2 policy setting forth the appropriate uses of the agency’s computers and to provide a
3 copy of the written policy to each employee of the agency. (NRS 242.300) Existing
4 law makes unlawful certain acts regarding computers and information services.
5 (NRS 205.473-205.513) Pursuant to these existing provisions, an employee is
6 presumed to have the authority to access and use a computer, system or network
7 owned or operated by his employer. (NRS 205.509)
8 This bill requires a state agency to notify an officer, employee or contractor of
9 the agency if the agency accesses or causes to be accessed a computer assigned or
10 loaned to the officer, employee or contractor. The notice may be provided either
11 before or after the access occurs, but not more than 48 hours before or 48 hours
12 after the access occurs.
13 This bill provides three exceptions to the requirement for notice. The first
14 exception applies to instances of access that occur during internal agency
15 investigations and investigations conducted by a law enforcement agency. The
16 second exception applies to instances of access that occur in the course of regular
17 or routine maintenance of a state agency’s computers. The third exception allows a
18 state agency to access a computer without providing notice if the state agency has
19 adopted a procedure for recording certain information concerning the access in a

20 log. The log and its contents are confidential and not subject to inspection as public
21 records, but must be disclosed upon the order of a court of competent jurisdiction.
