Assembly Joint Resolution No. 5—Assembly and Senate Joint Memorial :

To the Honorable, the Senate and House of Representatives of the United States, in Congress Assembled :

Your memorialists, the Legislature of the State of Nevada, hereby respectfully represent that

WHEREAS, Livestock owners and growers for the past seventy-five years, more or less, have been the victims of the utmost instability, insecurity, and irritation in the conduct of their said business; and

WHEREAS, Such instability and insecurity arise chiefly through the utter lack of title or vested right of the occupants and users of the public domain as a livestock range; and

WHEREAS, Such instability and insecurity have been aggravated, and are chiefly attributable to the procrastination, ineptitude and political cowardice of the men charged with the duty of enacting laws for the general welfare and for the particular purpose of solving such problems; and

WHEREAS, Under established custom having the force of law, range areas are controlled by the ownership of water thereon, such water by law being the property of the State, yet as a paradox and actual contradiction, such laws deny to the grantees of such water from such States any right of ownership of the land where such water arises or flows, thereby making such water ownership of no actual possessory value, being thus the major cause of such instability and insecurity; and

WHEREAS, Title and vested rights in sufficient of such land to actually control such water would not only tend to alleviate such deplorable condition, but would add immeasurably to the activities, the resources and the taxable wealth of any States affected, and in like manner to the United States; now, therefore, be it

Resolved by the Assembly and Senate of the State of Nevada, That it is the sentiment hereof that Congress by law should grant title to an area of forty acres of land, at the source of such water where it has been granted by the State, or along its course if it be a stream, thereby giving each owner of such water the right and means to actually control it.

Resolved, That the Secretary of State of the State of Nevada be, and hereby is, directed to forward a certified copy of this memorial to each of the following: To the President of the United States; to the Secretary of the Interior; to the Commissioner of the General Land Office; to each of the Senators of the State of Nevada at Washington; to our Representative in Congress, requesting and urging said Senators and Member of Congress to use their best efforts for the enactment of the purport of this memorial into law.

Mr. Branson moved, duly seconded, that rules be suspended, reading so far had considered first reading, rules further suspended, read second time by title, and referred to Committee on Live Stock.

VETO MESSAGE FROM SECRETARY OF STATE

CARSON CITY, March 29, 1927.

HONORABLE W. G. GREATHOUSE, *Secretary of State*.

SIR: Herewith I hand you for deposit, without my approval, Senate Substitute for Assembly Bills Nos. 9, 10, and 11, "An Act to amend sections 45, 72, and 78 of an Act entitled 'An Act to regulate the settlement of the estates of deceased persons,' approved March 23, 1897, being sections 5901, 5928, and 5934, Revised Laws of Nevada, 1912."

This bill, if allowed to become a law, would amend the present status (R. L. Nevada, 1912, section 5934), and impliedly repeal section 5894 thereof, which fixes the order of priority of right to administer estates and would vest in the District Judge the discretion to appoint any person regardless of any such right.

This discretion would be absolute and wholly unrestrained or unregulated by law and would constitute a dangerous innovation in that the District Judge could, if he so desired, appoint a total stranger to the parties in interest, or even appoint one who was personally objectionable or noxious to the creditors and legal heirs.

Further, R. L. section 5934, in practically its present form, has been the law of our State ever since statehood, a matter of over sixty years. It has proved uniformly satisfactory to the courts and the people generally in the administration and winding up of estates. I feel that the right of administration should be preserved unto those interested in the estate and in the order, as nearly as may be, of such interest. To take from the persons so interested in the estate the right to administer it and give such right to one who perhaps has no interest and who may be wholly unfamiliar with the estate and who may be also personally objectionable to the parties who equitably own the estate, would be

revolutionary in character, and would in a great majority of the cases, as I firmly believe, found to be very unsatisfactory, if not absolutely disastrous.

Respectfully submitted,

F. B. BALZAR, *Governor.*

Mr. Speaker:

Your Committee on Ways and Means has had Assembly Joint Resolution No. 7 of the Thirty-third Session of the Nevada Legislature under consideration, and begs leave to report as follows :

We find that in order to accomplish the abolition of the office of Surveyor-General it will be necessary to consolidate the business of that office with some other State office, and we find that course to be impractical. We also find

that there are many applications and inquiries for land, on account of the Boulder Dam project, which seems to justify the continuance of the office.

For the foregoing reasons we report the same to the Assembly unfavorably, with the recommendation that it do not pass.

GEO. G. HUSSMAN, *Chairman.*

Mr. Speaker:

Your Committee on Labor has had Assembly Bills Nos. 14 and 18 under consideration, and begs leave to report favorably on the same, with the recommendation that they do pass.

PRESENTATION OF PETITIONS

To the Honorable the Assembly:

GENTLEMEN: This is to inform your honorable body that the large printing press at the Nevada State Printing Office suffered a breakdown yesterday morning. We have been working on the press ever since and with the help of the Virginia and Truckee Railroad shops have hopes of repairing the broken parts instead of sending to San Francisco for new ones.

In the meantime the printing of your introduced bills has materially slackened and I am unable this morning to make full delivery. There were eighteen bills and one resolution introduced in the two houses yesterday. I cannot state at this time how long it will require to make the necessary repairs, but it is only fair to presume that the office will be handicapped for several days at least.

Yours respectfully,

JOE FARNSWORTH.

Superintendent State Printing.

PRESENTATION OF PETITIONS

WASHINGTON, D. C., February 2, 1929.

To the Honorable, the Assembly of the Legislature of Nevada:

The question of providing for the holding of terms of the Federal Court in Nevada has been brought officially before both houses of the Legislature of Nevada and has been acted upon by the Assembly. Action upon this question has also been taken by various organizations and individuals throughout the State, so the matter has thus become a public one which requires that I give to the people of Nevada the facts in the case.

The first intimation I had regarding the intention of the Government to provide for sessions of the Federal Court in the proposed Federal building in Reno came to me early in December, after my return to Washington, when the Department of Justice notified me that it would be necessary to introduce a bill, which it prepared and sent me and which I introduced on December 7, 1928, providing for holding terms of the Federal Court in Reno as well as in Carson City. The Treasury Department also insisted on this legislation before allowing work to proceed further on the building.

No further action regarding this bill was taken until January 8, 1929, when I wrote the Department of Justice asking if it would accept a modification of the bill, providing that the terms of court to be held at Reno might be optional rather than mandatory, leaving the decision of this matter to the discretion of the Court. The Department of Justice answered this letter on January 14, 1929, favorably, and quoted authorities which would justify it in receding from its position, making the matter discretionary with the Court.

The Treasury Department was planning an enlargement of the building to provide for Federal Court quarters, which would have added \$150,000 to the original cost, making the cost of the building \$600,000, instead of \$450,000 as originally planned.

After numerous conferences with the officials of the Treasury and Post Office Department and the Department of Justice, I secured an agreement from the Treasury Department on January 30, 1929, that it would proceed with the building as originally planned, without the inclusion of quarters for the Federal Court, and would recede from its former position of insisting on the carrying out of the demand of the Department of Justice for legislation providing for the holding of sessions of the Federal Court in Reno as well as in Carson City, before allowing work on the building to start.

I share with the citizens of Nevada a strong State pride and a desire for the permanent upbuilding of the State, which includes the erection of as large and

handsome structures as it is possible to secure in the various sections of the State. I also share with the citizens of Nevada—as has been proved many times—a desire to prevent any section of Nevada being deprived of any of its rights.

It is well known that largely through my efforts the appropriation secured for the Federal Building in Reno was approximately \$250,000 larger than that allowed any other city in the country of the same size. This is gratifying to me and in line with my desire that the largest possible benefits be secured for the various cities and towns in the State, wherever possible.

I am sure the people of Carson City appreciate my desire for their welfare and my wish to assist them, and that they will remember, among other things, the successful fight I recently waged against both the United States Treasury, which recommended the closing of the Government Assay Office in Carson City, and the House of Representatives, which abolished it by failing to provide for its retention.

As criticism has been directed against Reno and Washoe County because of this matter, I want it understood that not one person or organization in either Reno or Washoe County has suggested to or requested of me that the Federal Court be established in Reno.

The Department of Justice initiated this matter, as the enclosed copies of correspondence will show.

Sincerely yours,

TASKER L. ODDIE.

MR. ROBERT TURRITTIN, *Speaker of the Assembly, Carson City, Nevada.*

DEAR MR. TURRITTIN: Rumors have reached me that a certain member of the Legislature is making some very broad statements regarding the honesty of this office in handling the State Rabies Commission business.

PRESENTATION OF PETITIONS

HONORABLE R. C. TURRITTIN, *Speaker of the Assembly, Carson City, Nevada.*

DEAR MR. TURRITTIN: Enclosed you will find a letter addressed by me, as Chairman of the Board of Regents of the University of Nevada, to the Senate and Assembly. I am sending a copy to each body. Will you kindly present the enclosed to the Assembly?

Very truly yours,

GEO. S. BROWN.

To the Senate and Assembly of the State of Nevada:

There has appeared in the public press of the State a copy of a resolution introduced at the last meeting of the Board of Regents of the University of Nevada by Regent G. F. Talbot which contained in its preamble a series of charges aimed at the President of the University. A majority of the Regents, after consideration, deemed the resolution without merit, and that the charges had no substantial foundation in fact. The resolution was, therefore, voted down by a majority of the Board, of which I was one.

Inasmuch as a copy of this resolution and of the preamble has been given to the public through one of the newspapers of the State, and as the charges contained in the preamble reflect seriously upon the President of the University, and by implication the students, and also cast discredit upon the good name of the University itself, I, as Chairman of the Board of Regents, have taken it upon myself to request your honorable bodies to appoint a joint special committee to make investigation of the charges contained in the preamble to that resolution, and to make report of its findings to your bodies, and through them to the people of the State of Nevada.

Respectfully,

GEO. S. BROWN,

Chairman of the Board of Regents of the University of Nevada.

Mr. Speaker:

Your Committee on State Prison and Insane Asylum begs leave to report that we have visited and inspected the State Prison at Carson City, and the Hospital for Mental Diseases at Reno, Nevada.

At the former institution everything is in first-class shape, as to cleanliness and order, and the inmates seemed to be, in the main, healthy and well cared for. The kitchen, dining room, commissary, bakery, and laundry are kept in the very best order, and the food supplied appears of the best.

The cellhouse is a model of efficiency, well ventilated, well drained, and clean and wholesome.

The new execution gas chamber, which is now under construction, will no doubt be the means of carrying out executions most efficiently.

The new library, which is also under construction, will be an excellent improvement in providing the proper means of caring for books and for ideal recreation.

At the Hospital for Mental Diseases we found that numerous repairs and improvements are necessary to provide for efficient and safe operation of the Hospital.

We find that building D (Women's Building) needs a new roof. At present the roof is in very bad shape, and consequently ruining the plaster, walls, etc., of the entire building. We recommend that the third story of this building be torn down to conform with the contour of the other buildings. The third floor is unsafe in case of fire, and we are advised by the Superintendent that this space is not needed. Also recommend new floor repairs on second story.

We recommend that the worn-out electrical equipment be replaced, and transformer be rewired. We find this is very urgent, due to the fact that a breakdown of this equipment would discontinue all lighting and power and would disable the entire institution.

We recommend a new shingle, painted, or oiled roof for the stone house, new laundry equipment, repairs to high-pressure boiler, painting Women's Building and C Ward.

We recommend that all above-mentioned repairs are necessary and urgent in keeping with the excellent improvements now being made.

We wish to compliment Dr. Smith, the Superintendent of the Hospital, and Mr. Penrose, of the Prison, for their excellent supervision of these institutions.

DEWEY SIMON,
P. E. GROESBECK,
A. E. ORGAN.

REPORT OF CONFERENCE COMMITTEE ON UNIVERSITY INVESTIGATION

IN THE MATTER OF INVESTIGATION OF THE UNIVERSITY OF NEVADA, AND THE
MANAGEMENT, HANDLING AND CONTROL THEREOF

To the HONORABLE MORLEY A. GRISWOLD, *President of the Senate*, and HONORABLE ROBERT C. TURRITTIN, *Speaker of the Assembly*, and *Senators and Assemblymen of the Thirty-fourth Session of the Legislature of the State of Nevada:*

Pursuant to Senate Concurrent Resolution No. 3, we, the undersigned, appointed and authorized to make full and thorough investigation of the affairs of the University of Nevada and of certain charges made in a certain resolution filed by Regent Talbot and acquiesced in by Regent Pratt at a meeting of the University Regents on the 31st day of January, 1929, do respectfully report as follows:

The Committee gave wide latitude in the matter of the investigation and were not confined to matters charged alone in the above-mentioned resolution, but received and entertained evidence in any way throwing light upon the general conditions and affairs of the institution. This report, perhaps, could be written, and the conclusions of the Committee contained in one short paragraph, but because of the seriousness of the charges made in the resolution, and because of the wide publication thereof by the newspapers of the State, and realizing if public confidence is to be maintained in our University, and its stability assured, the Committee feels that a more detailed report is necessary and therefore will undertake to analyze from the evidence produced the specific charges contained in the said resolution. From the testimony adduced, we find the following facts:

1. That President Clark has not failed to prohibit and has not in any manner condoned or encouraged drunkenness by setting aside the mild penalty imposed unanimously by the Student Affairs Committee, but on the contrary finds that President Clark has prohibited and discouraged, both by his own conduct and by a determined policy so far as was in his power, drunkenness and any and all misconduct on the part of the students. It is a significant fact that from the evidence given by Regent Talbot, he has only been in the state three

months during the past two years, he knew of no case of drunkenness or misconduct of his own personal knowledge and knew of only four cases of drunkenness during the past four years from hearsay, and as to these last four cases he could not name a person from whom he received his information. One case was particularly brought to the attention of the Committee and around which seems to hinge the basis of the charge of drunkenness, and in this particular the Committee is of the opinion that the President acted sanely and with good judgment in allowing the young man to return to the institution, in that the young man has become and is an exemplary student.

2. That President Clark has not encouraged cheating nor opposed discipline, but on the contrary has discouraged cheating and maintained discipline by upholding the decisions of the committees to which such matters were referred for investigation, and in this regard let it be noted that the entire charge contained in this paragraph seems to be hinged upon one particular case and in this particular case President Clark himself only upheld the decision of the committee which, after a thorough investigation, ordered and allowed the student to be reinstated in her classes. As to the charge of encouraging drunkenness and cheating, etc., as contained in the first two paragraphs of the resolution, it seems to this Committee that to make a general charge of encouraging, condoning and failing to prohibit any misconduct based upon hearsay and naming only two specific cases over a period of four years is far-fetched and ridiculous, and emanating only from prejudiced intellects.

3. That President Clark did not report offenses committed by the students to the Board of Regents, but in this regard the Committee is convinced that the manner of handling such cases by the administration and by the Student Affairs Committee and by the students themselves through their various organizations is most reasonable and sane, and that for the President to report every offense or infraction to the Board of Regents as would seem the desire of Regent Talbot, would be the height of foolishness only to be demanded or expected by men of little understanding or business ability.

4. That President Clark has not and does not visit the various departments of the University, but in this respect your Committee believes that he is and was at all times conversant with the work performed therein, such information being gained by him through the heads of the various departments, as is the acknowledged custom and the apparent best and most feasible way to obtain such knowledge. The Committee further believes that for a President to make a practice of visiting various departments would cause dissatisfaction and friction among the faculty members and instructors.

5. That President Clark has not supervised the construction and alteration of buildings and improvements in the sense as would Regent Talbot have this Committee believe was the intention of the Board of Regents, by having the President corporeally present during such construction and alteration and by actually supervising the manual labor performed. But this Committee believes from the evidence adduced that President Clark has properly and well supervised the work of construction and alteration of buildings and improvements by properly delegating such work to men competent and skilled in the particular field, and the minutes show that Mr. Pratt, then Chairman of the Board, and President Clark, or, in his absence, the Vice-President, were authorized and directed to employ some one to make the alterations and additions to the Mackay School of Mines.

6. That President Clark did deliver an address at a faculty meeting (so-called smoke-screen address) but the Committee fails to find that in said address President Clark misrepresented or attempted to subordinate the constitutional or lawful control of the Board of Regents or that he implied in any manner the practice of deception by the Board.

It is true that President Clark, in said address, criticized certain members of the Board in their attempt to define a policy for the internal conduct of the institution. The Committee believes that the criticism was justifiable and agrees with the remarks of the President in said address; to the effect that the administration and conduct of the internal affairs of the institution should be in the hands of trained and experienced men and not left to untrained minds.

7. That President Clark has drawn the \$1,000 per year allowed him for entertainment, but the Committee believes that the President of an institution of this kind could have easily and has spent that sum in entertaining. From the undisputed evidence it is admitted that the allowance of this sum of money has been a custom for many years; that the Board has never required an accounting and has never seen fit to reduce the amount so tendered.

It strikes the Committee that if Regent Talbot had any information that the President of the University was not spending this money in the way intended, that the least he could have done was to have asked the President for an accounting and if the accounting showed that said sum was not necessary for the purpose intended, that the Board of Regents could have reduced the amount allowed. In view of the utter lack of evidence, your Committee brands the charge that he "has spent a small part of it * * *, has pocketed the remainder," a vile untruth.

8. That President Clark has not made misleading statements regarding financial conditions to the Board of Regents. And in this respect the Committee finds that the work of accounting is ably and efficiently performed by a highly skilled and competent comptroller employed by the Board of Regents, and in which department the receipts and expenditures of the institution are, at times unannounced, audited and checked by auditors, both State and Federal.

9. It is true that up to about the year 1928 a requirement was maintained that all women students be photographed in the nude and that the plates or negatives have been taken for treatment away from the University grounds, but in this respect the Committee finds that Regent Talbot or Pratt never investigated the manner in which these photographs were taken and that President Clark allowed the practice upon the suggestion of the instructor of the physical education department and which consists of photographing the women students for corrective posture. The Committee also finds that one of three similar methods is used in many other institutions of learning and that the method used in the University of Nevada was one of the accepted methods. From a full description of the technique of such photographing, the Committee finds nothing immodest, wrong, or anything that would cause any embarrassment to a right-minded and clean person. From a description of the manner in which these photographs were taken, it appears that no person saw the girl being photographed; that when the pictures were being taken the face of the person photographed was entirely covered so that if the plates or negatives would afterwards fall in the hands of other persons the identity of the person of whom the picture was taken could not be ascertained. As a matter of fact, no one ever saw the pictures except the girl herself, the lady instructor and a lady employed to develop the film or negative. That at all times the pictures were carefully and safely guarded. It appears to this Committee that much was made out of nothing and that the actual manner of taking the pictures conveys a much different idea than that conveyed to the general public in paragraph "9" of the resolution, and it also appears that if the proper investigation had been made before the charge was made that any clean and right-thinking person would have seen no harm in the custom and would have realized the benefit derived therefrom.

10. The Committee fails to find from the evidence produced that any of the past members of the faculty have departed for other fields of labor rather than remain and serve under the conditions existing as created by the President and in this regard the Committee finds that most, if not all, of the members of the faculty who have left the University have left because of insufficient salaries, for betterment of health and for reasons in no manner chargeable to the President and over which he had no control. It is true that some members of the faculty and the President himself believe that the salaries of many of the members of the faculty are inadequate, but by the admitted testimony of Regent Talbot the evidence shows that President Clark has on numerous occasions made recommendations for increase of salaries, and that the same were opposed by Regent Talbot.

As to the question of salaries which was mentioned many times during the

hearing, we recommend that the Board of Regents make a thorough investigation of the salaries of the President and faculty members; that in the investigation made the Regents take into consideration the amounts paid presidents and faculty members of other similar institutions, the size of the University, the capability of men employed and the ability of the state to pay, and that the reductions or increases be made in accordance with said investigation.

In conclusion, from the careful consideration of all the evidence adduced, your Committee believes that the charges made by Regent Talbot in the resolution presented to the Board of Regents on January 31, 1929, are untrue, unfounded, based on no fact or set of facts, made without investigation, unjustified, unsubstantiated in any degree by the evidence and should be utterly disregarded. The Committee further believes that to make such charges, giving publicity to the same as was done in this case, without any basis whatever, was an injustice to President Clark and to the University of Nevada. The Committee finds the conduct and scholastic standards of the students and the general conditions of the University of Nevada to be above average and from the undisputed evidence show an improvement from year to year.

From the facts adduced and the conclusions reached, the Committee recommends that Regents Talbot and Pratt immediately tender their resignation to the Governor and that the Governor immediately accept the same. That if said resignations are not tendered immediately by said Regents, and the Legislature has time, impeachment proceedings be instituted by this Legislature to remove from office said Talbot and Pratt. That if said resignations are not immediately tendered and if impeachment proceedings are not brought, then we recommend that the majority members of the Board immediately define a policy for the conduct of the University, that thereafter President Clark be guided by the policy so defined by said majority members of the Board and utterly disregard and ignore the minority members of the Board, Talbot and Pratt. We believe this the only solution of the problem and the only way to produce harmony between the Board of Regents and the President of the University, and the only way in which to insure stability at the University and to attain the high standing to which it aspires.

The Committee also investigated a certain petition filed by the students of the University and is of the opinion, without going into detail, that the same was ill-advised and untimely. It is true that most of the grievances set out in the petition have as a basis, idle rumor. It is true that many of the grievances contained in the petition are untrue and not founded on fact. It is true that some of the grievances in the petition deserve consideration, but in the opinion of the Committee the matter should have first been submitted to the President of the University for investigation and correction, if any be needed. In many instances, the grievances amount to only a difference of opinion as between the students and the administration. We further believe that such grievances as may require attention, if submitted to the President of the University by the students in a sane, proper and dispassionate manner, will receive the consideration to which the same will be entitled.

We realize the situation of those who testified before the Committee and we recommend that no feeling of prejudice for or against any of those testifying be entertained or manifested by anyone concerned.

Respectfully submitted,

REPORT OF THE COMMITTEE ON STATE INSTITUTIONS

Mr. Speaker:

We, the Committee on State Institutions, beg leave to report that we have made a careful survey of the Nevada State Orphans' Home, located at Carson City, Nevada, and we beg leave to report as follows:

We found the physical conditions of the Home in a deplorable condition and very much in need of repairs.

The gymnasium is in such condition that it is practically of no value whatever. All of the plaster is off the ceiling, and the roof is in bad condition, the floor is worn out, and there is not a window left in the entire building.

In the main building we found that the floor covering on the entire building is worn out and must be replaced. The roof is in need of repairs, as it seems to have been neglected for many years, which has resulted in the plaster being

loose and in many places having fallen off. We believe that it will be necessary to replaster practically the entire building.

Most of the furniture is in bad condition and needs to be replaced.

The sewer system is entirely inadequate and always has been. We recommend that a new sewer line be laid of not less than six inches in diameter. The present sewer is only four inches in diameter and should not be calculated to take care of an institution of this size.

Your Committee feels that the recommendation of the Board of Directors in charge of this institution in which they ask for an appropriation of \$40,000 is a very conservative estimate of the cost of necessary repairs, and we heartily recommend that at least this amount be placed at their disposal for the purposes they mention.

It is very evident that deterioration in the buildings at the Home has been allowed to progress without interruption over a period of many years. All of the buildings, both outside and in, are sorely in need of painting. It is clear to us that for many years past appropriations for repairs and furnishings have been entirely inadequate. Instead of this being economy we pronounce it unwise methods, which have resulted ultimately in excessive costs.

We find peace and contentment among the children and we feel that the State wards are being as well taken care of as is possible under all existing conditions.

The place is kept as clean and sanitary as could possibly be expected.

The children are well fed, respectably clothed, and entertainment is furnished for them to as great an extent as will be found with the children of the average home.

We feel no hesitation in saying that the children in the Home are as well taken care of as could possibly be expected in an institution of this character, and on the whole we feel that the people of the State of Nevada have reason for real pride for the manner in which its wards are cared for.

We find that the Superintendent is entirely without any means of conveyance, and we recommend that he be furnished with an automobile suitable for his needs.

We heartily approve of the work that is being carried on in the way of farming. Good crops of vegetables and hay have been raised in the past several years, and we found a fine-looking dairy herd. While it is doubtful that this farming pays in dollars and cents, we feel that it furnishes experience of a valuable nature to the boys in the institution and for that reason we heartily recommend that it be continued.

Finally, we beg to say that we were intensely pleased with the general atmosphere of contentment that seemed to surround the institution. There seems to be complete cooperation between those in charge and the inmates, and all seem to be happy and contented. REPORT OF SPECIAL COMMITTEE OF INVESTIGATION

To the Honorable, The Senate and Assembly of the State of Nevada:

Your Committee appointed pursuant to the provisions of Assembly Concurrent Resolution number four, hereby tenders this report in compliance with the requirements of said resolution.

In order to make a complete and accurate investigation and report of our investigation of the Biological Survey in the State of Nevada we employed

Mrs. Dora Thompson as stenographer that the record of our proceedings might be perpetuated, and held hearings and examined such witnesses as seemed to have any information bearing upon the matter comprehended by the terms of the resolution instituting such investigation, and as a result of such investigation we wish to report as follows:

1. With respect to the implied charge of dishonesty in the office of the Biological Survey, we wish to say that we have checked all the accounts of the office, had numerous hearings at which witnesses were heard, and we failed to find any support whatever for any charge of dishonesty. Mr. Branson submitted to the Committee the names of several persons to be called as witnesses, but the Committee finds that, with one or two exceptions, they were all private trappers, and the Committee could not obtain any assurance that any of said persons had any evidence that would disclose any lack of results being obtained in the administration of the office of the Biological Survey.

2. It was reported to your Committee that cattle had been poisoned from eating the bones of animals supposed to have been poisoned by employees of the Biological Department, but a scientific report, received in evidence, discloses the fact that such a condition was impossible, for the reason that the method of poisoning by the Biological Department makes it impossible that any sufficient quantity of poison causing the death of a predatory animal could be carried into the bones of the animal dying from such poison.

3. We find that Mr. Sans is compelled to make monthly reports to the Nevada Sheep Commission, also to the Federal Government, and that his books are thoroughly audited by the State Auditor, and from our investigation we have no hesitancy in saying that all of these requirements have been complied with fully and strictly.

4. Mr. Branson testified that he had never applied for the position held by Mr. Sans; but in this connection we are compelled to make reference to two letters which had been submitted to us, purporting to have been written by Mr. Branson to the Secretary of Agriculture at Washington, D. C., which contradict Mr. Branson's testimony on that question, and we wish to submit quotations from such letters. The first is from a letter dated at Ely, Nevada, March 28, 1921, from which we submit the following quotation:

I am not a job hunter or a politician. I have never sought nor held a public office. When I wrote to you before I never dreamt of such a thing. But it gets my goat to see such inefficiency in government work and waste of the people's money. On that account and especially on account of my desire to assist you in an economical and efficient administration of your department, will say that I should like to have the pleasure of bringing this branch of your department down to normalcy for you. In other words, if I could have entire charge of the destruction of predatory animals in all the States where the Government is engaged in such work I would gladly accept the responsibility and do the work right. I would make them scarce in a very few years; whereas, now the system and evident intent is not to exterminate them. The apparent plan seems to be to perpetuate them.

In another letter dated Newhouse, Utah, April 28, 1921, Mr. Branson again wrote to the Secretary of Agriculture and we quote from that letter as follows:

I wrote my former letter with only one object, namely, to try to assist you to economize and at the same time introduce efficiency in a bureau of your department where both economy and efficiency are notoriously absent. If my efforts are undesirable I certainly will not annoy you further with them.

Without quoting further or going into this phase of the investigation at length, we believe that the foregoing quotations are pertinent as disclosing Mr. Branson's attitude toward the Biological Survey.

5. Contrary to the declaration of Mr. Branson that the State of Nevada had no contract with the Government, we find that the State has a contract with the Government which is perpetual, unless sixty days' notice of termination is given.

We believe that the foregoing is sufficient to indicate the true status of affairs as between the State of Nevada and the Biological Survey, and that a more lengthy discussion of the situation would be of no avail.

In conclusion, we have to report that we find no irregularities in the conduct of said office in relation to the State of Nevada; that the State of Nevada has been treated with absolute fairness by Mr. Sans in every respect; we believe that every transaction indicates absolute honesty; we believe that the charges made against Mr. Sans and the Biological Department are positively without foundation, and that an injustice has been done to Mr. Sans by reason of the charges, and we submit that Mr. Sans, in the discharge of his duties, and the department which he represents are entitled to the commendation and approval of the Legislature of the State of Nevada.

Respectfully submitted,
