City/County: <b>Clark County</b>				
Approved by: Rachel Stevens, Principal Management Analyst				
Comment: The proposed bill authorizes the creation of an academic medical district and allows a participating entity to create a tax increment area consisting of all or part of the academic medical district. Any property taxes collected within the tax increment area would be allocated to a special account for the payment of bonds or other securities issued for the development of the academic medical district. Property tax revenue for all taxing agencies within a newly created tax increment area could be negatively impacted, as a portion of tax revenue would be redirected to the special account for the payment of bonds and other securities. In order to determine the fiscal impact, Clark County would need to know the boundaries of any new tax increment area, the fiscal year that adoption of an ordinance would take effect, and the property values within the tax increment area at the time the ordinance would take effect. Additionally, the bill contemplates the creation of multiple districts, but it is unknown how many districts there will be. While this bill could have a negative fiscal impact on Clark County, since these factors cannot be known at this time, the amount cannot be determined.

City/County: <b>Lyon County</b> Approved by: Josh Foli, Comptroller Comment: There is a potential for a significant fiscal impact to Lyon County if an academic medical district is formed within Lyon County as that district would the rob the other taxing entities of their future property tax revenue growth for up to 30 years. We can't determine that impact because it is not apparent when/if a district would be formed and what area it would cover.

City/County: **Washoe County**

Approved by: Cadence Matijevich, Government Affairs Liaison

Comment: It is unknown if one or more Academic Medical Districts would be created in Washoe County. If such a district were to be created there would be a fiscal impact to Washoe County. Because the following are unknown, a reliable estimate of the fiscal effect of the bill cannot be determined:

- The location and boundaries of the district(s).
- How many businesses will be in the district(s).
- The tax increment values of the district(s).

<b>Impact</b>	<b>FY 2022-23</b>	<b>FY 2023-24</b>	<b>FY 2024-25</b>	<b>Future Biennia</b>

School District: **Carson City School District**

Approved by: Spencer Winward, Director of Fiscal Services

Comment: Carson City School District cannot determine the fiscal impact from this proposed legislation. While the language pertains primarily to post-secondary education, there is the likelihood of indirect negative fiscal impact from the creation of academic medical districts by competing for future funding or impacting our ability for future tax initiatives for future capital projects.

School District: **Clark County School District**

Approved by: Steven Maiello, Coordinator IV

Comment: There may be a financial impact to CCSD. The Nevada Department of Taxation is better equipped to address the impact. CCSD's records do not display the details for a business located in an academic medical district to receive a partial abatement of certain taxes. In addition, the bill states that taxes levied each year that are in excess of the amount that is attributable to any tax rate levied by a taxing agency there is the potential that funds would be allocated and paid into the State Education Fund benefitting school districts.

<p>School District: <b>Elko County School District</b>          Approved by: Clayton J Anderson, Superintendent          Comment: Our district does not currently receive any capital improvement funds. Therefore, the impact this could have on property taxes and how that would impact a funding source that comes from property taxes cannot be determined for us.</p>
