

**THE FIFTY-SEVENTH DAY**

---

CARSON CITY (Monday), April 1, 2019

Senate called to order at 12:01 p.m.

President Marshall presiding.

Roll called.

All present.

Prayer by the Chaplain, Pastor Chris White.

Lord, please help us to always be wise in all that we do and all that we say. We give You this day, and I pray we strive to put You first in all things. Proverbs 14:8 tells us the wise look ahead, but the fools attempt to fool themselves and will not face facts.

Lord, we hope, we pray for all of the men and women here today looking ahead for our great State and the wonderful people in it. Guide them and help them to look ahead for us.

AMEN.

Pledge of Allegiance to the Flag.

By previous order of the Senate, the reading of the Journal is dispensed with, and the President and Secretary are authorized to make the necessary corrections and additions.

## REMARKS FROM THE FLOOR

Senator Cannizzaro requested that her remarks be entered into the Journal.

Today is Census Day, which marks one year until the beginning of the 2020 Census. I applaud the Governor for taking decisive action to make sure every Nevadan is counted by creating the Complete Count Committee. In recent years, Nevada has experienced a population boom. More and more people are moving to our great State to take advantage of economic opportunities and enjoy Nevada's vast and natural beauty. From 2017 to 2018, Nevada was the fastest growing state in the Country. Ensuring every Nevadan is counted in the 2020 Census is critical to our success in the coming decade. Nevada's population, as reported, will determine the number of seats our State will be allotted in the United States House of Representatives. It will determine how our Congressional and State legislative districts will be redrawn to account for population growth since 2010. As a result, an accurate count on the Census will be a significant factor in the makeup of our State's democracy for the next ten years. Equally as vital to Nevada's future, the Census will determine how much federal funding our State receives for roads, schools, hospitals, job training, economic development programs and so much more. At stake is the distribution of more than \$675 billion in federal funds, grants and support to states and counties. We need to have an accurate count of our State's population in order to make sure Nevada gets its fair share.

We must do all we can to ensure every Nevadan is counted in the 2020 Census. Nevada's unique population also leads to unique challenges in making sure we have an accurate count. In my Senate district alone, 30 percent of the population lives in "hard to count" neighborhoods. If our count is short, we risk our State missing out on so much. That is why I ask that we, as Legislators, encourage our constituents to fill out their census forms and return the completed data. An accurate census count will determine our success as a State in the coming decade, and as elected officials, we must do all we can to position our State for progress and prosperity.
