

Senate Bill No. 169—Senator Amodei

CHAPTER.....

AN ACT relating to the tax for infrastructure; authorizing the boards of county commissioners of smaller counties to use money in the infrastructure fund for certain projects, facilities and activities; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law authorizes counties to impose by ordinance a sales and use tax for infrastructure. (NRS 377B.100) In a county whose population is less than 400,000 (currently counties other than Clark County), proceeds from the tax are deposited by the State Controller in the county treasury for credit to an infrastructure fund. (NRS 377B.150)

Existing law establishes the purposes for which money in the fund, including interest and any other income from the fund, may be used. In a county whose population is less than 100,000 (currently counties other than Clark and Washoe counties), money from the fund may be expended, according to a plan adopted by the county, on projects for water and wastewater facilities, the management of floodplains, the prevention of floods, the disposal of solid waste and construction or renovation of school facilities. (NRS 377B.160)

This bill expands the authority of a county whose population is less than 100,000 to allow the board of county commissioners to expend money in the infrastructure fund to operate and maintain projects for the management of floodplains or the prevention of floods, and facilities for the disposal of solid waste. This bill also authorizes such a county to expend money in the fund for the construction or renovation of facilities having cultural or historical value.
