MESSAGE OF THE GOVERNOR TO THE
LEGISLATURE OF NEVADA
SPECIAL SESSION, 1964

CARSON CITY, January 20, 1964

*Mr. President, Mr. Speaker, Distinguished Members of the Legislature, and
Guests:*

One year ago I said to you: "The demands of an exploding population will tax the abilities of our most resourceful planners . . . new and more complex problems will spring up . . . and when these problems have been met and solved there will be others in their place. The voters, whether they be long-time residents or new arrivals, will expect their government to keep pace with growth. They will expect harmony and unity of purpose where legislation vital to the welfare of the public is concerned, and they will expect and demand bold and resourceful thought and action."

I am sure these words are at least as appropriate today as they were then.

Across the nation, economists are nearly unanimous in their predictions that 1964 will stand out as the year of plenty, the "affluent year." "The biggest and best year yet," one national news magazine predicts, giving this capsule report: "All kinds of records will be broken. Business activity will hit new highs. Profits will be bigger than ever before. Incomes will keep rising. Retail sales will boom." There is no reason to suggest that Nevada will not keep pace and that 1964 will not be a year of unmatched prosperity.

It is not unusual that some would have us stay in place a little longer, to wait, to observe, to rest. But this State was not carved out of a hostile wilderness by those who waited and rested contemplating the past and fearful of the future.

These times of plenty require special care on our part to insure that the public framework of society, on which everything else rests, *does not* fall into disrepair. During this time of great expansion, we daily see our schools becoming more crowded, our teachers more overworked and weary, our unmatched natural resources threatened by the unceasing advance of commercialization, and it is time for us to act. Our investment in our children and the bountiful resources which nature has given us are too valuable to ignore.

The problems I bring before you are not new. They were under study by this body last spring and have been since the 1963 adjournment. Those legislators who braved the icy rain and cold of Lake Tahoe to take a first-hand look at suggested park land and crisscrossed the State for a personal inspection of our schools, all at their own personal expense, continued the study in the highest sense of public service. The matters suggested by me today have been discussed personally with each of you and specific legislative proposals were placed in your hands a month ago so that adequate time for thought, consideration, and decision would be available to you prior to the beginning of the session.

Though not novel, our problems are demanding. My call for this special session, the first during my 5 years as Governor of this State, was not decided

lightly. I firmly feel many of the matters on the agenda cannot reasonably wait for the next regular session and that the public good can best be served by your deliberation and action now.

EDUCATION

The action of the 1963 session appropriated \$53,763,868 from the State's General Fund for local schools for the present biennium, or 53 percent of the total General Fund appropriation, no increase in the formula was provided. Based upon this year's actual enrollment, which is much greater than anticipated last year, there needs to be an additional appropriation of \$2,758,080 for the supplemental support of the present school formula. The State is firmly committed to provide this amount if nothing further is done.

You came to the conclusion at the last regular session that an additional \$5,740,000 would be necessary over and above the regular formula for the use of the local school districts in the present biennium and the sales tax increase was determined upon as means of providing this additional amount. Since the sales tax increase was rejected by Nevada voters, we do not at this time have available for appropriation the amount that you determined was needed. However, from unanticipated increases in our revenues, we do have available \$1.5 million which I am recommending to be appropriated from the General Fund surplus to a fund set up for distribution to the school districts. This figure falls far short of the \$5,740,000 you decided upon last spring, but it will provide some relief.

Few of us are happy with the distribution under the present so-called Peabody Formula. However, I do not think a special session is the place to attempt major revisions of this formula and would ask that you defer discussion of this until the regular session in 1965 at which time the Governor's Advisory Finance Committee and the Legislative Commission's Committee will have had an opportunity to present their proposals.

I propose that the \$1.5 million be appropriated from the General Fund and be distributed to the counties based upon the percentage that they are now receiving from the regular State Distributive School Fund for this present year. However, I do feel that there should be some limitations on this distribution. In the bill that accompanies this message are some limitations and you may wish to consider others.

Lincoln County presents a specific problem and will apparently be approximately \$40,000 short in meeting their expenses this year. This is based upon information from the county superintendent and from the Department of Education. Because of this, I am recommending an appropriation of \$40,000 to the fund set up under NRS 387.127 to be made available for Lincoln County for this present school year.

LAKE TAHOE PARK

"In conserving our national outdoor areas, opportunities delayed generally mean opportunities lost."

In this context our late President, John F. Kennedy, shortly before his death, specifically mentioned Lake Tahoe.

We have it in our power today to acquire and preserve at least one small portion of the unspoiled beaches and virgin back country for the enjoyment of generations to come.

In considering this matter, we cannot lose sight of the fact that Lake Tahoe is a state and national resource, a treasure that rightfully belongs to all of the people of our State no matter where they may be situated. Even though interest has been expressed from the late President of the United States on down, it is our decision and ours alone to make.

The loss of all of Lake Tahoe's majesty to the bulldozers of commerce would be a shame shared by all who failed to make every possible effort to save it. Lake Tahoe is not a sectional issue; it is a public issue, and everyone who was elected to serve the public welfare must be concerned.

Nevada is in a favorable position to deal for the park lands. Classification studies and appraisals have given us an approximate value of the land and there has been careful selection of the lands most suited to our park needs.

I propose two alternatives: A bi-state park bill or a Nevada park bill. Both

bills establish a park boundary within which lands may be acquired. In both proposals the suggested area is within the lands appraised and surveyed and the right of eminent domain is provided. Only one of these bills would be passed depending on whether you desire joint operation with California or a Nevada park exclusively.

The area proposed is identical in both bills and involves eventual acquisition of 19,914 acres. This would include 10 miles of shoreline of which about 2 miles are sandy beach.

It is contemplated that the State would acquire the proposed area over a period of 5 to 10 years. It is my thought that our first job is to acquire the property, then over a protracted period of time develop what we may have acquired. These lands have fortunately remained in a virginal state and development is of no urgency and may not be for many years. Acquisition is of prime importance now.

We are talking of a total purchase price of \$10 to \$15 million. For acquisition on the bi-state proposal, I recommend an appropriation of \$500,000. On the Nevada state park only, I recommend a bond issue of \$1,500,000.

There is now federal legislation pending that, if passed, would provide up to 50 percent of the total acquisition costs. It would further provide annual amounts for planning and development of the entire state park system. Such legislation may be enacted in the present session of Congress and possibly as soon as late spring of this year. It would be my hope that in anticipation of such legislation together with other federal funds now available and grants from foundations and private sources, the State need never appropriate another dollar for the Tahoe park acquisition. However, until legislation such as is here suggested is passed on the state level, we will not qualify for either federal or foundation assistance and could not reasonably expect private funds or gifts.

I am reasonably confident that we will be able to parlay the modest amount recommended into one of the foremost park attractions in America. I am reasonably confident that we can acquire a \$10 to \$15 million property with an appropriation of only \$500,000 if you desire a bi-state park, or \$1,500,000 if you decide that Nevada should go it alone. I know that such legislation must be passed before we can even try. I am confident that such action will neither now nor in the future penalize the park program in any other part of the State. In any event, the Legislature will have complete and final authority over the matter of any future state expenditures in this area.

It would seem to me prudent and economical that this legislation be passed now so that outside funds can be solicited and used. Even though this property could have been acquired just a few years ago at a fraction of the cost today, it is an indisputable fact that the property will never again be as cheap as it is today. Further time permitted to pass is wasted money at best, the loss of one of the nation's great natural resources at worst. History will judge us as harshly by what we failed to do as by what we did. Further failure, unwillingness or refusal to act in this vital area cannot help but indict us all.

LAKE TAHOE POLLUTION

We cannot speak of preserving the natural beauty of Lake Tahoe without touching on a serious threat to the water itself—pollution. This is basically a problem for solution on the user level, but the States of California and Nevada are lending their encouragement, support and prestige to local agencies so that they may continue the good work already under way. The governors of the two states have given their support to a seven-point course of action, which includes a recommendation that treated sewage be exported from the lake basin by the fall of 1965. A means of carrying out this recommendation is the treatment of sewage from the Nevada and California areas by the existing South Tahoe Public Utility District. This portion of the program is in the advanced planning stage and should be ready by the spring of 1964. The existing Nevada-Douglas County Sewer Improvement District, or such other districts as may later be determined most capable of carrying out this purpose, requires amendments to NRS 309 to broaden the statute and authorize the sanitary district to undertake and finance sewer works and collection systems to protect the lake waters and to provide sewers to the South Tahoe area. I am proposing that this be done in order to avoid delay in resolving the matter.

SOUTHERN NEVADA WATER PROJECT

Because of legislation now before the Congress which authorizes the Southern Nevada Water Project, it will be necessary to make certain minor revisions in the Colorado River Commission Enabling Act. These revisions should provide an adequate base in the law for contract negotiations and execution between the Colorado River Commission and the United States for the construction and operation of the vital water project. I ask that you make explicit the authority of the Colorado River Commission to sell water, in addition to its present authority to sell power, and to accept the operation and maintenance of the water facilities upon completion. It is the policy of the federal government to transfer operation and maintenance of works built under declamation law to the contracting agency.

AMENDMENT TO THE DRIVERS LICENSE FEE STATUTE

The 1963 Session of the Legislature changed the amount of the fee charged for a driver's license. Persons under 65 receive a license for a period of 5 years and are charged a fee of \$3. After the applicant reaches age 65, he must pay a fee of \$3 for a 2-year license. Therefore, persons under 65 pay 60 cents per year and persons over 65 pay \$1.50 per year. I think none will dispute the need for more frequent examinations of our older drivers, but I do not feel there is justification for the inequity in fees. I am proposing the removal of the discriminatory charge.

AMENDMENT OF ELECTION LAWS

It appears that a conflict exists in the time for closing of registration. NRS 293.515, Section 1, states "registration offices shall be open regularly for registration of voters for every election until the 30th day preceding the day of such election."

NRS 293.560 dealing with the same subject under Section 1 was amended by the 1963 Legislature to read as follows:

"Registration shall close at 9 p.m. of the 7th Saturday preceding any primary election and at 9 p.m. of the 6th Saturday preceding any general election."

In passing the amendment to 293.560 the Legislature failed to repeal the 30th day provision in 293.515.

It would appear appropriate to repeal Section 1 of NRS 293.515 in order to avoid confusion during the 1964 election.

FUND TO PROVIDE COUNSEL FOR INDIGENT CRIMINAL DEFENDANTS

Since the adjournment of the 1963 Session of the Legislature several important decisions have been filed by the Supreme Court of the United States. The general effect of these decisions is that unless counsel have been appointed at the expense of the state or county to defend criminal defendants without means of employing their own counsel, there results a violation of the constitutional guaranty for equal protection of the law, and that on proper application to the United States Supreme Court, that court will order the release of such defendant upon a proper petition, unless the state will provide within a reasonable time for the appointment of such counsel.

This applies likewise to the furnishing of a record on appeal. It applies likewise to all relief sought under post-conviction remedies, which in this State is restricted to the writ of habeas corpus. It would apply then to all original writs considered by the Supreme Court and all appeals to that court from the denial of the writ by a district court.

A number of such cases are likely to occur during this biennium. An appropriation for these purposes is necessary. After conferring with the Chief Justice of the Supreme Court, I am of the view that \$10,000 is adequate.

CORRECTIVE LEGISLATION FOR AUTHORIZED DORMITORY AT THE UNIVERSITY OF NEVADA

In 1961 the Legislature passed enabling legislation authorizing the Board of Regents to issue revenue certificates in the amount of \$2.4 million to provide dormitories at the University (Chapter 282, Statutes of Nevada, 1961). The

legislation provided for a dormitory for approximately 300 men and a dormitory for approximately 300 women. The University has since revised their plans and should like to construct one dormitory for approximately 560 students. The housing and home finance agency with whom the University has entered a loan agreement to insure the sale of the revenue certificates stipulates that two separate buildings are to be constructed and further maintains that the cost of furniture will have to be within the \$2.4 million authorized by Chapter 282, Statutes of Nevada, 1961. The University is requesting, and I am recommending, corrective legislation.

CORRECTION OF SALARY BILL ERROR

The draft of the unclassified salary bill supplied to the bill drafter erroneously omitted the increase for the State Engineer. The Budget Director informs me that the bill should have reflected the intent of the finance committees to increase the salary from \$12,100 to \$13,200 as of July 1, 1963. I ask you to consider a bill to accomplish this salary increase.

LEGISLATIVE FUND APPROPRIATION

Because a special session of the Legislature is limited in its business to matters brought before it by the Governor, there has been some question as to whether it is necessary for me to specifically recommend the appropriation of moneys for expense of the session. However, to insure there will be no legal difficulties, I formally request you to enact necessary legislation appropriating money to the Legislative Fund for the purpose of defraying expenses of the special session.

AVAILABILITY OF FUNDS

None of the proposals made in this message will necessitate any additional taxes. All of the appropriations can be made from within existing tax revenue sources and from moneys which are now or will be available in the General Fund. Nor, in my opinion, do these proposals place such a burden on General Fund tax revenue that a general tax increase will be required in the near future. These proposals will leave \$7.9 million in the General Fund surplus on July 1, 1965, and \$3 million in the unused bonding capacity at the same time, or a spending capacity of \$6.9 million, which will be available in 1965 for capital improvements and nonrecurring miscellaneous appropriations, and a reserve of \$4 million.

We are all trustees for the people of Nevada, custodians of our heritage and pathfinders for the future. While it is my task alone to report to you the condition of the State, we share the task of improving it. This task calls for us to perform to our fullest capacity, to serve the best interests of our State, and not to be detoured from our goals by the fainthearted, the unknowing, or the selfishly motivated. We have the will and the means to move ahead. I am confident you will provide the impetus and the direction.

After meeting or communication with each of you, I know we share the hope for a session unmarred or delayed by friction or bickering. I am sure we share with the general public the hope that this session will be short and decisive. There are relatively few matters on the agenda, none of them new.

As you assess and seek to solve these problems, I pray you not to seek the small county solution or the big county solution, the Republican solution or the Democratic solution but the right and proper solution, and in so doing I join with all Nevadans in expressing gratitude for your public service and best wishes in your deliberations.

MESSAGES FROM THE GOVERNOR
THE STATE OF NEVADA
EXECUTIVE CHAMBER

CARSON CITY, January 27, 1964

HON. NORMAN D. GLASER, *Speaker, Nevada State Assembly*

DEAR MR. SPEAKER: I have been requested to extend the subject matter of my message to this Special Session of the Nevada Legislature by requesting that you consider legislation amending Chapter 310 of the Nevada Revised Statutes. These amendments should be in addition to those proposed to Chapter 309 of NRS. Chapter 310 contains the statutes governing sewage, water, and garbage disposal districts in Nevada. The proposed amendments to Chapter 310 would provide the county commissioners acting as a sanitation board for districts created pursuant to the provisions of this chapter with additional powers.

I recommend that you consider these amendments as another step toward preventing the pollution of Lake Tahoe.

Respectfully yours,

GRANT SAWYER, *Governor*

INTRODUCTION, FIRST READING, AND REFERENCE

By Mr. Jacobsen:

Assembly Bill No. 15—An Act to amend Chapter 310 of NRS, relating to sewage, water and garbage disposal districts, by adding new sections providing definitions of certain words and terms; by providing the method for the organization of such districts, the methods of financing, the levy of taxes and the issuance of bonds; by providing for the inclusion and exclusion of property and the method of dissolving a district; to repeal NRS Sections 310.010 to 310.180, inclusive, relating to sewage, water, and garbage disposal districts; and providing other matters properly relating thereto.

Mr. Jacobsen moved that the bill be referred to the Committee on State, County, and City Affairs.

Motion carried.

Remarks by Mr. Knisley.

SECOND READING AND AMENDMENT

Senate Bill No. 13.

Bill read second time, and ordered to third reading.

Mr. Speaker announced that if there were no objections, the Assembly would recess subject to the call of the Chair.

MESSAGES FROM THE SENATE

SENATE CHAMBER, CARSON CITY, January 30, 1964

To the Honorable the Assembly:

I have the honor to inform your honorable body that the Senate amended, and on this day adopted, as amended, Assembly Concurrent Resolution No. 4, and respectfully requests your honorable body to concur in said amendment.

LEONA MUNK

Assistant Secretary of the Senate

MOTIONS, RESOLUTIONS, AND NOTICES

Mr. Gibson moved that all rules be suspended, Senate Bill No. 16 declared an emergency measure under the Constitution, and placed on the General File for third reading and final passage.

Motion carried.

Mr. Speaker announced that if there were no objections, the Assembly would recess for 3 minutes.

GENERAL FILE AND THIRD READING

Senate Bill No. 16.

Bill read third time.

The following amendments were proposed by the Committee on Ways and Means:

Amendment No. 65.

Amend section 1, page 1, line 2, by striking out the figure "\$1,250,000," and inserting in lieu thereof the figure "\$1,500,000."

Mr. Gibson moved the adoption of the amendment.

Remarks by Messrs. Gibson and Young.

Messrs. Young, Jacobsen, and McNamee requested a roll call on Mr. Gibson's motion.

Roll call on Mr. Gibson's motion:

YEAS—30.

NAYS—Howard, Jacobsen, Young—3.

Absent—Herr, Palludan, Petrini, Pozzi—4.

The motion having received a majority, Mr. Speaker declared it carried, and the amendment adopted.

Amendment No. 68.

Amend sec. 3, page 2, by striking out lines 10 and 11 in their entirety and inserting in lieu thereof the following:

"Sec. 3. NRS 387.127 is hereby amended to read as follows:

387.127. 1. [Whenever] *From July 1, 1963, until July 1, 1965, whenever* the state board of education finds that any school district, actually employing 45 or less certified employees and for which there has been levied the maximum local tax of \$1.50 for operating costs as authorized by law (and not including any special tax authorized by the provisions of NRS 387.290), and in which school district the county average ratio of assessed valuation of property to true valuation computed pursuant to the provisions of NRS 387.200 is equal to or greater than the state average, cannot meet its budget requirements, the state board of education is authorized to make special quarterly apportionments, not to exceed a sum equal to [\$250] \$125 multiplied by the number of certified employees actually employed by the school district, from the [emergency] state distributive school fund, payable at the same time as regular apportionments are paid [from the state distributive school fund. The state board of education is authorized to make regulations necessary to carry out the provisions of this subsection.

2. There is hereby created in the state treasury the emergency state distributive school fund. Moneys for the emergency state distributive school fund shall be provided by legislative appropriation from the general fund.] , *except that in school districts employing 45 or less certified employees which meet the conditions specified above in this subsection in which the assessed valuation per pupil is less than \$16,000 per pupil, the state board of education is authorized to make special quarterly apportionments not to exceed a sum equal to \$375 multiplied by the number of certified employees actually employed by the school district.*

2. *On and after July 1, 1964, and until July 1, 1965, whenever the state board of education finds that any school district:*

(a) *Which actually employs not less than 46 or more than 150 certified employees; and*

(b) *For which there has been levied the maximum local tax of \$1.50 for operating costs as authorized by law (and not including any special tax authorized by the provisions of NRS 387.290); and*

(c) *In which the county average ratio of assessed valuation of property to true valuation computed pursuant to the provisions of NRS 387.200 is equal to or greater than the state average; and*

(d) *In which the assessed valuation per pupil in average daily attendance is less than \$16,000; and*

(e) *In which the proportion of federal funds received under the provisions of Public Law 874, 81st Congress, approved September 30, 1950, as amended, is less than 25 percent of the funds available to the school district from the state distributive school fund, cannot meet its budget requirements, the state board of education is authorized to make special quarterly apportionments, not to exceed a sum equal to*

\$145 multiplied by the number of certified employees actually employed by the school district, from the state distributive school fund, payable at the same time as regular apportionments are made.

3. *The state board of education is authorized to make regulations necessary to carry out the provisions of this section.*

Sec. 4. The emergency state distributive school fund heretofore established by law is hereby abolished. Upon passage and approval of this act the state controller is directed to transfer any moneys remaining in the emergency state distributive school fund to the state distributive school fund. The sum of \$45,000 heretofore appropriated to the emergency state distributive school fund for the fiscal year beginning July 1, 1964, and ending June 30, 1965, by the provisions of section 21 of chapter 476, Statutes of Nevada 1963, at page 1336, is hereby reverted to the general fund in the state treasury.

Sec. 5. 1. Sections 1 and 2 of this act shall become effective on July 1, 1964. Section 2 of this act shall expire by limitation at 12 p. m. on June 30, 1965.

2. Sections 3 and 4 of this act shall become effective upon passage and approval of this act, and section 3 shall operate retroactively from July 1, 1963. Any school district which, on and after July 1, 1963, and prior to the effective date of section 3 of this act, has received special quarterly apportionments pursuant to the provisions of NRS 387.127 as that section read prior to amendment by this act and qualifies for special quarterly apportionments pursuant to the provisions of NRS 387.127 as amended by this act, shall receive a sum of money equal to the difference between the amount so paid and the amount which would have been paid if section 3 of this act had been in effect on July 1, 1963, upon making written application therefor to the state board of education.

3. Notwithstanding the provisions of NRS 354.395 or any other law, any school district which receives additional funds pursuant to the provisions of section 3 of this act during the fiscal year ending June 30, 1964, may amend its budget for the fiscal year ending June 30, 1964, without complying with the provisions of NRS 354.395, and the budget so amended may exceed the total amount of the budget initially filed for that fiscal year by the amount anticipated to be received pursuant to the provisions of section 3 of this act.

4. Nothing in this act shall be construed to prevent the state board of education from making a final adjustment in August 1965 of the additional apportionments herein authorized when final adjustments of regular apportionments are made pursuant to the provisions of paragraph (d) of subsection 2 of NRS 387.125."

Mr. Gibson moved the adoption of the amendment.

Remarks by Messrs. Gibson and Gray.

Amendment adopted.

Amendment No. 69.

Amend the title of the bill by striking out the title in its entirety and inserting in lieu thereof the following:

"An Act providing temporary financial relief for school districts of the State of Nevada; creating the 1964-1965 special state aid school

fund in the state treasury and making an appropriation thereto; providing for distributions from such fund to the school districts of this state during the fiscal year 1964-1965; authorizing the state board of education to make necessary regulations; providing for the reduction of the amount of loss of state aid to school districts for the fiscal year 1964-1965 under certain circumstances; to amend NRS section 387.127, relating to the apportionment of the emergency state distributive school fund, by abolishing the emergency state distributive school fund and requiring the transfer of moneys therein to the state distributive school fund; reverting to the general fund in the state treasury the sum of \$45,000 appropriated to the emergency state distributive school fund for the fiscal year 1964-1965 by the 1963 general appropriation act; providing for the payment of special quarterly apportionments from the state distributive school fund to financially distressed school districts under certain conditions for various periods, all ending June 30, 1965; providing that certain provisions of this amendatory act shall operate retroactively from July 1, 1963, and that budgets of school districts for the fiscal year 1963-1964 may be amended to reflect receipt of additional moneys pursuant to this act; and providing other matters properly relating thereto."

Mr. Gibson moved the adoption of the amendment.

Remarks by Mr. Gibson.

Amendment adopted.

Bill ordered reprinted, re-engrossed, and to third reading.

MESSAGES FROM THE GOVERNOR

THE STATE OF NEVADA

EXECUTIVE CHAMBER

CARSON CITY, February 4, 1964

THE HONORABLE NORMAN D. GLASER, *Speaker, Nevada State Assembly*

DEAR MR. SPEAKER: At the request of the delegation from Lander County, I wish to bring before the Legislature an emergency which affects the health of the people living in and around Lander County and the many persons who pass through the area.

The absence of a proper community hospital has been of concern for some time. Lander County officials feel they now are in a position to start this goal toward reality and are requesting legislative permission for a transfer of real property within their county.

I submit this matter to your houses for consideration in the belief that further delay would cause needless suffering and inconvenience to the people of Lander County.

Respectfully yours,
GRANT SAWYER, *Governor*

REMARKS FROM THE FLOOR

Mr. Godbey requested that the following be entered in the Journal:

FELLOW LEGISLATORS: As your civil defense chairman, I would like to give you a short briefing on the program and to present some facts for your consideration at a later date.

I feel that in the past we have not given sufficient consideration to the protection of our lives and property and the preservation of our democratic way of life during a natural or war-caused disaster.

Contrary to some reports you may have heard, much progress has been made in the program during the 13 years the State Civil Defense Agency has been in existence. We are getting better leadership from the federal government, the planning has been clarified, and the organization of the program has been greatly improved.

The federal government each year is giving the states more assistance for civil defense, by providing matching funds for personnel, administration, equipment, training, communications, issuing invitational travel orders, and by donating radiological equipment. Also, emergency hospitals, of which Nevada has 21, are stored throughout the states.

The federal government can go just so far in helping us to develop an adequate civil defense capability, because it is necessary that state funds be provided for matching and that we have sufficient staff members in the state agency to coordinate the program as outlined by the federal government.

The new concept in civil defense is to provide shelters, not only for every citizen of our country, but extra shelters in the event people are traveling or visiting away from home. The aim is to provide 240 million shelter spaces in the United States during a 5-year period, and to have them stocked with federal supplies.

A bill was passed by the House last September, and is now in the Senate Armed Forces Committee, to provide financial assistance from the federal government, \$25 per shelter space of 10 square feet, in schools, hospitals, welfare institutions, and existing and new county, state, and federal structures.

The goal of H.R. 8200, the Shelter Development Bill, is to provide about 90 million shelter spaces in addition to the 90 million already made available through the National Shelter Survey, Marking, and Stocking Program.

President Lyndon B. Johnson has recommended the passage of H.R. 8200 and in addition an adequate federal civil defense budget. He has recommended a \$1.3 billion cut in the Defense Department budget, but he has further recommended that the civil defense budget be increased four-fold, from \$100 million to \$400 million.

Secretary of Defense Robert S. McNamara, in testimony before the House Armed Services Committee, stated:

"Far more important: the effectiveness of an active ballistic missile defense system in saving lives depends in large part upon the existence of an adequate civil defense system. Indeed, in the absence of adequate fallout shelters, an active defense might not significantly increase the proportion of the population surviving an 'all out' nuclear attack.

"Offensive missiles could easily be targeted at points outside the defended area and thereby achieve by fallout what otherwise would have to be achieved by blast and heat effects. For this reason, the very austere civil defense program recommended by the President, which I will discuss later, should be given priority over procurement and deployment of any major additions to the active defenses.

"Civil defense is an integral and essential part of our over-all defense posture. I believe it is clear from my discussions of the Strategic Retaliatory and Continental Air and Missile Defense Forces that a well planned and executed nationwide civil defense program centered around fallout shelters could contribute much more, dollar for dollar, to the saving of lives in the event of a nuclear attack upon the United States than any further increases in either of those two programs. Indeed, our studies indicate that an effective civil defense program could increase the number of persons surviving a determined Soviet nuclear attack in the 1970 period by tens of millions, at a total investment cost to the federal government of about \$3½ billion."

Nevada is far ahead of the national average in locating shelter space for our citizens; we now have spaces for about 35 percent of our population. We have located 98,167 spaces in 144 facilities, 95,063 of which have been marked and 73,025 stocked. The federal stockpiles are being shipped into, or stored near, the shelters at the present time. There are about 50 additional buildings and other facilities on the updating list, which are being surveyed by the firm of Lockard, Casazza & Parsons & Associates.

Our state civil defense budget should be a matter of grave concern to us. As you know, for the past several years the money appropriated for civil defense has ranged from \$17,000 to the present \$21,018, which, since January 1961, has been matched with federal funds.

In 1960, the Congress of the United States passed PL85-606, which provided matching funds to state and local agencies for personnel and administrative expenses. During the 10 years prior to that time, the State Civil Defense Agency staff consisted of two persons. Through the use of federal funds, the staff has been increased to five, but the money provided for civil defense in our State is still not sufficient to coordinate a statewide program.

One factor has been overlooked by the Legislature in approving the civil defense budget. During a natural disaster, such as a flood, an earthquake, drought conditions, etc., of which many have occurred in Nevada, there are many added expenses.

Each time we have a natural disaster, it requires 30 to 60 days of one person's time to inspect the damage, make application for federal funds, inspect the work when it is completed, work with federal auditors, not to mention extra clerical work, office supplies, telephone, etc. No funds have ever been appropriated for these emergencies, and during that time it is especially difficult to cover the expenses with the normal civil defense budget.

In addition, many hours of overtime work are required by members of the State Civil Defense Agency staff.

Since 1961, there have been approximately \$750,000 in federal funds administered by the state agency on floods in six counties of Western Nevada and the Battle Mountain area.

In addition to the state staff, five men in other departments are working full time on civil defense and paid entirely by the federal government. They are: Howard Rawls, health mobilization consultant, in charge of the medical self-help program and emergency hospitals; Lee H. Burnham, defense and mobilization coordinator, Employment Security Department; T. Joseph Snyder, rural civil defense specialist, Max C. Fleischmann College of Agriculture, University of Nevada, on the rural civil defense program; and N. H. Carver, coordinator, and Vincent Conners, instructor, civil defense training program, University of Nevada Statewide Services.

I am sure you are interested in the continuity of government legislation, which would provide succession to office, preservation of records, protected emergency operating centers, and full utilization of government facilities in emergency.

The bill, introduced by Senator Walter Whitacre and passed in 1961, and passed again in 1963, is now ready for a vote of the people. You will find on the November ballot an amendment to the Constitution to provide for this important legislation.

The federal adult education program, which is being conducted in 47 of the 50 states, has not yet been started in Nevada because the State Legislature has refused to accept it. This program, which provides for a 10-hour night school course in personal and family survival, is entirely financed by the federal government and would enable the people of our State to receive a great deal of information about civil defense.

In 1960, the Department of Health, Education, and Welfare initiated the program by contracting with seven states for this instruction. In 1961, both the State Department of Education and the State Civil Defense Agency wrote to Washington, D.C., inquiring about the program. All funds had been allotted for 1961, but Nevada was offered a contract to provide \$20,000 in federal funds for the 10-hour night school course to be taught from January 1962, through July 1962.

Byron Stetler, State Superintendent of Public Instruction, stated that, according to Assembly Bill No. 130, Chapter 39, of the Nevada 1961 Statutes, the State Department of Education could accept these federal funds but would not be allowed to spend them without legislative sanction. For that reason, the contract was returned to the Department of Health, Education, and Welfare, informing them that we could not participate in the program, and of course the money was reapportioned among other states participating in the program.

Again last year, the federal government offered the State of Nevada \$50,000 to have this program administered in Nevada from July 1, 1963, through June 1964. This program was included in the budget of the Department of Education, and the Legislature cut it out. Again, the Department of Health, Education, and Welfare was informed that we could not participate in the program, and the money was again reapportioned to other states.

The only states not participating in this program at the present time are Michigan, Utah, and Nevada. These funds are still available from the federal government and the program can be initiated in Nevada if the State Legislature will approve the funds.

Next year, an amendment to the state law will be presented to the Legislature, proposing a change in the number of members on the State Civil Defense Advisory Committee from 15-25 to 5 members. This change is recommended because of lack of travel funds in arranging meetings.

In summarizing, we need:

(1) A reasonable state civil defense budget, not only for normal times, but to take care of administrative costs in natural disasters and to properly coordinate the civil defense program throughout the State.

(2) Passage of the amendment to the Constitution in the November election to provide for continuity of government.

(3) Acceptance by the State Legislature of the Federal Adult Education Program to provide for the 10-hour night school course in Individual and Family Survival.

(4) Change in the State Civil Defense Law to reduce the number of members on the State Civil Defense Advisory Council to five.
