AN ACT relating to telecommunications; authorizing the Attorney General and the Public Utilities Commission of Nevada to bring certain actions to enforce certain provisions of federal law relating to caller identification information; requiring certain providers of telecommunication services to comply with certain standards related to the authentication of caller identification information; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

1 Existing law requires the Public Utilities Commission of Nevada to regulate
2 public utilities that provide telecommunication service to the public. (Chapter 704
3 of NRS) **Section 1** of this bill requires, to the fullest extent permitted under the
4 United States Constitution, telecommunication providers, providers of wireless
5 telecommunications and providers of Voice over Internet Protocol services to
6 comply with certain protocols and standards for the authentication of caller
7 identification information for calls made using Internet Protocol.

8 Existing federal law, with certain exceptions: (1) prohibits a person in the
9 United States from, in connection with any telecommunication service or Internet
10 Protocol enabled voice service, causing a caller identification service to knowingly
11 transmit misleading or inaccurate caller identification with the intent to defraud,
12 cause harm or wrongfully obtain anything of value; and (2) authorizes the chief
13 legal officer of a state, or any other state officer authorized by law to bring actions
14 on behalf of the residents of a state, to bring a civil action to enforce this
15 prohibition. (47 U.S.C. § 227(e)) **Section 3** of this bill authorizes the Attorney
16 General or the Public Utilities Commission of Nevada to bring such an action.
17 **Section 3** also authorizes the Commission to cooperate with and coordinate the
18 enforcement of the prohibition under federal law described above with the Attorney
19 General.
