Local Government Responses
S.B. 185 / BDR 18 - 35

City/County: Carson City Approved by: Sheri Russell-Benabou, Chief Financial officer Comment: This will cause additional workload for Carson City Staff in tracking. Currently our system is not set-up to track whether a business is a minority owned/women-owned/disability or local emerging business. The City is working with our ERP system to determine if there is a user defined field that can be used. If not, we will have to have our programmers add a field to the Vendor File. Additionally, the City will have quite a bit of set-up time, indicating which vendors qualify as these business types. If the State does not provide a list of vendors, then it will take even more time to query all of our current vendors for this information.

City/County: Lyon County Approved by: Josh Foli, Comptroller Comment: The reporting requirements will necessitate having our accounting software develop a new module to categorize each purchase by type of business being tracked in the bill provisions. We will also need to purchase a contract software that will keep track of the same information on all contracts. This will require additional staffing to implement as well.

<p>City/County: City of Sparks Approved by: Tiffany Pugh, Accounting Manager Comment: This bill would have a fiscal impact to the City, but the amount cannot be determined. In order to provide the information listed in the bill for the database, it would require system reconfiguration to include additional labels. The City has more than 15,000 vendors, who staff would be tasked with surveying to capture the data in order to be able to report back to the State. This bill would likely require significant staff time resulting in additional FTE's to adhere to the bills provisions.</p>

It is not likely to require an additional position but will generate the need for overtime. The amount required cannot be quantified based on the unknown amount and level of detail of data that may be requested by the Business Opportunity Outreach Unit.</p>
