## SENATE BILL NO. 238–SENATOR WASHINGTON

MARCH 21, 2005

## Referred to Committee on Commerce and Labor

SUMMARY—Revises provisions governing regulation of certain public utilities. (BDR 58-1156)

FISCAL NOTE: Effect on Local Government: No. Effect on the State: No.

EXPLANATION - Matter in *bolded italics* is new; matter between brackets [omitted material] is material to be omitted.

AN ACT relating to public utilities; authorizing a public utility which purchases natural gas for resale to submit information with a general rate application regarding the effect that certain expected changes in circumstances will have on its operations; authorizing the Public Utilities Commission of Nevada to permit a public utility which purchases natural gas for resale to make quarterly adjustments in its rates based on changes in the costs of natural gas without complying with certain procedural requirements; requiring the Commission to conduct a study and prepare a report for the Legislature regarding the possible use of alternative ratemaking methodologies in general rate cases; and providing other matters properly relating thereto.

## Legislative Counsel's Digest:

Existing law contains certain requirements and procedures that a public utility must follow when filing a general rate application. Specifically, a public utility must submit a statement showing its actual revenues, expenses, investments and costs of capital for the most recent 12-month period of operations from which such data is available. Based on the actual data obtained from the prior 12-month period of operations and any supplemental data submitted by the utility, the Public Utilities Commission of Nevada establishes new rates for the utility. (NRS 704.110)

9 This bill allows a natural gas utility to submit with its general rate application a 10 statement showing the effects of certain changes which are expected to occur 11 within 210 days after the date on which its general rate application is filed with the 12 Commission. If the public utility proves that the expected changes are reasonably

13 known and are measurable with reasonable accuracy, the Commission shall 14 consider the effects of those expected changes in establishing just and reasonable 15 rates for the public utility.

Existing law allows a natural gas utility to file an application with the Commission once every 30 days to recover from ratepayers any increased costs the utility pays for its supply of natural gas. (NRS 704.110) Upon receipt of such an application, the Commission generally must provide notice of the application and hold a hearing concerning the proposed rate increase. (NRS 703.320) In addition, the Commission generally must conduct a consumer session to solicit comments from the public concerning the proposed rate increase. (NRS 704.069)

the Commission generally must conduct a consumer session to solicit comments from the public concerning the proposed rate increase. (NRS 704.069) This bill requires a natural gas utility to request approval from the Commission to adjust its rates on a quarterly basis between annual rate adjustment applications based on changes in the costs of natural gas. If the request is approved, the utility's quarterly rate adjustments are not subject to the requirements for notice, hearings or consumer sessions. Instead, the utility must file an annual rate adjustment application with the Commission to review the appropriateness of the utility's quarterly rate adjustments. The Commission must adjust the utility's rates if the Commission determines that any quarterly rate adjustment made by the utility was not reasonable or was the result of any imprudent practice or transaction. Finally, this bill requires the Commission to open an investigatory docket to study the various methodologies that may be used to establish just and reasonable rates in cases involving general rate applications filed by public utilities. The

Finally, this bill requires the Commission to open an investigatory docket to study the various methodologies that may be used to establish just and reasonable rates in cases involving general rate applications filed by public utilities. The Commission must consider the possible use of different ratemaking methodologies, such as projected test year methodologies, as an alternative to the historical test year methodologies currently used in Nevada. The Commission must submit a report of its findings and recommendations to the Director of the Legislative Counsel Bureau for transmission to the 2007 Legislature.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. NRS 703.320 is hereby amended to read as follows:
 703.320 Except as otherwise provided in subsection 8 of
 NRS 704.110:

1. In any matter pending before the Commission, if a hearing is required by a specific statute or is otherwise required by the Commission, the Commission shall give notice of the pendency of the matter to all persons entitled to notice of the hearing. The Commission shall by regulation specify:

9

(a) The manner of giving notice in each type of proceeding; and

10

11

(b) The persons entitled to notice in each type of proceeding.

2. The Commission shall not dispense with a hearing:

(a) In any matter pending before the Commission pursuant to
 NRS 704.7561 to 704.7595, inclusive; or

(b) Except as otherwise provided in subsection [4] 5 of NRS
704.100, in any matter pending before the Commission pursuant to
NRS 704.061 to 704.110, inclusive, in which an electric utility has
filed a general rate application or an application to clear its deferred
accounts.

1 3. In any other matter pending before the Commission, the 2 Commission may dispense with a hearing and act upon the matter 3 pending unless, within 10 days after the date of the notice of 4 pendency, a person entitled to notice of the hearing files with the 5 Commission a request that the hearing be held. If such a request for 6 a hearing is filed, the Commission shall give at least 10 days' notice 7 of the hearing.

8 4. As used in this section, "electric utility" has the meaning 9 ascribed to it in NRS 704.187.

Sec. 2. NRS 704.069 is hereby amended to read as follows:

11 704.069 1. [The] Except as otherwise provided in subsection 12 8 of NRS 704.110, the Commission shall conduct a consumer 13 session to solicit comments from the public in any matter pending 14 before the Commission pursuant to NRS 704.061 to 704.110, 15 inclusive, in which:

16 (a) A public utility has filed a general rate application, an 17 application to recover the increased cost of purchased fuel, 18 purchased power, or natural gas purchased for resale or an 19 application to clear its deferred accounts; and

20 (b) The changes proposed in the application will result in an 21 increase in annual gross operating revenue, as certified by the 22 applicant, in an amount that will exceed \$50,000 or 10 percent of 23 the applicant's annual gross operating revenue, whichever is less.

2. In addition to the case-specific consumer sessions required 24 25 by subsection 1, the Commission shall, during each calendar year, 26 conduct at least one general consumer session in the county with the 27 largest population in this State and at least one general consumer 28 session in the county with the second largest population in this 29 State. At each general consumer session, the Commission shall 30 solicit comments from the public on issues concerning public 31 utilities. Not later than 60 days after each general consumer session, 32 the Commission shall submit the record from the general consumer 33 session to the Legislative Commission.

34

10

**Sec. 3.** NRS 704.100 is hereby amended to read as follows:

704.100 Except as otherwise provided in NRS 704.075 and 704.68904 to 704.68984, inclusive, or as may otherwise be provided by the Commission pursuant to NRS 704.095 or 704.097 or pursuant to the regulations adopted by the Commission in accordance with subsection 4 of NRS 704.040:

40 1. A public utility shall not make changes in any schedule,41 unless the public utility:

42 (a) Files with the Commission an application to make the 43 proposed changes and the Commission approves the proposed 44 changes pursuant to NRS 704.110; or

1 (b) Files the proposed changes with the Commission using a 2 letter of advice in accordance with the provisions of subsection 3 [4.] 5.

4 2. A public utility shall adjust its rates on a quarterly basis 5 between annual rate adjustment applications pursuant to 6 subsection 8 of NRS 704.110 based on changes in the public 7 utility's recorded costs of natural gas purchased for resale.

**3.** A public utility shall post copies of all proposed schedules 9 and all new or amended schedules in the same offices and in 10 substantially the same form, manner and places as required by NRS 11 704.070 for the posting of copies of schedules that are currently in 12 force.

13 [3.] 4. A public utility may not set forth as justification for a 14 rate increase any items of expense or rate base that previously have 15 been considered and disallowed by the Commission, unless those 16 items are clearly identified in the application and new facts or 17 considerations of policy for each item are advanced in the 18 application to justify a reversal of the prior decision of the 19 Commission.

20 [4.] 5. Except as otherwise provided in subsection [5,] 6, if the 21 proposed change in any schedule does not change any rate or will 22 result in an increase in annual gross operating revenue, as certified 23 by the public utility, in an amount that does not exceed \$2,500:

(a) The public utility may file the proposed change with the
Commission using a letter of advice in lieu of filing an application;
and

(b) The Commission shall determine whether it should dispensewith a hearing regarding the proposed change.

29 [5.] 6. If the applicant is a public utility furnishing telephone 30 service and the proposed change in any schedule will result in an 31 increase in annual gross operating revenue, as certified by the 32 applicant, in an amount that does not exceed \$50,000 or 10 percent 33 of the applicant's annual gross operating revenue, whichever is less, 34 the Commission shall determine whether it should dispense with a 35 hearing regarding the proposed change.

36 [6.] 7. In making the determination pursuant to subsection [4 or
37 5.] 5 or 6, the Commission shall first consider all timely written
38 protests, any presentation that the Regulatory Operations Staff of the
39 Commission may desire to present, the application of the public
40 utility and any other matters deemed relevant by the Commission.

41

**Sec. 4.** NRS 704.110 is hereby amended to read as follows:

42 704.110 Except as otherwise provided in NRS 704.075 and 43 704.68904 to 704.68984, inclusive, or as may otherwise be provided 44 by the Commission pursuant to NRS 704.095 or 704.097 or

1 pursuant to the regulations adopted by the Commission in 2 accordance with subsection 4 of NRS 704.040:

If a public utility files with the Commission an application to 3 1. make changes in any schedule, including, without limitation, 4 5 changes that will result in a discontinuance, modification or 6 restriction of service, the Commission shall investigate the propriety 7 of the proposed changes to determine whether to approve or 8 disapprove the proposed changes. If an electric utility files such an 9 application and the application is a general rate application or an 10 application to clear its deferred accounts, the Consumer's Advocate 11 shall be deemed a party of record.

2. Except as otherwise provided in subsections 3 and [11,] 13, if a public utility files with the Commission an application to make changes in any schedule, not later than 180 days after the date on which the application is filed, the Commission shall issue a written order approving or disapproving, in whole or in part, the proposed changes.

18 3. If a public utility files with the Commission a general rate application, the public utility shall submit with its application a 19 20 statement showing the recorded results of revenues, expenses, 21 investments and costs of capital for its most recent 12 months for 22 which data were available when the application was prepared. [In] Except as otherwise provided in subsection 4, in determining 23 24 whether to approve or disapprove any increased rates, the 25 Commission shall consider evidence in support of the increased 26 rates based upon actual recorded results of operations for the same 27 12 months, adjusted for increased revenues, any increased investment in facilities, increased expenses for depreciation, certain 28 29 other operating expenses as approved by the Commission and 30 changes in the costs of securities which are known and are 31 measurable with reasonable accuracy at the time of filing and which 32 will become effective within 6 months after the last month of those 33 12 months, but the public utility shall not place into effect any 34 increased rates until the changes have been experienced and 35 certified by the public utility to the Commission and the 36 Commission has approved the increased rates. The Commission 37 shall also consider evidence supporting expenses for depreciation, 38 calculated on an annual basis, applicable to major components of the public utility's plant placed into service during the recorded test 39 40 period or the period for certification as set forth in the application. 41 Adjustments to revenues, operating expenses and costs of securities 42 must be calculated on an annual basis. Within 90 days after the date on which the certification required by this subsection is filed with 43 44 the Commission, or within 180 days after the date on which the 45 general rate application is filed with the Commission, whichever

time is longer, the Commission shall make such order in reference
to the increased rates as is required by this chapter. An electric
utility shall file a general rate application pursuant to this subsection
at least once every 24 months.

5 4. In addition to submitting the statement required pursuant 6 to subsection 3, a public utility which purchases natural gas for 7 resale may submit with its general rate application a statement showing the effects, on an annualized basis, of all expected 8 changes in circumstances. If such a statement is filed, it must 9 10 include all increases and decreases in revenue and expenses which may occur within 210 days after the date on which its 11 12 general rate application is filed with the Commission if such 13 expected changes in circumstances are reasonably known and are 14 measurable with reasonable accuracy. If a public utility submits 15 such a statement, the public utility has the burden of proving that 16 the expected changes in circumstances set forth in the statement 17 are reasonably known and are measurable with reasonable 18 accuracy. If the Commission determines that the public utility has 19 *met its burden of proof:* 

(a) The Commission shall consider the statement submitted
 pursuant to this subsection and evidence relevant to the statement
 in addition to the statement required pursuant to subsection 3 as
 evidence in establishing just and reasonable rates for the public
 utility; and

25 (b) The public utility is not required to file with the 26 Commission the certification that would otherwise be required 27 pursuant to subsection 3.

5. If a public utility files with the Commission an application to make changes in any schedule and the Commission does not issue a final written order regarding the proposed changes within the time required by this section, the proposed changes shall be deemed to be approved by the Commission.

33 **[5.]** 6. If a public utility files with the Commission a general rate application, the public utility shall not file with the Commission 34 35 another general rate application until all pending general rate 36 applications filed by that public utility have been decided by the 37 Commission unless, after application and hearing, the Commission determines that a substantial financial emergency would exist if the 38 39 public utility is not permitted to file another general rate application 40 sooner. The provisions of this subsection do not prohibit the public 41 utility from filing with the Commission, while a general rate 42 application is pending, an application to recover the increased cost of purchased fuel, purchased power, or natural gas purchased for 43 44 resale pursuant to subsection  $\begin{bmatrix} 6 \\ 7 \end{bmatrix}$  or an application to clear its 45 deferred accounts pursuant to subsection [7, 9], if the public utility

1 is otherwise authorized by those provisions to file such an 2 application.

3 [6.] 7. A public utility may file an application to recover the 4 increased cost of purchased fuel, purchased power, or natural gas 5 purchased for resale once every 30 days. The provisions of this 6 subsection do not apply to [an]:

7 (a) An electric utility using deferred accounting pursuant to 8 NRS 704.187 [-

9 <u>7.]</u>; or

10 (b) A public utility which purchases natural gas for resale and 11 which adjusts its rates on a quarterly basis between annual rate 12 adjustment applications pursuant to subsection 8.

13 8. A public utility which purchases natural gas for resale 14 must request approval from the Commission to adjust its rates on 15 a quarterly basis between annual rate adjustment applications 16 based on changes in the public utility's recorded costs of natural 17 gas purchased for resale. If the Commission approves such a 18 request:

19 (a) The public utility shall file written notice with the 20 Commission before the public utility makes a quarterly rate 21 adjustment between annual rate adjustment applications. A 22 quarterly rate adjustment is not subject to the requirements for 23 notice and a hearing pursuant to NRS 703.320 or the 24 requirements for a consumer session pursuant to subsection 1 of 25 NRS 704.069.

(b) The public utility shall provide written notice of each 26 27 quarterly rate adjustment to its customers by including the written notice with a customer's regular monthly bill. The public utility 28 29 shall begin providing such written notice to its customers not later than 30 days after the date on which the public utility files its 30 written notice with the Commission pursuant to paragraph (a). 31 32 The written notice that is included with a customer's regular 33 monthly bill:

(1) Must be printed separately on fluorescent-colored paper
 and must not be attached to the pages of the bill; and

36 37 (2) Must include the following: (I) The total amount of the increase or decrease in the

public utility's revenues from the rate adjustment, stated in dollars
and as a percentage;

40 (II) The amount of the monthly increase or decrease in 41 charges for each class of customer or class of service, stated in 42 dollars and as a percentage;

43 (III) A statement that customers may send written 44 comments or protests regarding the rate adjustment to the 45 Commission; and

1 (IV) Any other information required by the Commission. 2 (c) The public utility shall file an annual rate adjustment 3 application with the Commission. The annual rate adjustment 4 application is subject to the requirements for notice and a hearing 5 pursuant to NRS 703.320 and the requirements for a consumer 6 session pursuant to subsection 1 of NRS 704.069.

7 (d) The proceeding regarding the annual rate adjustment application must include a review of each quarterly rate 8 9 adjustment and a review of the transactions and recorded costs of 10 natural gas included in each quarterly rate adjustment and the annual rate adjustment application. There is no presumption of 11 12 reasonableness or prudence for any quarterly rate adjustment or 13 for any transactions or recorded costs of natural gas included in 14 any quarterly rate adjustment or the annual rate adjustment 15 application, and the public utility has the burden of proving 16 reasonableness and prudence in the proceeding.

(e) The Commission shall not allow the public utility to recover 17 18 any recorded costs of natural gas which were the result of any practice or transaction that was unreasonable or was undertaken, 19 20 managed or performed imprudently by the public utility, and the 21 Commission shall order the public utility to adjust its rates if the 22 Commission determines that any recorded costs of natural gas 23 included in any quarterly rate adjustment or the annual rate adjustment application were not reasonable or prudent. 24

**9.** Except as otherwise provided in subsection [8] 10 and subsection [4] 5 of NRS 704.100, if an electric utility using deferred accounting pursuant to NRS 704.187 files an application to clear its deferred accounts and to change one or more of its rates based upon changes in the costs for purchased fuel or purchased power, the Commission, after a public hearing and by an appropriate order:

(a) Shall allow the electric utility to clear its deferred accounts
by refunding any credit balance or recovering any debit balance
over a period not to exceed 3 years, as determined by the
Commission.

(b) Shall not allow the electric utility to recover any debit balance, or portion thereof, in an amount that would result in a rate of return during the period of recovery that exceeds the rate of return authorized by the Commission in the most recently completed rate proceeding for the electric utility.

40 [8.] 10. Before allowing an electric utility to clear its deferred 41 accounts pursuant to subsection [7,] 9, the Commission shall 42 determine whether the costs for purchased fuel and purchased power 43 that the electric utility recorded in its deferred accounts are 44 recoverable and whether the revenues that the electric utility 45 collected from customers in this State for purchased fuel and

purchased power are properly recorded and credited in its deferred 1 2 accounts. The Commission shall not allow the electric utility to recover any costs for purchased fuel and purchased power that were 3 4 the result of any practice or transaction that was undertaken, managed or performed imprudently by the electric utility. 5

6 **[9.] 11.** If an electric utility files an application to clear its 7 deferred accounts pursuant to subsection  $\frac{17}{12}$  while a general rate 8 application is pending, the electric utility shall:

9 (a) Submit with its application to clear its deferred accounts 10 information relating to the cost of service and rate design; and

11 (b) Supplement its general rate application with the same 12 information, if such information was not submitted with the general 13 rate application.

14 [10.] 12. A utility facility identified in a 3-year plan submitted 15 pursuant to NRS 704.741 and accepted by the Commission for 16 acquisition or construction pursuant to NRS 704.751 and the regulations adopted pursuant thereto shall be deemed to be a prudent 17 18 investment. The utility may recover all just and reasonable costs of 19 planning and constructing such a facility.

20 <del>[11.]</del> **13**. A PAR carrier may, in accordance with this section 21 and NRS 704.100, file with the Commission a request to approve or 22 change any schedule to provide volume or duration discounts to 23 rates for telecommunication service for an offering made to all or 24 any class of business customers. The Commission may conduct a 25 hearing relating to the request, which must occur within 45 days 26 after the date the request is filed with the Commission. The request 27 and schedule shall be deemed approved if the request and schedule 28 are not disapproved by the Commission within 60 days after the date 29 the Commission receives the request.

30

[12.] 14. As used in this section:

31 (a) "Electric utility" has the meaning ascribed to it in 32 NRS 704.187.

(b) "PAR carrier" has the meaning ascribed to 33 it in 34 NRS 704.68942. 35

Sec. 5. NRS 704.185 is hereby amended to read as follows:

704.185 1. [A] Except as otherwise provided in subsection 8 36 37 of NRS 704.110, a public utility which purchases natural gas for resale may record upon its books and records in deferred accounts 38 39 all cost increases or decreases in the natural gas purchased for 40 resale. Any public utility which uses deferred accounting to reflect 41 changes in costs of natural gas purchased for resale shall include in 42 its annual report to the Commission a statement showing the 43 allocated rate of return for each of its operating departments in 44 Nevada which uses deferred accounting.

1 2. If the rate of return for any department using deferred 2 accounting pursuant to subsection 1 is greater than the rate of return allowed by the Commission in the last rate proceeding, the 3 4 Commission shall order the utility which recovered any costs of 5 natural gas purchased for resale through rates during the reported 6 period to transfer to the next energy adjustment period that portion 7 of such recovered amounts which exceeds the authorized rate of 8 return.

9 3. A public utility which purchases natural gas for resale may 10 request approval from the Commission to record upon its books and 11 records in deferred accounts any other cost or revenue which the 12 Commission deems appropriate for deferred accounting and which 13 is not otherwise subject to the provisions of subsections 1 and 2. If 14 the Commission approves such a request, the Commission shall 15 determine the appropriate requirements for reporting and recovery 16 that the public utility must follow with regard to each such deferred 17 account.

Sec. 6. NRS 704.187 is hereby amended to read as follows:

18

19 704.187 1. Except as otherwise provided in section 36 of 20 chapter 16, Statutes of Nevada 2001, beginning on March 1, 2001, 21 an electric utility that purchases fuel or power shall use deferred 22 accounting by recording upon its books and records in deferred 23 accounts all increases and decreases in costs for purchased fuel and 24 purchased power that are prudently incurred by the electric utility.

25 An electric utility using deferred accounting shall include in 2. 26 its annual report to the Commission a statement showing, for the 27 period of recovery, the allocated rate of return for each of its 28 operating departments in this State using deferred accounting. If, 29 during the period of recovery, the rate of return for any operating 30 department using deferred accounting is greater than the rate of 31 return authorized by the Commission in the most recently completed 32 rate proceeding for the electric utility, the Commission shall order 33 the electric utility that recovered costs for purchased fuel or purchased power through its rates during the reported period to 34 35 transfer to the next energy adjustment period that portion of the 36 amount recovered by the electric utility that exceeds the authorized 37 rate of return.

38 3. Except as otherwise provided in subsection 4, an electric 39 utility using deferred accounting shall file an application to clear its 40 deferred accounts after the end of each 12-month period of deferred 41 accounting.

42 4. An electric utility using deferred accounting may file an 43 application to clear its deferred accounts after the end of a 6-month 44 period of deferred accounting if the net increase or decrease in 45 revenues necessary to clear its deferred accounts for the 6-month

period is more than 5 percent of the total revenues generated by the
 electric utility during that period from its rates for purchased fuel
 and purchased power most recently authorized by the Commission.

5. The Commission shall adopt regulations prescribing the period within which an electric utility must file an application to clear its deferred accounts after the end of a period of deferred accounting.

8

6. As used in this section:

9 (a) "Application to clear its deferred accounts" means an 10 application filed by an electric utility pursuant to this section and 11 subsection [7] 9 of NRS 704.110.

(b) "Costs for purchased fuel and purchased power" means all costs which are prudently incurred by an electric utility and which are required to purchase fuel, to purchase capacity and to purchase energy. The term does not include any costs that the Commission determines are not recoverable pursuant to subsection [8] 10 of NRS 704.110.

(c) "Electric utility" means any public utility or successor ininterest that:

20 (1) Is in the business of providing electric service to 21 customers;

(2) Holds a certificate of public convenience and necessity
 issued or transferred pursuant to this chapter; and

(3) In the most recently completed calendar year or in any
other calendar year within the 7 calendar years immediately
preceding the most recently completed calendar year, had a gross
operating revenue of \$250,000,000 or more in this State.

The term does not include a cooperative association, nonprofit corporation, nonprofit association or provider of electric service which is declared to be a public utility pursuant to NRS 704.673 and which provides service only to its members.

**Sec. 7.** 1. As soon as practicable after the effective date of this act, the Public Utilities Commission of Nevada shall open an investigatory docket to study, examine and review the various processes, theories and methodologies that may be used to establish just and reasonable rates in cases involving general rate applications filed by public utilities.

38

2. The investigatory docket must include, without limitation:

39 (a) Consideration of the use of different ratemaking
40 methodologies as an alternative to the historical test year
41 methodologies currently used in Nevada, such as:

42

(1) Projected test year methodologies;

43 (2) Hybrid methodologies that use a combination of 44 projected data and historical data; and

(3) Any other ratemaking methodologies that are reasonable 1 2 alternatives to historical test year methodologies.

(b) With regard to each alternative ratemaking methodology, 3 4 consideration of:

5 (1) The rate impact on customers and whether the 6 methodology would result in rates that more accurately reflect the 7 costs of providing service to those customers;

8

(2) The cost effectiveness of using the methodology;

9

(3) The fiscal impact on state and local agencies;

(4) The procedures and mechanisms necessary to implement 10 11 the methodology; and

(5) Any other related matters that the Commission deems 12 13 appropriate.

3. The following parties may participate in the investigatory 14 15 docket:

(a) Each public utility operating in this State;

16 17

(b) The Regulatory Operations Staff of the Commission; 18 (c) The Consumer's Advocate and the Bureau of Consumer

Protection in the Office of the Attorney General; and 19 20

(d) Any other interested parties.

4. On or before October 1, 2006, the Commission shall submit 21 a written report of its findings and recommendations from the 22 investigatory docket to the Director of the Legislative Counsel 23 Bureau for transmittal to the 74th Session of the Nevada Legislature. 24

25 5. If the Commission's report contains any recommendations for modification or replacement of the historical test year 26 27 methodologies currently used in Nevada with alterative ratemaking methodologies, the report must include, without limitation, 28 29 recommendations regarding:

(a) The legislation that would be necessary to authorize the 30 31 alternative ratemaking methodologies; and

32 (b) The procedures and mechanisms that would be necessary to 33 implement the alternative ratemaking methodologies.

Sec. 8. 1. This section and section 7 of this act become 34 35 effective upon passage and approval.

2. Sections 1 to 6, inclusive, of this act become effective on 36 37 October 1, 2005.

-12-
