The Governor delivered his message as follows:

*To the Honorable, the Senate and Assembly:*

Pursuant to Article V, Section 10 of the Constitution of Nevada, the Governor is required to communicate by message to the Legislature at every regular session and recommend such measures as he may deem expedient.

In compliance with this constitutional provision, it is my privilege and duty to report to you, as members of the Forty-second regular session, conditions existing within the State, and to briefly comment upon them and its State institutions.

Since this body last convened two years ago, our Country has gone all out in the war effort and, as a consequence, many of the normal functions of the State have been curtailed and some of the normal prerogatives of the individual have been surrendered to the National Government.

Despite these essential wartime measures, we are able to assemble here as free men, with free speech and the right of free discussion and deliberation. We are able to assemble here as representatives of our people and to function in behalf of our people in an orderly and peaceful manner. That right and privilege has not been denied and never will be denied us.

Since our last legislative session the tides of warfare have turned in our favor. However, the day of total victory is yet uncertain.

The outlook of our economic future is largely contingent on the time of the termination of the war. There are pressing needs for improvements in a number of our State services. I have in mind the State Highway System, our capitol buildings, our State university, the Orphans' Home, our penal institutions, the hospital for the mentally deficient, and others. Many of these improvements will involve construction and the generous use of labor, materials, and supplies. At present these State needs must yield to the greater needs of war.

Lessening of the demands of war must come before we can undertake the many improvements in the State services which seem necessary. All of us, I am sure, appreciate the fact that the winning of this war must come first.

Responsibility for conducting the war to a successful conclusion rests primarily with the Federal Government. Individual States can assist in many ways to bring about victory and at the same time provide an economic stability through which we can successfully carry on after the war is ended.

Even now, as the battles rage and our sons and daughters display such vallant devotion to our Nation, some of them making the supreme sacrifice, we, as administrators of the affairs of the people of our State, must think and plan for the postwar period. If we do not exercise foresight in anticipating and planning for our postwar needs now, the end of hostilities may find us totally unprepared to solve the gigantic problems of reconstruction and rehabilitation. We can do this and not slight in any way, the State's war effort.

With this thought in mind, your State administration has given consideration to the problems which will arise in the postwar period. We are already making plans to solve these problems and have made considerable progress along that line.

A concerted study is being carried on by the State Planning Board assisted by the State and County Economic Conference groups, in practically every county and community of the State. The State Planning Board already has issued its formula for a future "Six-Year Plan." These reports are available to members of this Legislature for their individual study and digest. In addition to this phase of future planning, other public-spirited citizens, organized under the Economic Conference groups all over the State, are giving consideration to their own local postwar problems. These groups are laying plans for the improvement and expansion in their own respective communities. Some of the Economic Conference groups have submitted recommendations and definite plans for future progress, which could be considered from a State-wide

viewpoint. These recommendations and plans will be made available to the members of your honorable body. All of these citizens, having the welfare of the State in mind, are to be commended for their efforts. They deserve the fullest cooperation by the State.

Our political and economic systems are based on the principles of local application. The inescapable price of free government and free enterprise is that we, as a people, must adhere to those principles. Apathy in self-government is one of the most destructive forces in the Nation today. If we do not sustain active interest and collectively use those powers of self-government and the rights and privileges of free enterprise, inherent in our State and in our communities, we shall be rudely awakened some day to find that these powers and rights have passed out of our possession.

One of the primary major problems to come with the peace will be the reestablishment and rehabilitation of returning soldiers. State laws already have been passed assuring reemployment of veterans in their former positions when they come back from their military services. This law applies to positions formerly held in the State Government and its political subdivisions, as well as private business.

A postwar fund of \$180,000 for readjustment purposes was created by the last Legislature and this fund has increased to \$1,415,904.43 during the past two years. I respectfully urge that such portion of this fund as you deem advisable be made available, at the proper time, for public works. It is your opportunity to make such apportionments of this fund as you consider consistent with good business practices in applying it to improvements of State facilities. In your deliberation you may wish to determine that the State Board of Finance be given power to disburse this fund under such restrictions as you consider advisable. This fund, or some portion of it, would appropriately seem most useful in the period of economic adjustment immediately following the end of the war. Proper legislative action at this time would obviate the necessity for invoking extraordinary measures later on to make the fund available when the emergency arises.

In planning for the peace, as we work for victory, we must think beyond today and visualize the years ahead. This is essential if we are to win the peace as well as win the war.

One great challenge of the postwar period is jobs. Consideration of jobs for our returning veterans comes first. Then we must be concerned about jobs for war workers and jobs for those who maintained the home front. That situation must be met on a structure of sound economic policy. Our main concern will be whether we afford jobs on important works or have relief. There is no magic way to meet it. I have never believed that promiscuous spending of government funds in the socialization of enterprise is altogether a healthy policy. I heartily subscribe to the trite saying, "We cannot spend our way to prosperity."

Nevada abounds in great natural resources. Our raw materials alone should be a tremendous inducement for the establishment of industrial units in this State. The greatest possibilities are in the fields of agriculture, livestock raising, and mining. By the full utilization of our natural resources and the cooperation of government, management, and labor we have an excellent opportunity to develop our State and, at the same time, assist to a large extent in the development of the great American Western Empire. It will, however, require the sympathetic understanding and unselfish attitude on the part of all three—government, management, and labor—to mold the component units into a substantial and well-balanced structure for this future development. All of us must seek what is best for the greatest number, knowing that the result must be best for each of us.

There will be need for employment on a sound basis to make possible an expanding development of the production and marketing of civilian goods. A number of other States have already taken legislative measures providing for State participation in postwar economic development. Some of these States have particularly made special provisions for assistance to veterans from both public and private sources.

## BIENNIAL BUDGET

The Statutes of 1919, page 58, require that the Biennial Budget for the fiscal years 1945-1946, with the accompanying proposed appropriation bill, be laid before you within twenty days after the Legislature has convened. This must be made after all departmental reports of receipts and estimated expenditures are received and studied. This budget will contain financial statements of all departments of the State Government during the past one and one-half years, as well as estimated expenditures for the six months ending June 30, 1945; also, estimated requirements as approved by the Executive for the ensuing two years commencing July 1, 1945, and ending June 30, 1947.

I shall have the budget in your hands within a few days and I request your careful consideration of and attention thereto.

## STATE FINANCES

The records of the State Treasurer show the cash balance of State funds in the State Treasury, as of December 31, 1944, to be \$3,447,955.34. There is no outstanding bonded indebtedness.

On June 30, 1944, the bank value of bonds owned by the State was \$4,713,620.00. On December 31, 1944, the bank value of bonds owned by the State was \$5,564,915.37. Income from interest on bonds from July 1, 1942, to June 30, 1944, was \$226,586.14. On December 31, 1944, the sum of \$31,927.60 was available for investment.

## STATE VETERANS

We are all concerned about the welfare of our returning American veterans. In a measure, and in a general manner, the Federal "G. I. Bill of Rights" points the way to assist them in their readjustment and rehabilitation. There seems, however, to be a need for supplemental measures, which apply specifically to returning Nevada soldiers. With this in mind, I ask that you give your earnest consideration to the following matters:

I respectfully urge that you make provisions for a State Veterans' Guarantee Loan Fund. To those veterans who have suitable aptitudes, training, and experience, this fund should provide State guaranteed bank loans, up to a reasonable amount, in establishing or reestablishing themselves in small business enterprises. Proper machinery for carrying this Act into effect can be set up with safeguarding provisions for its successful operation.

There are other problems relating to veterans' affairs which might be considered. I refer specifically to hospital, medical, and domiciliary care; education and training; unemployment allowances; provisions for the appointment of a conservator for missing military personnel; broadening the procedure for the proof of wills where subscribing witnesses are unavailable; and, also, to legislation extending the validity of powers of attorney.

Many of our citizens returning from the armed forces, as well as others, desire an opportunity to complete their education or learn some trade. An opportunity should be afforded these citizens to fulfill their desires. It seems to me that a vocational or trade school established under the direction of the State Board of Education, supplementing other educational facilities already existing in Nevada, would help to supply this opportunity. Such a measure would benefit the State in affording educational facilities to those who would care to avail themselves of such facilities.

I cannot present these suggestions in detail at this time, but I have available material which will be at your disposal for further study of these subjects if you so desire.

## INDUSTRIAL DEVELOPMENT

During the past two years several industries have come into existence by reason of wartime demands. Nevada has benefited in a degree through these industries. Among others, I refer to the Magnesium Plant at Henderson, in Clark county. Its value to the war effort has been tremendous. The need for its product has been diminished. Operations at the plant have been

deeply curtailed and its use as a magnesium producer in the future is uncertain. We must not let this plant be dismantled and moved out of the State. We must exert every effort to find some way for its transition and future use. My earnest hope is that it can be adapted to the treatment of some of our natural resources. It is also my hope that this plant, or as much of it as is feasible, will be taken over and operated by private enterprise. It would seem that low-cost power and water and the attractive tax structure of our State could bring this about. By proper transposition, units of this plant might be used in processing lead, zinc, copper, and other minerals besides magnesium. Fabrication plants in the immediate vicinity would add materially to the value of this enterprise.

We also would like to see Boulder Dam given its full development, and we desire very much to see additional reclamation projects set up along the Colorado River. In a word, we should strive to bring about the situation where more of our plentiful supply of raw materials, like copper, lead, zinc, magnesium, manganese, iron ores, as well as the products of our ranches and farms, will be transformed into finished materials ready for the markets.

Stock should be taken of the mineral resources and industries of this State in order that we might have an idea of the extent of their availability. Then we could develop them to supply the peace needs on a stable basis. Nevada, like all the other Western States, does not want to lose any ground gained during the past four years in the industrial field.

#### UNDERGROUND WATER DEVELOPMENT

For several years there has been a definite need to explore and develop underground waters in Nevada. Now, more than ever, that need is urgent because of the necessity of providing for the future expansion of agriculture and industry in this State. I have asked that the sum of \$35,000 be included in the budget for the office of the State Engineer for the purpose of carrying on exploration and development work seeking underground waters in this State. I ask your consideration and the allowance of this item under such restrictions as you may see fit to impose for its use.

In order that this fund might be used on a cooperative basis with the Federal Government, an enabling Act would be necessary. This Act should give the State Engineer authority to enter into contracts with the proper departments of the Federal Government for carrying this into effect.

#### AVIATION

Another of the most promising fields for future development is aviation. With the large number of men and women now trained and being trained in aviation, I believe there will be notable progress made in public and private air transportation in the postwar period.

At the present time there is no legally created agency within the State charged with the responsibility of direction, promotion, or development of aviation. The State is now served by three transcontinental airlines. Recently permission was granted to a local company for the establishment of an intrastate line to operate between Reno, Elko, and Las Vegas, and intermediate cities and towns. Several measures of legislation are now pending in Congress dealing with the development of aviation throughout the United States. Nevada should not neglect its opportunity for development in this field of transportation. The creation of a department of State to function as a department of aviation, it seems to me, would be in order. It would also be appropriate that you determine how this unit of government shall be created and where it should be placed, and also to provide the necessary funds for its operation.

#### BUILDING

At the Fortieth session of the Nevada Legislature an Act was passed creating a bond issue to enlarge the State Prison. One of the improvements contemplated was an additional cell block. This cell block addition has not been

completed because of wartime restrictions. Another project, approved by a preceding Legislature, was the central heating system at the University of Nevada. This project also has been held up because of wartime restrictions. Work on these projects will be resumed as quickly as conditions permit.

I refer you to the "Six-Year Plan," as presented by the State Planning Board, and ask that you adopt such portion of the plan as is consistent with good business and the financial condition of the State. It appears to me that the most pressing needs at this time consist of an addition to the State Capitol to provide more office space, and additional buildings at the State Hospital for Mental Diseases, an additional class building for the University of Nevada, a State building in Southern Nevada, the establishment of a trade school somewhere in the State, and a Highway Department building.

#### LABOR

I am happy to report that there have been practically no disagreements arising between industry and labor in this State during the past two years. There has been, on the contrary, a marked degree of harmony displayed between the two groups in dealing fairly with one another, and in promoting the war effort, and thus achieving a true progress. Almost all lines of industry, except the war industry, have been short of labor, but this condition, in these critical times, was to be expected.

Over the period of the past two years employment has been plentiful and, as a consequence, a benefit reserve fund of \$8,774,345.71 has been accumulated in the State Employment Security Fund. This money is now available for the payment of benefits to those entitled to unemployment compensation. The increased cost of living makes it necessary, however, that benefits be increased. I respectfully suggest that such benefits might be increased as follows:

A minimum of \$8 per week and a maximum of \$18 per week, with an additional amount of \$3 per week up to two dependents, but not to exceed \$24 per week.

That payments commence at the end of one week after the benefit accrues and continue for a period of 20 weeks or until the person is reemployed within the said period.

I respectfully urge that the Reserve Benefit Fund should not be reduced under an amount equal to \$3,500,000.

#### HIGHWAYS

Maintenance of our State Highway System has been conducted on the same high standard as that in effect during more normal years. This has made necessary the expenditure of larger sums of State funds as Federal reconstruction cooperative funds were not available during the biennium, except in improvements on roads used for military purposes and for strategic mine access roads approved by the War Production Board.

Congress recently authorized an extensive fund which will net to our State the approximate sum of \$4,891,000 per year to be matched by \$940,644 of State funds per year, for each of the three postwar years. The apportionment to Nevada of these Federal moneys is on the same basis as that in effect for a great many years, that is: one-third based on population, one-third based on mileage of post roads, and one-third based on the geographical area of the State. This Federal fund will become available for use in the postwar period, and no additional State taxation will become necessary to meet Federal requirements.

During the years 1943-1944 the personnel of the Department of Highways has consistently declined because of drafts for the armed services, and also because of the curtailment of departmental work.

#### PUBLICITY

Following the cessation of hostilities, tourist traffic, undoubtedly, will be resumed on an ever-increasing scale. In order to attract as many as possible of these travelers, and to capitalize on what our State has to offer them in

return for their tourist dollars, it would seem appropriate to establish a fund for an advertising program, having a State-wide viewpoint. This advertising, to begin at the end of the war and consistently carried on, should promote the industrial, agricultural, recreational, educational, and mining advantages existing in our State. For the information of the members of the Legislature, it might be in order to say that several neighboring Western States have had access to such a fund for many years, and, even during the war era, have carried on their advertising with a view to attracting visitors to their States when traveling conditions are more propitious. Evidently these States have learned from their experience that their advertising dollars bring commensurate return. Nevada would do well, I believe, to adopt a similar plan in this regard.

#### COUNTY AND CITY RESERVE FUNDS

In accord with the idea of future planning, I respectfully urge that counties, cities, towns, school districts, and special improvement districts be given the right and authority to establish and set aside reserve funds for the purpose of financing the cost of planning and carrying on public works beneficial to their local needs. Limitations can be placed on the use of such funds if you deem this course necessary.

#### PURCHASE OF FEDERAL SURPLUS PROPERTIES

At this time and when war stops the Federal Government has, and will have, great amounts of Federal surplus properties at its disposal. Some of this property, undoubtedly, will become available, through purchase, to State and local governments. So that the State and the local governments may take advantage of opportunities in such surplus property offerings, I urge that measures be taken to authorize the buying of such property by these governmental units, as can be used by them beneficially, with proper safeguarding provisions.

#### PROBATION SYSTEM

Under the laws of Nevada our District Courts have no power to suspend sentences of those convicted of crime. This condition applies to all crimes, whether of major or minor character. As a consequence many minors are sent to the penitentiary, for less serious infractions of the law, who might be more readily rehabilitated if placed on probation. The commingling of these youthful offenders with the more hardened criminals of the State institution does not tend to regenerate them, and in most cases the youthful offenders become schooled in devious methods for carrying on a criminal career after the expiration of their sentence.

A constitutional amendment giving District Court Judges the power to grant probations is necessary. I believe it would be well to have such a necessary Act which will give the District Courts authority to meet the rightful demands of justice.

#### STATE POLICE

During the sitting of the last Legislature, provision was made to reestablish the Nevada State Police. In accord with the laws enacted and the appropriations made, a State Police Force of six men has been maintained since then. I am pleased to report that this police organization has rendered excellent service to the people of Nevada. Two police schools have been conducted under the direction of the Federal Bureau of Investigation and the Nevada force has benefited greatly from the excellent training they received in these schools. I commend the State Police to you and solicit your favorable appropriation for its efficient operation. Two more members, added to the present force, would give a more effective coverage of the State, and assure the proper function of the State policing unit.

#### STATE FIRE HAZARDS

Range and timber fires have caused much destruction of valuable property in this State during the past several years. Approximately 265,506 acres of public timber and grazing lands have been affected by fires during the past

biennium. Private properties have also been destroyed. Loss in range and privately owned properties has been estimated at \$1,500,644.

In order that we may successfully combat this condition, a group of department heads, both State and Federal, have cooperated with individuals and concerns to first, prevent fires, and second, to adopt effective methods to control those fires which have been started. This cooperative effort has been in effect for the past three years.

Closer cooperation and better results could be obtained, I am convinced, in the setting up of a fire protection unit by law. This could be accomplished by placing the responsibility of organizing and directing the operations of fire protection functions under one of our already existing State departments. It would involve very little added expense to the State and would result in a saving of many thousands of dollars to our citizens by cutting down fire losses.

#### MINING

Particular attention should be given to the mining industry of our State. War conditions have brought about many industrial changes in the West. These changes have brought with them the construction of plants which are sustained by use of ores, metals, and nonmetallic materials, and these materials constitute a large part of our western natural resources. These plants were erected primarily for war production. When hostilities cease these war production units very likely will also cease to operate in their present capacity. Unless some way is found to utilize the existing structures and equipment the plants themselves will come into disuse and deteriorate. This might also mean a serious dislocation in our peacetime economy. For that reason, I am convinced that these war plants should be retained and put to a use which will benefit the mining industry. Through such use the plants will make for a maximum employment of men in mining. Encouragement should be given to private enterprise for taking over and operating such discontinued government war plants in our State.

Encouragement should also be given to mining by making changes in existing unfavorable laws and regulations affecting the industry and by making new beneficial laws if necessary.

In directing your attention to the following items for consideration, I do so with the view that perhaps it would be the wish of this Legislature to memorialize the National Congress for repeal or change of such of these laws as are proving to be obstacles, and the approval of those which permit the full development of our State's mining industry.

1. War Production Order L-208, which should be rescinded or modified in order that a more liberal policy for producing gold and silver bullion be adopted.

2. The advocacy of gold and silver as a monetary base in establishing world currency.

3. The stock piling of strategic or critical metals in sufficient amounts for any future war emergencies.

4. The retention of tariffs on metals or minerals in order to prevent a decrease in mining activities in the West.

5. That proper financing of mines closed under order L-208 be arranged.

6. A prompt revision of Federal tax laws following the war to allow a return to the American principle of free enterprise.

7. The disposal of defense plants in an orderly transition from government ownership to private ownership and operation at reasonable figures.

#### LIVESTOCK AND AGRICULTURE

Attention should be directed to the construction of flood control reservoirs, which would stabilize the flow of water in some of our rivers. This stabilization in turn will afford an opportunity to establish power units and at the same time make larger agricultural districts in our valleys. This would also mean more ranches and more livestock, which would give greater agricultural opportunities to our people.

One of the pressing needs for increasing our stock herds is the replenishment of the ranges. This can be accomplished through a cooperative arrangement between our ranchers and the Forest Reserve and the Grazing Service for reseeding in places where economic benefit would result.

In this connection, I urge that you give consideration to the grazing problem. Recently a study was made of this matter by the Livestock Association of the State.

A question has arisen whether fees should be charged growers for revenue purposes or whether fees should be determined upon the basis of sound economic development of the livestock business. In other words, whether revenue should be raised beyond the amount necessary for an equitable operation of the service. It is my belief the Taylor Grazing Act never intended that fees for revenue beyond necessary cost of operation should be charged. We need to operate the stock business on a basis which will assure the growers a fair economic return on their private business.

#### CIVILIAN DEFENSE

The need for continued home-front activities to help win the war exists now as much as ever before. It is important that we continue the activities of the State Defense Council and County Defense Councils throughout the State. There remains sufficient money from the 1943 appropriation to carry on this work; therefore, no additional appropriation will be asked.

#### RECOMMENDATIONS BY THE ATTORNEY-GENERAL

The Attorney-General has made several recommendations for amendments to some of the laws on our statute books. These recommendations have merit and I urge your earnest consideration of them, and action upon such of them as you deem advisable. The recommendations are included in the Attorney-General's Biennial Report for the period of July 1, 1942, to June 30, 1944, and may be found on pages 297 to 299, inclusive. I understand that copies of this report have been sent to each of you.

#### CONCLUSION

In this my first message to the members of the Forty-second State Legislature, I have attempted to outline a broad plan for the economic development of our State following the war. There is a possibility that the Allied Nations shall achieve at least a partial victory in the war before another regular State Legislative session is scheduled to convene. Our soldiers on the battle fronts are giving every ounce of their intelligence and strength to bring about a quick victory. Surely, we at home, must do our best to help them now and take steps to make our State a better one to which they can come when the war is over.

Upon the wise and sympathetic cooperation of the three branches of our government depends the enactment, interpretation, and enforcement of laws which will benefit our State and its people. We should all strive to make some contribution toward the lasting good and welfare of our State and Nation.

I look forward with pleasure to working with you in this session of the Legislature. I know you will discharge your responsibilities well, and through wise legislation, demonstrate that free government can be effective. As the work of the session progresses, I may again have occasion to address other communications to your honorable body as conditions justify. In such event, I shall give proper notice to both Houses in due time.

I know you will act and serve your people well and in keeping with the basic principles of freedom, liberty, and justice. With a firm faith in God, and a wholesome respect for the dignity of man, we can all face the future with confidence and undimmed hope if we display the same character of courage which was so manifest in our people at the time of the birth of our Country and our State.

By Mr. Crawford:

Assembly Joint Resolution No. 1, to the California Legislature of 1945, asking the State of California to cede the territory east of the summit of the Sierras to Nevada, by a plebiscite of the residents of that area.

WHEREAS, The boundary line between California and Nevada was established at the summit of the Sierras by Congress, March 2, 1861; and

WHEREAS, The California Legislature established the present boundary that has been the subject of dispute between the two States for eighty years, even to the point of bloodshed in the "boundary war" in old Roop County, Nevada; and

WHEREAS, Several delegations have gone to Sacramento to try to have the boundary put back where Congress originally put it in 1861, namely, in 1874, 1877, 1889, 1915; and

WHEREAS, Several petitions have been circulated by the residents of the disputed territory that they become a part of Nevada; and

WHEREAS, Certain county areas in California send their children to school in Nevada, having no high schools of their own; and

WHEREAS, The Nevada Legislature in 1871 passed a resolution memorializing the California Legislature to cede back to Nevada, lands east of the summit of the Sierras; and

WHEREAS, Residents and voters of the State of California living on the east side of the summit of the Sierras resent their being subject to the same quarantine inspection as out-of-State residents when passing through the so-called "Bug Stations"; and

WHEREAS, Several thousand California residents, cut off from their State, geographically, spend their leisure time largely in Nevada; do their shopping largely in Nevada, and feel that they belong to Nevada; and

WHEREAS, The eastern slope of the Sierra Nevadas is the natural watershed of the State of Nevada and problems arising from the use of the waters therefrom are the particular problems of the State of Nevada; and

WHEREAS, The recent attempted creation of a 49th State of Jefferson indicated unrest and discontent over present boundaries; and

WHEREAS, Manifest and great injustice is generally done by the adoption of artificial instead of natural division lines between States, especially when the latter are well-defined, as in case of a river, or a mountain range; and

WHEREAS, So much of the State of California as lies east of the summit

of the Sierra Nevada mountains belongs, as it were, naturally to the State of Nevada, and the people inhabiting such territory are accustomed to the transaction of their business abroad chiefly in this State, and would, therefore, be better accommodated if such territory were annexed by cession to this State; and

WHEREAS, The Act of Congress of March 2, 1861, U. S. *The Speaker, Nevada State Legislature, Assembly Chamber, Carson City, Nevada.*

*Dear Mr. Speaker:* It is with many pleasant memories of my membership in your group that I extend to you and to other members my very best wishes for a pleasant stay in Carson City and a profitable legislative session. Some of the finest men that it has ever been my pleasure to know served with me in the Nevada State Legislature.

In looking over the roll I find many who are serving for their first time and some few whose names I recall with fond recollection, as having served before, even when I was a member.

I have every confidence that you will uphold the high tradition established by the Assembly of the State of Nevada in the enacting of good legislation for the common cause. I shall follow your activities with great interest.

If there are matters here that either you or the members are interested in, you have only to communicate with me concerning them. I shall take the liberty of writing to the individuals in more detail a little later.

With kindest personal regards, and with every good wish for the New Year, I am

### MOTIONS, RESOLUTIONS, AND NOTICES

By Mr. Strosnider:

Assembly Joint Resolution No. 3, memorializing Congress and the National Selective Service Board to delay the induction into the military forces of the United States of registrants actually engaged in the agricultural and livestock industries, and to declare these to be critical industries.

WHEREAS, It has heretofore been the policy of the National Selective Service Board to permit local Selective Service Boards, upon the recommendation of the local United States Department of Agriculture County War Boards, to defer the induction of registrants actually engaged in agriculture and livestock raising; and

WHEREAS, In answer to the need of the military forces and essential and critical industry for additional manpower, the local Selective Service boards have been directed by the National Selective Service Board to reexamine and reclassify all deferred registrants to the end that all physically fit persons under 26 years of age be inducted into the military forces, and that all persons both under and over the age of 26 years not physically fit for military service be forced into essential and critical industry; and

WHEREAS, An indiscriminate reclassification of registrants will remove many thousands of men now engaged in agriculture and the raising of livestock from these industries; and

WHEREAS, The growing and production of food is even more essential to military success than the production of armament; agricultural and livestock raising are not only essential industries but are critical industries, the impairment of which will be immediately reflected in the national war effort; now, therefore, be it

*Resolved by the Assembly and the Senate of the State of Nevada, That the Congress of the United States, through proper legislation, and the National Selective Service Board of the United States, through proper rules, regulations and directives, immediately take such steps as may be necessary to classify agriculture and livestock raising as critical industries, and to reinstate and continue the policy, heretofore in force, of deferring the induction of registrants engaged therein into the military forces and/or compelling them to enter into other so-called essential and critical industries; and be it further*

Assembly Joint Resolution No. 4—Proposal to amend section 3, article 19, of the Constitution of the State of Nevada.

*Resolved by the Assembly and Senate of the State of Nevada,* That section 3 of article 19 of the Constitution of the State of Nevada be amended so as to read as follows:

SEC. 3. The people reserve to themselves the power to propose laws and the power to propose amendments to the Constitution and to enact or reject the same at the polls, independent of the Legislature, and also reserve the power at their option to approve or reject at the polls, in the manner herein provided, any act, item, section, or part of any Act or measure passed by the Legislature, and section one of article four of the Constitution shall hereafter be considered accordingly. The first power reserved by the people is the initiative, and not more than ten percent (10%) of the qualified electors shall be required to propose any measure by initiative petition, and every such petition shall include the full text of the measure so proposed; *provided*, that no law, other than amendments to the Constitution, shall be enacted by initiative that could not under this Constitution be enacted by the Legislature. Initiative petitions, for all but municipal legislation, shall be filed with the Secretary of State not less than thirty (30) days before any regular session of the Legislature; the Secretary of State shall transmit the same to the Legislature as soon as it convenes and organizes. Such initiative measure shall take precedence over all measures of the Legislature except appropriation bills, and shall be enacted or rejected by the Legislature, without change or amendment, within forty (40) days. If any such initiative measure so proposed by petition as aforesaid, shall be enacted by the Legislature and approved by the Governor in the same manner as other laws are enacted, same shall become a law and subject to amendment and repeal by the Legislature the same as Acts that originate in the Legislature. If said initiative measure be rejected by the Legislature, or if no action be taken thereon within said forty (40) days, the Secretary of State shall submit same to the qualified electors for approval or rejection at the next ensuing general election; and if a majority of the qualified electors voting thereon shall approve of such measure it shall become a law and take effect from the date of the official declaration of the vote; an initiative measure so approved by the qualified electors shall not be annulled, set aside or repealed by the Legislature within three (3) years from the date said Act takes effect. In case the Legislature shall reject such initiative measure, said body may, with the approval of the Governor, propose a different measure on the same subject, in which event both measures shall be submitted by the Secretary of State to the qualified electors for approval or rejection at the next ensuing general election. The enacting clause of all bills proposed by the initiative shall be: "The People of the State of Nevada do enact as follows." The whole number of votes cast for Justice of the Supreme Court at the general election last preceding the filing of any initiative petition shall be the basis on which the number of qualified electors required to sign such petition shall be counted. The second power reserved by the people is the referendum, which shall be exercised in the manner provided in sections one and two of this article. The initiative and referendum powers in this article provided for are further reserved to the qualified electors of each county and municipality as to all local, special, and municipal legislation of every character in or for said respective counties or municipalities. The Legislature may provide by law for the

manner of exercising the initiative and referendum powers as to county and municipal legislation, but shall not require a petition of more than 10 percent (10%) of the qualified electors to order the referendum, nor more than 15 percent (15%) to propose any municipal measure by initiative. If the conflicting measures submitted to the people at the next ensuing general election shall both be approved by a majority of the votes severally cast for and against each of said measures, the measure receiving the highest number of affirmative votes shall thereupon become a law as to all conflicting provisions. The provisions of this section shall be self-executing, but legislation may be especially enacted to facilitate its operation.

WHEREAS, For the purpose of improving the morals of the American Indian, the Federal Government has for many years prohibited the sale of alcoholic beverages to him; and

WHEREAS, The same Federal Government for many years attempted to legislate the morals of all Americans by attempting to prohibit by law the use and sale of alcoholic beverages; and

WHEREAS, Both the attempt to legislate the morals of the American Indian and the morals of all of the American people has proven in both cases futile, and, in fact, has led to an increase in crime, immorality, and a contempt of law; and

WHEREAS, The American Indian has proven himself to be a loyal citizen of the United States, both in war and peace, and during the present war, the boys from our State of Indian blood have suffered more casualties and received more awards for valor in proportion to their number in the services than any other group, regardless of race, color, or creed; and

WHEREAS, The American Indian should have the same rights to determine whether or not he should be restricted in the use of and purchase of alcoholic beverages as any other citizen of the United States of America; now, therefore, be it

*Resolved by the Assembly and the Senate of the State of Nevada, That Congress be memorialized to provide a modification of the regulations affecting the use of alcoholic beverages by the American Indian, by removing any discriminatory laws and regulations against such Indians regarding the purchasing, transportation, or consumption of such alcoholic beverages; and be it further*

*Resolved*, That no law should be passed by Congress discriminating against the American Indian with respect to the use of intoxicating liquor, unless the Indian tribe or the Indians residing on the reservation, by popular election, shall vote to prohibit the use of intoxicating liquor on such reservations; and be it further

By Mr. Free :

Assembly Joint Resolution No. 6, again memorializing the Congress to cede to the State of Nevada all unsold lands within said State.

WHEREAS, The geographical situation of Nevada confines every enterprise for advancement to such inland conditions as a State deprived of seacoast is compelled to adopt; and

WHEREAS, The General Government has authorized the homesteading of one hundred and sixty acres of land to every person entitled to make such entry, the Government deeming that amount of rich prairies of the Mississippi Valley sufficient for a family; and

WHEREAS, From the dryness of our climate, scarcity of running water, and, in some places large tracts of land good only for grazing, an area greater than our homestead law now allows would encourage largely increased actual settlement; and

WHEREAS, The present method of selling lieu lands in lots of forty acres each, is being used by land speculators to buy and usurp all of the springs and small streams within the State, thereby rendering the land but a little removed from these springs and streams forever unsalable; and

WHEREAS, In view of this practice, which virtually is a sale of water, whereby large tracts of land are controlled for the benefit of the few, and not a sale of the public lands in homestead lots to actual settlers; in view of the further fact that Nevada has a great need of a large actual homestead population (for whom, under wise legislation, there are ample resources of fertile soil and living water), it is highly desirable that the entire lands within the State of Nevada be placed under the ownership and control of this State, subject to the management and disposal of its Legislature; it is believed that the future and well-being and ultimate prosperity of this commonwealth would be greatly increased thereby; and

WHEREAS, Nevada at all times has responded to every call and requirement of the General Government, whether in supplying loyal soldiers or giving loyal expression when the fate of the Union hung in the balance; and

WHEREAS, From her mines there come the sterling metals that give security to the money circulating media of the world, metals without which values would be disturbed and civilization retarded; and

WHEREAS, A just dealing with the several States would entitle Nevada to the unsold and uncontracted-for land within her domain, that we might enact such laws for their survey, control, irrigation, and sale as our wants would seem to require; therefore, be it

*Resolved by the people of the State of Nevada, represented in Senate and Assembly,* That our Senators in Congress be instructed, and our Representative requested, to use all honorable means to secure the passage of a bill embodying the wishes of the memorialists as herein set forth; and

*Resolved further,* That his excellency, the Governor of the State of Nevada, is hereby requested to transmit an engrossed copy of these resolutions, under the great seal of State, to our Senators and Representative at Washington and to the Secretary of the Interior.

Mr. Free moved that the rules be suspended, reading so far had considered first reading, rules further suspended, resolution read second time by title, and referred to a Joint Committee of Judiciary and Roads and Highways.

By Mr. Hussman :

Assembly Concurrent Resolution No. 3 :

WHEREAS, During the past years there has been an alarming increase in the kind, character, and amount of Government acquired and owned property in the various States ; and

WHEREAS, During these years, and continuing as of the date hereof, the Federal Government, its departments and agencies, have been acquiring for one purpose or another millions of acres of land situated throughout the Nation and particularly in the Western States ; and

WHEREAS, In the State of Nevada alone hundreds of thousands of acres of land have been either purchased, condemned, or withdrawn from entry, all of which is seriously affecting the economy and industries of the State, and particularly the livestock industry ; and

WHEREAS, In many instances the Federal Government, its departments and agencies, have constructed on these acquired lands, which are in the nature of Federal reserves, projects costing many millions of dollars, all of which has resulted in thousands of people coming into the State of Nevada to seek employment on and about these projects ; and

WHEREAS, A multiplicity of problems have been created for the towns, cities, and counties of the State of Nevada by reason of these great transient populations, among the problems being those of protection of persons and property, fire protection, health and sanitation, education, roads and highways, indigent relief, and many others ; and

WHEREAS, Federal property and the property of those living on Federal reservations cannot be taxed by a State or any political subdivision thereof ; property worth many millions of dollars is paying no part of the burden imposed upon the taxpayers of the State of Nevada by reason of Government ownership and Government owned and controlled industries within its borders ; and

WHEREAS, The assumption of this great burden has been heretofore uncomplainingly assumed by the people of the State of Nevada ; the tax structure in many communities is now being threatened and will, unless prompt, intelligent, and understanding consideration is given to the inequities of the presently prevailing situation by the Congress of the United States, completely collapse ; now, therefore, be it

*Resolved by the Assembly of the State of Nevada, the Senate concurring,* That the Congress of the United States take such immediate action as may be necessary to permit the individual States and their political subdivisions to assess and collect taxes upon real and personal property owned by the United States, or any department or agency of the United States, in the same manner as privately owned property ; or, in lieu thereof, that legislation be enacted directing that there be annually paid to each State and political subdivision thereof, such sums of money as would be equal to the amount collected had such property been taxed as privately owned property.

Carried.

Prayer for International Cooperation and the Will for Peace.

O, Eternal God, the Father of all mankind; grant unto us such a clear vision of the sin of war, that our consciences may be quickened, and our wills inspired to earnestly seek that cooperation between nations which alone can make war impossible. As a man by his inventions has made the whole world into one neighborhood, grant that we may help, by our cooperations, to make the whole world into one brotherhood.

Grant us wisdom, that we may discern the causes of conflict, the things which make for international hate and jealousy. Help us to break down all race prejudices; give us courage and faith to lift our voices against all private greed, social injustice, the aggression of the strong against the weak, and whatsoever else works enmity between man and man, class and class, nation and nation. Help us to stay the greed of those who profit by war, and the ambitions of those who seek imperialistic conquest. Guide all statesmen in all nations to seek a just basis for international action in the interests of an enduring and righteous peace.

Create within us a passion for the reign of righteousness, the spread of brotherhood and good will among the nations; and help us as thy servants to commend to all peoples the ideals thou hast given us; the sacredness of life, the liberty of conscience and opportunity, and the pursuit of true happiness for all men. Arouse in the whole body of thy people everywhere an adventurous willingness that as we have sacrificed greatly for war, so for international good will and peace, we may dare bravely, think wisely, decide resolutely, and achieve triumphantly, as we follow in the way of thy Son, the Prince of Peace, Jesus Christ our Lord. Amen.

Mr. Crawford introduced as his guest, Mr. Leo K. Johnson, a former member of the Assembly.

## MOTIONS, RESOLUTIONS, AND NOTICES

By Mr. Miller:

Assembly Joint Resolution No. 8:

WHEREAS, The Taylor Grazing Act specifies that the grazing fees required to be paid under its provisions are to be reasonable; and

WHEREAS, When said Act was before the Congress in 1934, the matter of the reasonableness of the said fees, as to their economic effect upon the enterprises of the stockraising settlers and the business and tax structures of the local communities concerned, was brought up by members of the Senate Public Lands Committee with officials of the Interior Department and, to secure support of the Senate committee in enactment of the said Act, assurances were given the said committee by the Interior Department officials that:

Their intention under the Act was that of maintaining and upbuilding the public ranges for the benefit of the local interests consisting of the stockraising settlers and States concerned.

They had no intention at all of depriving the settlers of rights derived either under State laws or by customary usage or of using the said Act to exploit the grazing values of the ranges for revenue producing purposes and, instead, intended only that the fees to be charged should pay for the costs of administering these values, and nothing more; and

WHEREAS, In 1941 a grazing fee study made by the Grazing Service and contemplating an increase in the existing fees, of some 300%, was set aside after a series of hearings, at the request of the representatives of the stock-raising settlers, with a definite promise by the Grazing Service to defer any

steps looking to increased fees pending the end of the war when opportunity could be had to determine what postwar economic readjustments might then have to be undergone by the range stockraising industry; and

WHEREAS, Despite both the said assurances by the Department of Interior officials that only a cost of administration was intended and the promise of the Grazing Service officials that the matter of increased fees would be deferred for the duration, the Grazing Service recently has announced its intention of increasing the fees, effective for 1945, by approximately 300%, attempting to justify such increase, not on the cost of grazing administration but, instead, upon the value of the range, and without any consideration whatever of the economic effect upon either the enterprises of the stockraising settlers or the business and tax structures of the local communities concerned; now, therefore, be it

*Resolved by the Assembly and the Senate of the State of Nevada, jointly,* That unless the officials of the Department of the Interior and the grazing service speedily and forthwith show a proper disposition to conform with and carry out the said assurances and promises in connection with their administration of the Taylor Grazing Act, the said Act should be repealed, at least insofar as its application to the public lands in Nevada is concerned, and that until the question of how much the stockraising settlers are to be required and how much they can afford to pay for range administration is decided, that no further increases in Grazing Service appropriations be granted, and we hereby memorialize the Congress of the United States and its committees concerned to take the steps necessary to these ends; and be it further

*Resolved,* That certified copies of this resolution be sent to each of the members of the Nevada congressional delegation, to the Governors of each public-land State, to the Chairman of the Senate Public Lands Committee, to the Chairman of the House sub-committee on Interior Department appropriations, to the Secretary of Interior, and to the Director, U. S. Grazing Service.

#### MOTIONS, RESOLUTIONS, AND NOTICES

Mr. Speaker announced that the following communications would be read by the Chief Clerk:

MESSAGES FROM GOVERNOR

MRS. C. W. McMILLAN, 127 Williams Avenue, Washington Heights, Reno, Nevada.

DEAR MRS. McMILLAN: That was not only a splendid letter you wrote me in regard to preserving our historical places in Nevada, but in my opinion you are right in every respect.

In order that our Nevada State Legislature may have the opportunity of knowing your thoughts on this subject, and very likely the thoughts of many others of our citizens, I am sending a copy of it to Mr. Peter A. Burke, Speaker of the Assembly, and Lieutenant Governor Vail Pittman, President of the Senate. I shall ask that this letter be read to the Assembly and the Senate with the request that our legislators give thought to enacting laws that will serve to protect and restore historical landmarks.

With kind regards, I am

Sincerely yours,

E. P. CARVILLE,  
Governor.

127 WILLIAMS AVENUE, WASHINGTON HEIGHTS.  
RENO, NEVADA, January 30, 1945.

HONORABLE E. P. CARVILLE, Carson City, Nevada.

MY DEAR GOVERNOR CARVILLE: With a representative group of Nevadans now in session, I wish there might be some way to bring to their attention, and poll their reactions, to a matter which has long been of great interest to me personally, and to others who have the welfare and tradition of our grand State at heart.

This is, the preservation of historical places. Nevada has been my beloved adopted State only twelve years, but in that time, I have seen objects that can never be replaced, taken from under our indignant but helpless noses by greedy, but clever, outsiders, often without sanction, but worse yet relinquished for a few paltry dollars by unintelligent, grasping Nevadans. Old "Brass Betsy" might, and should, have been kept in Nevada. Old "Washoe City" is going brick by brick, carelessly and deliberately destroyed by wealthy "dude ranching" tax dodgers from other States (who have no interest in Nevada except for their own selfish gains). Had Bowers Mansion not been owned by private interests it, too, would have long since been the victim of looters. How ridiculous to advertise "See Old Washoe City," "Visit Sandy Bower's Home," "See Old Virginia," etc., when there is very little left to see. Pipers' Opera House, as well as Bowers' should be owned by the State, and preserved. It could be made a profitable investment as it is now, only under the jurisdiction of official caretakers.

Some, lacking vision, will say "it will cost too much." Yet, we throw away good money—such as the fabulous amount Reno gave to the riff-raff from Hollywood who came here at the time the movie called "Virginia City" was given a premiere. And, the sixty-three (or more) thousand dollars sunk in that pile of rocks in the Truckee River between Virginia and Center Streets, which is half washed away every spring leaving nothing but weeds all summer. I could quote on, indefinitely, to prove my point—but I know it is not necessary.

I realize, as only a native New Englander can, that Nevada is still so new, so young, that it is not "historically minded," except for a few far-sighted persons who are working under handicap, to preserve what they can. Tomorrow so soon becomes yesterday, and the future gives way to history, and it is too late to replace the stepping stones of the past. The greatest charm and appeal of our State, to intelligent people, is its past, aside from its God-given attractions of scenery and climate, and if we want to attract the right sort of people, we must have the things they appreciate, as well as to preserve for our own, what things still remain.

Sincerely yours,

MRS. C. W. McMILLAN.

### MOTIONS, RESOLUTIONS, AND NOTICES

SOMEWHERE IN THE PHILIPPINES,

4 February, 1945.

*Speaker Nevada State Legislature, Assembly Chamber, State Capitol, Carson City, Nevada.*

DEAR SPEAKER: By the time this reaches Nevada's capital city the legislative session will be nearing the home stretch, but please accept my belated congratulations on your election to the office and the sincere wish for the successful session I know you will have.

You members of the Forty-second Session are meeting at a critical time in the history of our Nation and State, and the laws that are now enacted will have a vital effect, not only for the present but for the years immediately following the cessation of hostilities. The sane, sensible, conservative approach to our State problems that has always been taken by our Legislature will again be undertaken by you who are now guiding the affairs of the law-making body.

Speaking as a Nevadan, a service man, and a former member of your body, I believe I express the feeling of my fellow GI's in saying that we have the utmost confidence in your ability to guide the destinies of our State during these trying times. You are playing a vitally important part on the home front and the decisions you make now will have a great effect on the lives of the men and women who will be returning to their homes at war's end.

Again may I congratulate you for the work you are doing and voice the hope that before the next session arrives I will be able to greet you personally.

Sincerely yours,

#### MOTIONS, RESOLUTIONS, AND NOTICES

By Mr. Boak :

Assembly Joint Resolution No. 12, proposing to amend section 3, article 19, of the Constitution of the State of Nevada.

*Resolved by the Assembly and Senate of the State of Nevada, That section 3 of article 19 of the Constitution of the State of Nevada be amended so as to read as follows :*

SEC. 3. The people reserve to themselves the power to propose amendments to the Constitution and to enact or reject the same at the polls, independent of the Legislature, and also to reserve the power at their option to approve or reject at the polls, in the manner herein provided, any Act, item, section, or part of any Act or measure passed by the Legislature and section one of article 4 of the Constitution shall hereafter be considered accordingly. The first power reserved by the people is the initiative, and not more than ten (10%) percent of the qualified electors shall be required to propose any measure amending the constitution by initiative petition, and every such petition shall include the full text of the measure so proposed. Initiative petitions shall be filed with the Secretary of State not less than thirty (30) days before any regular session of the Legislature; the Secretary of State shall submit the same to the Legislature as soon as it convenes and organizes. Such initiative measure shall take precedence over all measures of the Legislature except appropriation bills, and shall be enacted or rejected by the Legislature, without change or amendment, within forty (40) days. If said initiative measure be rejected by the Legislature, or if no action be taken thereon within said forty (40) days, the Secretary of State shall submit same to the qualified electors for approval or rejection at the next ensuing general election; and if not less than fifty (50%) percent of the total number of electors voting at said election vote on the measure, and a majority thereof shall approve such measure it shall become a part of the Constitution of the State of Nevada and take effect from the date of the original declaration of the vote. In case the Legislature shall reject such initiative measure, said body may, with the approval of the Governor, propose a different measure on the same subject, in which event both measures shall be submitted by the Secretary of State to the qualified electors for approval or rejection at the next ensuing election. The enacting clause of all bills proposed by the initiative shall be: "The People of the State of Nevada do enact as follows." The whole number of votes cast for Justice of the Supreme Court at the general election last preceding the filing of any initiative petition shall be the basis on which the number of qualified electors required to sign such petition shall be counted. The second power reserved by the people is the referendum, which shall be exercised in the manner provided in sections one and two of this article. The initiative and referendum powers in this article provided for are further reserved to the qualified electors of each county and municipality as to all local, special, and municipal legislation of every character in or for said respective counties or municipalities. The Legislature may provide by law for the manner of exercising the initiative and referendum powers as to county and municipal legislation, but shall not require a petition of more than ten (10%) percent of the qualified electors to order the referendum, nor more than 15 percent (15%) to propose any municipal measure by initiative. If the conflicting measures submitted to the people at the next ensuing general election shall both be approved by a majority of the votes severally cast for and against each of said measures, the measure receiving the highest number of affirmative votes shall thereupon become a law as to all conflicting provisions. The provisions of this section shall be self-executing, but legislation may be especially enacted to facilitate its operation.

MESSAGES FROM THE GOVERNOR

CARSON CITY, NEVADA, February 28, 1945.

*To the Honorable the Assembly:*

GENTLEMEN: I note the introduction and approval of Assembly Resolution

No. 14 relating to the purchase of a portrait of your present Governor to be hung in the Assembly hall of the State Capitol building.

While I deeply appreciate your display of confidence and courtesy in this regard, I doubt the advisability of expending funds to place a Governor's portrait in the Assembly hall. Portraits of all Governors have been hung in our Capitol halls after their terms of office expire, and I believe this custom should continue in the future.

I also feel that by carrying out the terms of the resolution in question a precedent will be set that would be difficult and unpopular to follow in future years.

In requesting your honorable body to rescind your action on Assembly Resolution No. 14, I want you to know that I do so with no lack of appreciation to the introducer, Mr. Don Crawford, and all those who voted for its passage.

Respectfully submitted,

E. P. CARVILLE,  
*Governor.*

NEVADA STATE LEGISLATURE

FORTY-SECOND SESSION

February 28, 1945

*Mr. Speaker*—Your Assembly Committee on State Prison and Hospital for Mental Diseases consisting of Messrs. Starks, McElroy, Hall, Martin, Fairchild, Munk, and Smith have made an independent investigation of matters relating to the State Hospital at Reno, as well as attending hearings and studying the Senate Committee's evidence and the report of Dr. R. A. Cushman, a psychiatrist of national prominence.

Many improvements have been made at the State Hospital during the past five years, as testified to by several competent witnesses. The improvements have been gradual and in line with good business practice and social welfare. It should be understood, and the citizens of Nevada should know, that within the last four years remarkable progress has been made at the Hospital under the supervision of the present Board of Commissioners and the superintendency of Dr. R. E. Wyman.

The State Board of Commissioners for the Nevada Hospital for Mental Diseases has been acting under the law passed and approved in 1913 concerning the insane.

The Board consists of the Governor, the State Controller and the State Treasurer.

The Superintendent of this Institution is appointed by that board under Section 3510, Vol. 2, N. C. L. (as amended), which provides that he shall be a resident physician at a salary of \$300 per month, reside at the Hospital and employ all necessary help, subject to the approval of the Commissioners.

We wish to compliment the Senate Committee on the report which they have submitted. We have studied and reviewed with interest Dr. R. A. Cushman's report, the testimony of the Reno hearing before the Senate Committee, as well as the testimony given at the hearings held in Carson City.

The present State Board of Commissioners has never before had the benefit of an expert's counsel and report, and we consider the commissioners would derive many benefits from studying and applying the recommendations as made by this specialist.

After due and deliberate study of all of the testimony submitted, your committee is prepared to make the following recommendations:

The Assembly Committee on State Prison and Hospital for Mental Diseases recommends as follows:

1. That the supervision of the Nevada State Hospital for Mental Diseases be retained under the present Board of Commissioners, consisting of the Governor, State Controller, and State Treasurer.

2. The Superintendent of the Institution, who shall also act as Purchasing Agent, to be appointed by the Board of Commissioners. He should be a man of executive and business ability, and a person having had experience in successfully managing similar institutions. The Superintendent's salary to be set at \$5,000 per year in remuneration for his services as Superintendent as well as Purchasing Agent. The Superintendent should be given the power to employ a competent secretary and two additional office employees as the work demands.

3. At the present time there is a board of doctors, acting voluntarily as consultants to the Board of Commissioners, the Superintendent and psychiatrist. This board, which might be termed the Board of Medical Consultant, to act without pay.

4. A full-time qualified psychiatrist should be appointed to act also as Assistant Superintendent, at a salary set at \$10,000 per year, in addition to living quarters to be provided at the Institution. The psychiatrist should be appointed by the Board of Commissioners, the Superintendent, and upon the recommendation of the Board of Medical Consultants.

5. A dietitian should be employed by the Hospital. Inasmuch as it is considered that there is an equal need for a dietitian who could serve the three institutions to advantage. The salary of the dietitian to be paid out of the funds of the three institutions.

6. The Superintendent should be charged with the duty of employing attendants for the Hospital in sufficient numbers to properly care for the patients. The wages to be in accordance with the amount provided by the Governor's biennial budget.

7. That a general utility man be employed immediately to take care of and supervise workers in repair work, painting, etc., now needed at the institution.

8. That an additional sum of \$25,000 be appropriated immediately, to be expended during the next two-year period for making needed repairs to the buildings, equipment, and grounds.

9. That the sum of \$350,000 be set aside from the postwar fund for certain improvements and construction, as outlined in the Six-Year Plan. Due to the crowded conditions at the institution, the following recommended construction projects and installations should be taken care of at the earliest possible time, after labor and material are available:

1. New heating plant installed.
2. Receiving Hospital should be constructed.
3. New male ward building and female ward building.

10. In order that the food situation may be improved immediately and maintained, we recommend the passage and approval of Senate Bill No. 62 and the passage and approval of the proposed appropriation included in the Governor's 1945 biennial budget for general support of the hospital.

11. This Committee heartily endorses the recommendation made by Dr. R. A. Cushman for the establishment and maintenance of clinical records; the best possible record system to be established at the earliest time practicable.

This Committee is of the opinion that the recommendations made in Dr.

Cushman's report, and many of them subsequently included in the Senate Hospital Committee Report and, as will be noted, in the recommendations of this Committee, should be accepted and put into practice and operation at the institution just as expeditiously as funds and conditions will allow.

It is also the opinion of this Committee that the Board of Commissioners, charged with the supervision of the Nevada State Hospital for Mental Diseases be required to submit a progress report of the institution to the 1947 Legislature.

The first recommendation made by this Committee is that the supervision of the Hospital should be retained under the present Board of Commissioners. This particular recommendation is based on the following reasons:

The major problem at the institution, at the present time, and in a greater degree during past years, has been the lack of sufficient funds to afford to the patients the highest type of care and treatment, and to enlarge and equip the Hospital as the population there has increased. It is this Committee's belief that there is no administrative issue involved insofar as either the supervision or the administration of the institution is concerned. Anyone who has ever had anything to do with the hiring of personnel for an institution of a similar nature would, in all fairness, state that it is very difficult during normal times, much less wartime, to secure qualified and acceptable mental hospital attendants, office help, etc.

The Board of Commissioners, consisting of the Governor, State Controller, and State Treasurer serve without extra compensation.

There are no advantages to be gained by transferring the supervision of the Hospital from the present commission to the Board of Relief, Work Planning and Pension Control (more generally known as the Welfare Board), or to any other board which may be created. The members of the present commission are now directly responsible to the electorate of the State of Nevada, just as are the members of the investigating committee of the Senate and Assembly.

Definitely we can see no advantage in changing the operation of the State Hospital to another board appointed by the Governor, particularly the State Welfare Board.

The Welfare Board was set up in 1937 for the express purpose of supervising the Division of Old-Age Assistance, Division of Child Welfare, and other agencies where Federal aid is furnished. The Federal Government matches funds in those State established units. The Federal Government, therefore, has a strong voice in the conduct and operation of such State divisions.

If Nevada institutions, as entirely and specifically State institutions, are placed under the control of a similar bilateral board, it would appear to us that such a set-up would create a situation fraught with danger or conflict of operation and procedure in the future.

By retaining supervision and control of the State Hospital in the hands of the present Commission the welfare and progress of the institution can be assured. These Commissioners are available at all times to be called together at the Capitol building as a membership of three to consider and solve any problems which may arise in the functioning of the State Hospital.

We believe that greater efficiency of operation of the Hospital would be assured by having a man of executive and business ability in successfully managing similar institutions, to conduct the general business of the State Hospital, thus leaving the psychiatrist to devote his entire time to care and treatment of patients.

You will note that we recommend that the institution should have a board of medical consultants, to serve without pay, acting with the psychiatrist and the hospital commission. The present supervisor, Dr. Wyman, has, on occasion, called in such consultants with gratifying results.

Many of Dr. Cushman's recommendations are predicated upon the construction of new buildings, and we consider that at least \$350,000 should be set aside out of the postwar fund for this purpose, and as outlined in the Six-Year Plan. We do not believe that a plan providing for receiving patients before they are finally committed can be successfully carried out until an additional building is provided.

We also recommend the engagement of an architect, familiar with hospital

construction, to prepare plans and specifications for such buildings as are necessary at the institution. Funds could be made available now out of the postwar fund for this service. This would allow the Commissioners to proceed with the work as soon as labor and materials become available.

The State Hospital, from the very nature of its institutions, has been established for the unfortunates whose mental functions have been affected. It would be right and just for us, the more fortunate, to provide adequate facilities for these human beings to be cared for in, at least, a reasonable degree of comfort and kindness, so that rehabilitation, where possible, can be assured. To this end we believe adequate funds for the proper functioning of the institution will assuage a realistic, but unfortunate situation. We recommend that this report be adopted.

MOTIONS, RESOLUTIONS, AND NOTICES

By Committee on Livestock:

Assembly Joint Resolution No. 14:

WHEREAS, Nevada now is confronted with question of whether the forage and stock-water values of her public range lands shall be taken, through increased grazing fees, for direct enrichment of the Federal treasury or whether these natural resource values shall remain on hand to support her stockraising land settlement (an economic operation of which is otherwise impossible) and the business, social, and tax structures of her local communities which are largely dependent upon the stockraising industry; and

WHEREAS, The Senate Committee on Public Land of the Congress of the United States, through a sub-committee, is now investigating the issues involved in a settlement of this problem, with hearings scheduled for various western points where all interests concerned may appear and testify; now, therefore, be it

*Resolved by the Assembly of the State of Nevada, the Senate concurring,* That a committee be appointed by the Speaker of the Assembly of the State of Nevada and the President of the Senate of the State of Nevada consisting of one Senator and one Assemblyman to represent this legislative body at the hearing to be held on this subject at Ely, Nevada, as now set for the approximate dates of March 12-14, 1945, the necessary travel and subsistence expenses of said committee to be reimbursed from the General Fund of the State of Nevada; be it further

*Resolved,* That the said committee shall present to the Senate Public Lands Sub-committee at the said hearing the stand of this legislative body as definitely opposed to the increased grazing fee policy being proposed by the Grazing Service and insisting that the same is directly contrary to the intent of Congress in its enactment of the Taylor Act to the effect that the said forage and water resource values should not be taken away from the local economies concerned for purposes of direct revenue to the Federal treasury; be it further

*Resolved,* That our Governor, as Chairman of our State Range Commission, hereby is urged to appear in behalf of Nevada interests as a whole at said sub-committee hearing in opposition to said increased grazing fee policy; and be it further

*Resolved,* That copies of this resolution be sent all members of the Nevada congressional delegation, to the Chairman of the Senate Committee on Public Lands, and the Hon. Harold L. Ickes, Secretary of Interior; and that a copy of same be delivered to the chairman of said sub-committee at said hearing.

Mr. Strosnider moved that rules be suspended, reading so far had considered first reading, rules further suspended, resolution read second time by title, and referred to Committee on Livestock.

Carried.

By Mr. Hussman :

Assembly Concurrent Resolution No. 11, directing the Nevada State Highway Engineer to place at top of the list of immediate and essential highway construction projects that portion of State Highway No. 19 beginning at the Nevada-California boundary at Lake Tahoe in Douglas County, and extending to the town of Genoa in Douglas County :

WHEREAS, One of the most important links in the Nevada-California highway systems is that portion of highway from Lake Tahoe to the town of Genoa, in Douglas County, Nevada, more particularly described as "beginning at a point on Route No. 3 near the California-Nevada State line at the south end of Lake Tahoe, thence easterly through Kingsbury Canyon toward (and to) the town of Genoa"; and

WHEREAS, The above-described section of highway is a part of State Highway Route No. 19 extending from the Nevada-California State line at Lake Tahoe to Topaz Lake on the Nevada-California State line, one of the most traveled routes between the two States; and

WHEREAS, Said section of highway was one of the first pioneer routes of travel into western Nevada from the State of California; was the route followed by the historic pony express which maintained a change station at the town of Genoa; was travelled by the intrepid Snowshoe Thompson carrying mail through the winter months from Placerville to Virginia City; and resounded to the creaking wheels of lumbering stage coaches carrying such legendary figures as Horace Greeley, Mark Twain, and many others famous in early Nevada history; and

WHEREAS, Said highway offers the most direct access from the rich livestock and agricultural regions of southwestern Nevada to the market areas along the Pacific coast, being some sixty-five miles shorter than any other highway route from the Mason Valley, Carson Valley, Smith Valley, and similar sections; and

WHEREAS, Much saving in transportation mileage means many thousands of dollars saved annually to Nevada shippers of livestock, hay, and other farm products; and

WHEREAS, Said highway traverses and opens up one of the best potential winter sports areas in the United States and, if and when improved, will facilitate the general public enjoying said area and the recreational possibilities both in winter and summer, all of which will mean the spending of untold thousands of dollars in the State of Nevada, and foster a vacation industry that will be a permanent asset to the State; and

WHEREAS, The present condition of such highway constitutes an affront to the people of western Nevada and particularly those of Douglas and adjacent counties, who have from the beginning pioneered and fought for good roads and highways; and

WHEREAS, The State Highway Department of the State of Nevada has allocated the sum of two hundred thousand dollars (\$200,000) of State and Federal highway funds for the construction and reconstruction of designated State highways in Douglas County; now, therefore, be it

*Resolved by the Assembly of the State of Nevada, the Senate concurring,* That the construction of a standard grade highway over that section of Highway Route No. 19 as herein classified by the State Highway Department be given first priority over the construction or reconstruction of any other sections of highway in Douglas County; and be it further

*Resolved,* That the Secretary of State of the State of Nevada deliver duly certified copies of this resolution to Governor E. P. Carville, Robert A. Allen, as State Highway Engineer, and to each member of the State of Nevada highway commission.

Mr. Hussman moved that rules be suspended, reading so far had considered first reading, rules further suspended, resolution read second time by title, and referred to Committee on Roads and Highways.

*Mr. Speaker:*

Your Committee on State Prison and Hospital for Mental Diseases composed of Messrs. Starks (Chairman), McElroy, Hall, Martin, Fairchild, Munk, and Smith report as follows:

The Committee members have visited the Nevada State Prison on several different occasions since the start of the session to discuss with Warden Richard Sheehy matters of policy, and to conduct an inspection of all buildings and installations at the Prison, as well as the Prison Farm, and to ascertain to what degree of efficiency the Prison and Farm is being managed.

Our inspection and investigation of the institution was complete and thorough, bearing in mind the idea that we might be able to make certain helpful recommendations to the State officials in charge. Our conclusions and recommendations follow:

1. We feel that the personnel of the Prison, both executive and administrative, is very efficient and at all times has the well-being of the institution at heart.

2. Your committee found that all buildings were in a good state of repair, with everything possible being done to maintain them in that condition.

3. The inspection of the kitchen, commissary, dining halls, bathrooms, etc., was careful and complete. Your committee feels that the executive personnel of the Nevada State Prison has done everything in its power to maintain sanitary conditions for the benefit and protection of the inmates of this institution.

4. Your Committee feels the present executive personnel has put this institution on a sound economic basis, with the per diem cost of maintaining the inmates at a lower figure than in most like institutions in the country. At the same time the inmates are well clothed and very well fed.

5. We found that many of the male prisoners were engaged in various lines of personal enterprise such as leather working and silversmithing; while the female inmates do fancy work and make rugs. Products of this labor are sold to provide the inmates with cigarettes, candy, and a few other luxuries.

6. A library is maintained. While many of the books and periodicals are old, we feel that this condition cannot be remedied at the present time, as most of the books and periodicals are being sent to the armed forces. The usual boxing matches of the past have been discontinued, owing to the lack of contestants. Baseball, basketball, and softball are practiced, weather permitting.

7. Your Committee feels that it is necessary for the well-being of the inmates that whenever possible they be employed in some necessary task. The license plate department employs a number of men periodically. Also a large number of men have been employed in the stone quarry in cutting stone to be used in the construction of the new cell block when steel and material are available. During the spring and summer season there are about forty men employed on the Prison Farm.

8. A thorough inspection of the Prison Farm was made. We found all buildings of the Farm in good repair, clean and sanitary, especially the dairy and creamery. The farm maintains a fine dairy herd and they are well kept and in good condition.

The Prison Farm furnishes meat, milk, eggs, and vegetables for the Prison. We were informed that a more extensive farming program is planned for the coming season, which will provide ample vegetables for the prison without procuring these commodities from outside markets.

The committee also compliments Mrs. Richard Sheehy in her interest and attention to the female inmates, of which there are seven at present.

This committee urges that as soon as the present war emergency is past, steps immediately be taken to acquire the necessary steel, mechanical devices, etc., to build and equip the new cell block. This would eliminate the present crowded condition that now exists, which no doubt presents a problem of immorality caused by the placing of two men in a cell designed to accommodate one man. Also the danger of guards removing a sick man at night.

GEORGE A. STARKS,  
H. O. HALL,  
J. F. McELROY,  
M. W. FAIRCHILD,

SID MARTIN,  
HARRY A. MUNK,  
FRANCIS R. SMITH.

Mr. Starks moved that the Assembly accept the report.

WHEREAS, During these years, and continuing as of the date hereof, the Federal Government, its departments and agencies have been acquiring for one purpose or another millions of acres of land situated throughout the Nation, and particularly in the western States; and

HON. CLIFFORD A. CARLSON, *Assembly Chambers, Carson City, Nevada.*

DEAR CLIFF: Under separate cover I am sending you a copy of the Congressional Record of March 9, in which your most worthy resolution appears.

It was an honor for me to present the Nevada Legislature's resolution to Congress, and I can assure you that I agree entirely with the views expressed.

I plan to introduce a bill into the House next week calling for changes in the Old-Age Pension program, which will permit recipients to earn up to twenty-five dollars per month, without the money affecting their grant from the Federal Government.

Of course I shall endeavor to get early approval of the measure, and hope that we may soon make it easier for our old residents to live. I shall keep you informed as to the progress of the measure.

With kindest personal regards, I am

Sincerely yours,

BERKELEY L. BUNKER.

PRESENTATION OF PETITIONS  
NEVADA STATE HISTORICAL SOCIETY, INC.  
RENO, NEVADA

March 15, 1945.

DEAR LEGISLATORS: Early in the session we requested photographs and biographies of the individual members. I expect to be in the Capitol Building most of the time today, and I will be glad to receive any that may be ready. If not available now, these items may be mailed to me at 120 East 9th Street, Reno, or they may be left at the Museum in the Washoe County Library Building.

I appreciate the unanimous vote you gave to Assembly Bill No. 128, and I wish to assure you that if we can find adequate space in which to work during the coming biennium, the results of your appropriation will speak for themselves.

Very sincerely yours,

JEANNE ELIZABETH WIER, *Secretary.*

*To Nevada State Assembly, Carson City, Nevada.*

We, the undersigned ranchers, farmers, and livestock men of Lincoln County, State of Nevada, do hereby petition you to exert influence, and do whatever is necessary to prevent that portion of Lincoln County, Nevada, which is not now in a district; from ever being placed in a grazing district, or leased for grazing purposes, or declared a game reserve; to remove that portion of Lincoln County which is now in a district from administration by the Taylor Grazing Act, thereby restoring to the State of Nevada the administration of all grazing land in the public domain; to reduce immediately the Taylor Grazing fee to three cents per cow unit for the following reasons:

1. We are situated in droughty section of the State of Nevada where it is very hot in the summer. Water is scarce and moisture is always below normal, compared with any other area in the State. Grass is scarce and we depend upon white sage and brush for our stock.

2. Livestock raised in this arid section of Nevada never fully grow out, and as a result must be sold either as feeders or canners. Two- and three-year-old steers raised here weigh an average of only about 700 pounds; the average calf crop is about 35 to 50 percent; and the winter loss is extremely high. All of which reduces the net return of local stockmen to less than 50 percent of that received by stockmen in other sections of the State of Nevada, where better range conditions exist.

3. The addition of Taylor Grazing fees further reduces, or completely absorbs, any profit received from the sale of livestock.

4. A large percentage of livestock owners in Lincoln County, Nevada, are now serving with the armed forces of the United States, fighting for freedom, and the establishing of a district, or an increase in grazing fees, without their voice in the matter, would be an act unfair to them.

5. The original estimated cost of administration of the Taylor Grazing Act was \$150,000. The result of recent proposals of the Department of the Interior to force additional grazing land under the administration of the Taylor Grazing Act, and to arbitrarily order a 300 percent increase in grazing fees would force livestock operators completely out of business. The rules and regulations of the agency change so often that it is not only a burden on, but a hindrance to livestock men.

6. The government is asking for an increase in the production of beef, but under the restricted range regulation of the Taylor Grazing Act, we would be forced to cut down our herds, thereby decreasing our production, instead of increasing production as requested.

7. And further, under the Taylor Grazing set-up as now administered, trespassers are not restricted to the area allotted to them; livestock men with well-established rights have no protection for their grazing land.

8. Many man-hours are lost and money wasted for meetings, wrangling about permits and intricate workings of this organization, whereas livestock men could far more profitably be taking care of their animals, and Government employees could be making themselves useful in the war effort.

We also indorse the following resolutions duly adopted by the Lincoln County Livestock Association:

That Congress eliminate so far as possible the agencies and bureaus of government not necessary to the prosecution of the war and essentials of government.

That Congress adopt a protective tariff "To Fully Protect Our Domestic Economy."

(The petition is on file in the office of the Secretary of State.)

Mr. Boak moved that certified copies of the petition from Lincoln County be made and forwarded to our Senators and Representative in Washington, D. C.

Carried.
